Speaking For Patients And Carers:

Speaking for Patients and Carers Rob Baggott, Judith Allsop, Kathryn Jones, 2017-03-16 Speaking for Patients and Carers draws on original research and is based on a theoretical framework taken from sociology and politics It examines health consumer groups in the context of specific conditions Arthritis and related conditions cancer heart and circulatory disease maternity and childbirth and mental health It also analyzes their interaction with government health professionals and the media and assesses their impact on policy

Patient Participation in Palliative Care Barbara Monroe, David Oliviere, 2003 Patient participation and user involvement are central to current thinking about the effective delivery of desired healthcare outcomes Working with the person who lies behind every patient is core to palliative care A voice can only become significant when it is listened to and acted upon With palliative care increasingly addressing the needs of people with a variety of conditions in a range of settings as well as with advances in research technology and information the challenge to be a voice for the voiceless is greater than ever This book addresses key aspects in the provision of patient centred palliative care and tracks significant developments in user involvement It sets the philosophy within the cultural social and political context of modern healthcare particularly addressing issues of quality standards education and bereavement A key component in the delivery of high quality palliative care is the multi professional team Following a discussion of teamwork five core professions present a critical analysis of their working practices The book concludes with a commentary from a palliative care user and a bereaved carer It is often somewhat glibly asserted that the patient is or should be at the centre of care There have been few attempts to examine how to keep him or her there without professional needs and protocols crowding him or her out This book asks how we listen and why we listen The book focuses on the challenges of how professionals can keep the needs of the patient central in clinical care and how the patient can influence the direction of that care

Nursing Care and the Activities of Living Ian Peate, 2010-01-19 This book gives a practical focus to the underpinning theory of nursing in order to help students through the academic part of their undergraduate course as well as their placement The book is based on the activities of living model so each activity has its own chapter allowing readers to dip in and out It is essential reading for students enabling them to understand and manage the many clinical issues they face on a daily basis when nursing adults on wards in clinics and in the community setting

Inpatient Functional Communication Interview Robyn O'Halloran, Linda Worrall, Deborah Toffolo, Chris Code, 2019-10-08 The Inpatient Functional Communication Interview Screening Assessment and Intervention IFCI SAI is a set of four resources for speech language pathologists SLPs and other healthcare professionals working in acute and rehabilitation hospitals They can be used separately or together to enhance patient provider communication in hospitals The IFCI SAI has been developed so healthcare professionals can identify and support patients who have difficulty communicating with a focus on patients with communication disability The following resources are included Screening Questionnaire Designed to identify patients who

have difficulty communicating about their healthcare and will need support to communicate with healthcare providers in hospital Inpatient Functional Communication Interview IFCI A semi structured interview that the SLP conducts at the patient's bedside During the interview the SLP investigates how well the patient can communicate in everyday healthcare communication activities If the SLP and patient have difficulty communicating the clinician investigates if any communication supports or strategies enable successful communication Impairment Rating Scales These assist the SLP to rate their initial clinical impressions of the patient's speech intelligibility spoken language and cognitive communicative function Each rating scale provides descriptions of speech language and cognitive communicative function on a five point scale ranging from no impairment to complete impairment Environmental Questionnaires EQs The set of EQs assist SLPs and other healthcare professionals to screen the communicative environment for factors influencing patient provider communication in their setting Once the factors that influence patient provider communication have been identified SLPs and other healthcare professionals may be better informed and more able to systematically address these factors to develop communicatively accessible hospital services
