

TARGET LANGUAGE, COLLABORATIVE LEARNING AND AUTONOMY

Ernesto Macaro

MODERN LANGUAGES IN PRACTICE

Target Language Collaborative Learning And Autonomy

**Dogan Yuksel, Mehmet Altay, Samantha
Curle**

Target Language Collaborative Learning And Autonomy:

Target Language, Collaborative Learning and Autonomy Ernesto Macaro, 1997-01-01 This book explores the relevance that second language research has for the secondary foreign language classroom It analyses the concept of teaching and learning exclusively through the target language This concept is then related to two current pedagogical tendencies peer collaboration and learner autonomy *First Language Use in Second and Foreign Language Learning* Miles Turnbull, Jennifer Dailey-O'Cain, 2009-08-24 This volume offers fresh perspectives on a controversial issue in applied linguistics and language teaching by focusing on the use of the first language in communicative or immersion type classrooms It includes new work by both new and established scholars in educational scholarship second language acquisition and sociolinguistics as well as in a variety of languages countries and educational contexts Through its focus at the intersection of theory practice curriculum and policy the book demands a reconceptualization of code switching as something that both proficient and aspiring bilinguals do naturally and as a practice that is inherently linked with bilingual code switching *Cross-language Mediation in Foreign Language Teaching and Testing* Maria Stathopoulou, 2015 This book contributes to the growing field of foreign language teaching and testing by shedding light on mediation between languages Focusing on cross language mediation as translanguaging practice the book explores what mediation entails the processes involved and the challenges mediators face *International Journal of Language Studies (IJLS) - volume 8(1)* Mohammad Ali Salmani Nodoushan, 2013-11-13 Special Issue on African Linguistics Guest Editor Professor Lenzemo Constantine Yuka University of Benin Nigeria **Seamless Learning in the Age of Mobile Connectivity** Lung-Hsiang Wong, Marcelo Milrad, Marcus Specht, 2014-11-02 The book departs from the approach of related titles by focusing on describing and reflecting upon the notion of seamless learning with regard to salient characteristics of learner mobility and bridging of learning experiences across learning spaces It is the first such work that is solely dedicated to research on and the practice of seamless learning uniquely combining interpretations visions and past research on and practices in seamless learning from diversified perspectives The book also strikes a good balance between theoretical and practical perspectives going beyond a collection of reports on specific research projects Instead of thick descriptions of research processes and findings readers will find significant insights and food for thought intended to inspire further advances in the research on and practice of seamless learning **The Routledge Handbook of Educational Linguistics** Martha Bigelow, Johanna Ennser-Kananen, 2014-08-13 The Routledge Handbook of Educational Linguistics provides a comprehensive survey of the core and current language related issues in educational contexts Bringing together the expertise and voices of well established as well as emerging scholars from around the world the handbook offers over thirty authoritative and critical explorations of methodologies and contexts of educational linguistics issues of instruction and assessment and teacher education as well as coverage of key topics such as advocacy critical pedagogy and ethics and politics of research in

educational linguistics Each chapter relates to key issues raised in the respective topic providing additional historical background critical discussion reviews of pertinent research methods and an assessment of what the future might hold This volume embraces multiple dynamic perspectives and a range of voices in order to move forward in new and productive directions making The Routledge Handbook of Educational Linguistics an essential volume for any student and researcher interested in the issues surrounding language and education particularly in multilingual and multicultural settings

Translanguaging in EFL Contexts Michael Rabbidge, 2019-03-26 The purpose of this book is to promote the value of translanguaging in EFL teaching contexts To date translanguaging has been discussed mostly in regards to US and European contexts This book will examine the teaching beliefs and practices of teachers within a South Korean elementary school context to evaluate the practices of current teachers who use translanguaging strategies when teaching This examination utilizes sociological theories of pedagogic discourse to discuss the consequences of language exclusion policies on the peninsula Using these theories it presents an argument for why EFL contexts like South Korea need to reevaluate their current policies and understandings of language learning and teaching By embracing translanguaging as an approach the author argues they will transform their traditional notions of language learning and teaching in order to view teachers as bilinguals and learners as emerging bilinguals rather than use terms of deficiency that have traditionally been in place for such contexts This book's unique use of sociological theories of pedagogic discourse supports a need to promote the translanguaging ideology of language teaching and learning

Second Language Learning and Language Teaching Vivian Cook, 2013-11-26 The fourth edition of this classic textbook has been revised to reflect recent developments in language teaching and learning yet retains the basic structure and approach so popular with its readers Teaching and learning content has been updated particularly taking into account the rise of task based learning Conversational Analysis and social models of second language acquisition changes in national syllabuses and examinations and the increasing controversy over the role of the native speaker target Each chapter has been revised to stand alone enabling the text to be taught and studied out of sequence if preferred A set of focussing questions has also been added to each and further reading sections have been updated In addition icons appear throughout the text signalling where extra information summaries data lecture notes test batteries and more can be found on the author's accompanying website www.routledge.com/cw/cook Second Language Learning and Language Teaching remains the essential textbook for all student teachers of modern languages and TESOL as well as applied linguistics

Multilingual and Translingual Practices in English-Medium Instruction Dogan Yuksel, Mehmet Altay, Samantha Curle, 2024-01-25 English Medium Instruction EMI refers to the use of the English language to teach academic subjects where first language of the majority of the population is not English One popular implementation of EMI the Multilingual Model would imply that some aspects e.g. courses sessions in some courses and or assessment are taught through English whereas the first language of the students is used in some other respects This

volume explores context related ways in which the multilingual EMI model and translingual practices are seen and enacted in higher education contexts across the globe Research on this topic is not only timely but also very much needed particularly in contexts that are relatively new to EMI as well as in contexts where monolingual forms of teaching and monolingual institutional policies still prevail Empirical research based studies as well as theoretical reviews that centre around multilingual and translingual practices in partial and full i e English only EMI settings are elaborated with case studies from Colombia Indonesia Iraq Norway Qatar Spain Turkey United Arab Emirates the UK and the USA Handbook of Foreign Language Communication and Learning Karlfried Knapp, Barbara Seidlhofer, H. G. Widdowson, 2009 The Handbooks of Applied Linguistics provide a state of the art description of established and emerging areas of Applied Linguistics Each volume gives an overview of the field explains the most important traditions and their findings identifies the gaps in current research and gives perspectives for future directions
