Speeches For Our Time:

Eisenhower for Our Time Steven Wagner, 2024-04-15 Eisenhower for Our Time provides an introduction to the Eisenhower presidency extracting lessons for today's world. Steven Wagner proposes that the need to maintain balance defines Eisenhower's presidency. Wagner examines a series of defining moments that were among Eisenhower's greatest challenges, some of which resulted in his greatest accomplishments: the decision to run for president, his political philosophy of the Middle Way, the creation of a national security policy, the French Indochina War, Senator Joseph McCarthy, the Little Rock Desegregation Crisis, the Race for Space, and the famous Farewell Address. Wagner looks at Eisenhower's executive ability, leadership, decision making, and willingness to compromise, as well as the qualities of duty, integrity, and good character. The moments detailed in Eisenhower for Our Time show Eisenhower as a president intimately engaged in the decisions that defined America in his time and that apply to ours today. The President's actions place him among the most successful presidents and provide many lessons to guide us in our time and in the future. *Sounds of Our Times* Robert T. Beyer, 1999 A history of acoustics from the 19th century to the present, written by one of the pre-eminent members of the acoustical community. The book is both a review of the major scientific advances in acoustics as well as an account of famous acousticians and their discoveries, taking in the development of the Acoustical Society of America. Acoustics is distinguished by its interdisciplinary nature, and the book duly explores the field's development in its relationship to other sciences. In addition to covering the history of acoustics, the book concludes with the future of acoustics. Beautifully illustrated. *A Life in Our Times* John Kenneth Galbraith, 2019-07-31 In his memoirs, John Kenneth Galbraith recalls amusingly, even brilliantly, the important and low moments in his life: the men and women he met who were great, only interesting, entertaining, or even absurd. Galbraith studied agriculture in his native Canada and agricultural economics at UC Berkeley. He taught at the University of California, served briefly in FDR's administration, and went on to Harvard. In Cambridge, England, he discovered the new economics of John Maynard Keynes. During World War II in Washington, he held the key job of organizing and administering the system of wartime price controls. After the war, Galbraith directed the survey that interrogated former Nazi leaders to assess the effects of the air war on the German economy. He then worked for the State Department as administrator for economic affairs in the occupied countries and served as an editor of *Fortune*, when the magazine employed some of the best writers around. Galbraith returned to Harvard in 1948 and wrote three of the most influential books on economics of his time: *The Affluent Society*, *The New Industrial State*, and *Economics and the Public Purpose*. In these lively memoirs, the author relates all of this and more, his two major political campaigns with Adlai E. Stevenson for whom he was adviser and speech writer, and John F. Kennedy for whom he campaigned across the country, his years as ambassador in India, and his long opposition to the Vietnam war. And he shares the lessons learned from these experiences. On every subject, Mr. Galbraith is succinct and witty. The book is full of strong opinion and proceeds by the vehicle of anecdote. The serious

business of the book is to trace the steps of its author's astonishingly varied and useful life. Mr Galbraith's vigor of expression as well as an account of a period of gloom and psychotherapy prevents the writing from ever sounding impersonal. That serious business is also to set the record straight on what his books were about and how he evolved his theory of The Affluent Society and The New Industrial State as two of his most important works were named on why the bombing of Germany during World War II was less than useless why it was patently unnecessary to wage atomic warfare on Japan and why he came to be a dissenter on the war in Vietnam On inflation On the secular priesthood that once presided at the State Department And enchantingly on such movers and shakers he came to know well as the New Dealer Leon Henderson Paul Baran the most interesting economist I have ever known Bernard M Baruch Adlai E Stevenson John F Kennedy and Lyndon B Johnson Christopher Lehmann Haupt The New York Times As a raconteur and a literary stylist Galbraith stands with the best As entertainment the book is a total success Its charm comes from the combination of Mr Galbraith's smooth comic timing and his not always charitable wit James Fallows The New York Times Galbraith ranks with the most entertaining and provocative political writers in America in this century Without Galbraith the political literature of our time would be far drearier Gaddis Smith Foreign Affairs Galbraith has assembled a well nigh complete record of what he has been up to professionally at least since leaving his family's Ontario farm The account is fascinating The narrative consistently holds the distinctive Galbraith style that makes all his books read like a nippy breeze Geoffrey Colvin Christian Science Monitor Absorbing and irresistible The New Yorker An enjoyable book full of fun full of wisdom and full of rare insights into the history of our times The New Republic A delightfully teeming book Galbraith's comic voice is a distinctive and durable literary achievement Atlantic Monthly A highly perceptive commentary on all our yesterdays anecdotal amusing animated and above all illuminating John Barkham Reviews [Listening to Speech](#) Steven Greenberg, William Ainsworth, 2012-12-06

The human species is largely defined by its use of spoken language so integral is speech communication to behavior and social interaction Despite its importance in everyday life comparatively little is known about the auditory mechanisms that underlie the ability to understand language The current volume examines the perception and processing of speech from the perspective of the hearing system The chapters in this book describe a comprehensive set of approaches to the scientific study of speech and hearing ranging from anatomy and physiology to psychophysics and perception and computational modeling The auditory basis of speech is examined within a biological and an evolutionary context and its relevance to applied domains such as communication disorders and speech technology discussed in detail This volume will be of interest to scientists engineers and clinicians whose professional work pertains to any aspect of spoken language or hearing science

Speeches Henry Charles Keith Petty-FitzMaurice Marquess of Lansdowne, 1894 [Analysing Political Speeches](#) Jonathan Charteris-Black, 2018-08-24 Exploring speeches by public figures such as Emma Watson Tony Blair Donald Trump Julia Gillard and Lady Gaga this engaging textbook explains the ways in which political speeches can be analysed It examines

the role of language in speeches and how it can be used to challenge or reinforce prevailing social cultural and political attitudes Each chapter introduces a particular discourse approach and then applies this in a model analysis of a passage of text The chosen texts concern issues of social cultural and political importance that address topics of significant importance to the audience to which they were delivered Students are encouraged to engage with the text and consider how approaches to text analysis such as cohesion context analysis and metaphor analysis may be adapted to provide a more critical perspective This text will be essential reading for students of English language linguistics communication studies and politics on critical discourse and discourse analysis modules

Text, Speech and Dialogue Petr Sojka,Ivan Kopecek,Karel Pala,2006-09-08 Here are the refereed proceedings of the 9th International Conference on Text Speech and Dialogue TSD 2006 The book presents 87 revised full papers together with 2 invited papers reviewing state of the art research in the field of natural language processing Coverage ranges from theoretical and methodological issues to applications with special focus on corpora texts and transcription speech analysis recognition and synthesis as well as their intertwining within NL dialogue systems
