of 1989 on the Third World the on and off connections between political and economic progress and the role of conflict in enhancing community spirit in a liberal democracy **Theory of Value** Roy W. Perrett, 2013-10-15 First Published in 2001 While classical Indian philosophy is incredibly rich in rigorous discussions of topics in epistemology logic and metaphysics comparable discussions in the areas of ethics politics and aesthetics were not as extensive as might have been expected The selections in this volume discuss Indian treatments of topics in the theory of value like the proper ends of life the relation of dharma and moksha liberation and pleasure the sources of our knowledge of right and wrong the ethics of non violence the status of the supra moral egoism and altruism the theory of rasa aesthetic experience and catharsis The Bloomsbury Encyclopedia of Philosophers in America John R. Coleman, Allen Buchanan, 1994-06-24 This 1994 volume contains fifteen essays by leading philosophers exploring themes developed in the work of Joel Feinberg *Gender, Asset Accumulation and Just Cities* Caroline O.N. Moser, 2015-10-05 With more than half the world's population now living in urban areas urbanisation is undoubtedly one of the most important phenomena of the 21st century However despite increasing recognition of the critical relationship between economic and social development in cities gender issues are often overlooked in understanding the complexities of current urbanisation processes This book seeks to rectify this neglect Gender Asset Accumulation and Just Cities explores the contribution that a focus on the gendered nature of asset accumulation brings to the goal of achieving just more equitable cities To date neither the academic debates nor the formulated policy and practice on just cities has included a focus on gender based inequalities discriminations or opportunities From a gender perspective a separate discourse exists closely associated with gender justice particularly in relation to urban rights and democracy Neither however has addressed the implications for women's accumulation of assets and associated empowerment for transformational pathways to just cities In this book contributors specifically focus on

gender and just cities from a wide range of gendered perspectives that include households housing land gender based violence transport climate and disasters *Giovanni Gentile and the State of Contemporary Constructivism* James Wakefield, 2015-02-12 This book presents Giovanni Gentile's actual idealism as a radical constructivist doctrine for use in moral theory The first half describes the moral theory that Gentile explicitly identifies with actual idealism according to which all thinking rather than an exclusive domain of practical reason has a moral character It is argued that after Gentile's turn to Fascism in the early 1920s this theory is increasingly conflated with his political doctrine This entails several major changes that cannot be squared with the underlying metaphysics The second half of the book develops a more plausible account of Gentilean moral constructivism based on the pre-Fascist idea of reasoning as an internal dialogue Comparisons and contrasts are drawn with contemporary constructivist doctrines as well as theories employing dialogical conceptions of reason The internal dialogue is presented as a device enabling the thinking subject to make objective judgments about real world problems despite the impossibility of her occupying a fully objective standpoint Thus actual idealist moral theory is offered as an example of constructivism at its most radical inviting advocates of less radical varieties to reassess the foundations on which their theories are built
