The Cross and the Star Wayne Cristaudo, Frances Huessy, 2009-05-27 Eugen Rosenstock Huessy a Christian convert and a social philosophy scholar had an intense conversation with the Jewish thinker Franz Rosenzweig in 1913 This Leipzig Conversation shattered Rosenzweig s understanding of the meaning of religion but it also propelled him to embrace his innate Jewish faith Three years later they engaged in a correspondence that has emerged as an historic stunning dialogue on Jewish Christian thinking Rosenzweig went on to write *The Star of Redemption* a classic work of modern Jewish philosophical theology and to become one of the most important and influential figures of twentieth century German Jewry Rosenstock Huessy took a different path writing his *Sociology* which pointed the social sciences in a new direction based on speech thinking and an enormous rich body of work covering grammar and society revolutions Church history and industrial law teaching generations of European and American university students and putting his faith into action This is the first major collection of essays on these two close friends new thinking Their dialogue mirrored Nietzsche s anti transcendent reading of Judaism and Christianity as well as his attack on idealism But their dialogue also resurrected the redemptive cores of these faiths as sources for the rejuvenation of human society This book brings to publication three essays by Rosenstock Huessy on Nietzsche and a translation of a chapter from his *Sociology* clarifying the post Nietzschean approach of the new thinking *The Cross and the Star* a 50 year span of significant scholarship vivifies the reasons for Rosenzweig s and Rosenstock Huessy s influence on faith and society and why their respective thought speaks directly and enduringly to the global human challenges of our time

Augmented Reality Andrew Yeh Ching Nee, 2011-12-09 Augmented Reality AR is a natural development from virtual reality VR which was developed several decades earlier AR complements VR in many ways Due to the advantages of the user being able to see both the real and virtual objects simultaneously AR is far more intuitive but it s not completely detached from human factors and other restrictions AR doesn t consume as much time and effort in the applications because it s not required to construct the entire virtual scene and the

environment In this book several new and emerging application areas of AR are presented and divided into three sections The first section contains applications in outdoor and mobile AR such as construction restoration security and surveillance The second section deals with AR in medical biological and human bodies The third and final section contains a number of new and useful applications in daily living and learning **Reality** ,1928 **The Production of Reality** Jodi

Reality and Evangelical Theology Thomas F. Torrance, 2003-03-03 T F Torrance is widely recognized as one of our most important twentieth century theologians And scholars of Torrance suggest Reality Scientific Theology is one of his most accessible works Torrance s insights on Christian epistemology are remarkably relevant in light of recent discussions on realism and antirealism in philosophy and theology Torrance brilliantly sets forth no naive or even critical realism but rather an evangelical realism knowledge grounded in the revelation of God in Jesus Christ He not only constructively argues the case for an evangelical realism but compares and contrasts theological knowledge with natural scientific knowledge and shows how the Bible can function authoritatively in a fragmented church This edition of Reality and Evangelical Theology includes an in depth foreword that contextualizes Torrance s seminal theological work in light of recent debates over postmodern and postcritical hermeneutics to Scripture It will handsomely repay engagement or reengagement by theologians philosophers students and thoughtful pastors
