The Age Of Power

The Age Of Power:

The Age of Power Carl J. Friedrich, 1957

Ecology and Power in the Age of Empire Corey Ross, 2017-03-31

Ecology and Power in the Age of Empire provides the first wide ranging environmental history of the heyday of European imperialism from the late nineteenth century to the end of the colonial era. It focuses on the ecological dimensions of the explosive growth of tropical commodity production, global trade and modern resource management transformations that still visibly shape our world today and how they were related to broader social, cultural and political developments in Europe's colonies. Covering the overseas empires of all the major European powers, Corey Ross argues that tropical environments were not merely a stage on which conquest and subjugation took place but were an essential part of the colonial project, profoundly shaping the imperial enterprise even as they were shaped by it. The story he tells is not only about the complexities of human experience but also about people's relationship with the ecosystems in which they were themselves embedded: the soil, water, plants and animals that were likewise a part of Europe's empire. Although it shows that imperial conquest rarely represented a sudden bout of ecological devastation, it nonetheless demonstrates that modern imperialism marked a decisive and largely negative milestone for the natural environment. By relating the expansion of modern empire, global trade and mass consumption to the momentous ecological shifts that they entailed, this book provides a historical perspective on the vital nexus of social, political and environmental issues that we face in the twenty-first century world.

The Age of Power Carl Joachim Friedrich, 1957

The Age of Lincoln and the Art of American Power, 1848-1876

William Nester, 2014-02-01. Although Abraham Lincoln was among seven presidents who served during the tumultuous years between the end of the Mexican War and the end of the Reconstruction era, history has not been kind to the others: Zachary Taylor, Millard Fillmore, Franklin Pierce, James Buchanan, Andrew Johnson and Ulysses S. Grant. In contrast, history sees Abraham Lincoln as a giant in character and deeds. During his presidency, he governed brilliantly, developed the economy, liberated four million people from slavery, reunified the nation and helped enact the Homestead Act among other accomplishments. He proved to be not only an outstanding commander in chief but also a skilled diplomat, economist, humanist, educator and moralist. Lincoln achieved that and more because he was a master of the art of American power. He understood that the struggle for hearts and minds was the essence of politics in a democracy. He asserted power mostly by appealing to people's hopes rather than their fears. All along, he tried to shape rather than reflect prevailing public opinions that differed from his own. To that end, he was brilliant at bridging the gap between progressives and conservatives by reining in the former and urging on the latter. His art of power ultimately reflected his unswerving devotion to the Declaration of Independence's principles and the Constitution's institutions or, as he so elegantly expressed it, to a government of the people, by the people and for the people.

Masculinity, Identity, and Power Politics in the Age of Justinian Michael

Stewart, 2025-10-01. A generation of historians has been captivated by the notorious views on gender found in the mid-sixth

century Secret History by the Byzantine historian Procopius of Caesarea Yet the notable but subtler ways in which gender coloured Procopius most significant work the Wars have received far less attention This monograph examines how gender shaped the presentation of not only key personalities such as the seminal power couples Theodora Justinian and Antonina Belisarius but also the Persians Vandals Goths Eastern Romans and Italo Romans in both the Wars and the Secret History By analysing the purpose and rationale behind Procopius gendered depictions and ethnicizing worldview this investigation unpicks his knotty agenda Despite Procopius s reliance on classical antecedents the gendered discourse that undergirds both texts under investigation must be understood within the broader context of contemporary political debates at a time when control of Italy and North Africa from Constantinople was contested The Power of the Pope During the Middle Ages Jean Edme Auguste Gosselin,1853 *The Age of Jackson and the Art of American Power, 1815-1848* William Nester,2013-08-31 As William Nester asserts in *The Age of Jackson* it takes quite a leader to personify an age A political titan for thirty three years 1815 1848 Andrew Jackson possessed character beliefs and acts that dominated American politics Although Jackson returned to his Tennessee plantation in March 1837 after serving eight years as president he continued to overshadow American politics Two of his proteges Martin the Magician van Buren and James Young Hickory Polk followed him to the White House and pursued his agenda Jackson provoked firestorms of political passions throughout his era Far more people loved than hated him but the fervor was just as pitched either way Although the passions have subsided the debate lingers Historians are split over Jackson s legacy Some extol him as among America s greatest presidents citing his championing of the common man holding the country together during the nullification crisis and eliminating the national debt Others excoriate him as a mean spirited despot who shredded the Constitution and damaged the nation s development by destroying the Second Bank of the United States defying the Supreme Court and grossly worsening political corruption through his spoils system Still others condemn his forcibly expelling more than forty thousand Native Americans from their homes and along the Trail of Tears which led far west of the Mississippi River with thousands perishing along the way In his clear eyed assessment of one of the most divisive leaders in American history Nester provides new insight into the age old debate about the very nature of power itself *The Power of Images in the Age of Augustus* Paul Zanker,1988 Examines the imperial mythology that was reflected by Roman art and architecture during the rule of Augustus Caesar Power and Conflict in the Age of Transparency B. Finel,K. Lord,2002-10-03 The twenty first century will feature unprecedented global transparency From the advent of the Internet to the rise of global media to the proliferation of commercial satellites more information will be available to more people about more things than ever before in human history This increase in transparency is certain to have a major effect on international politics and particularly on the possibility of armed conflict in the next millennium This volume represents the first comprehensive collection of articles written by leading scholars and policy analysts examining the effects of transparency on world politics **Air Power in the Age of Total War** John Buckley,2006-05-09 Warfare in the

first half of the 20th century was fundamentally and irrevocably altered by the birth and subsequent development of air power. This work assesses the role of air power in changing the face of battle on land and sea. Utilizing late 1990s research, the author demonstrates that the phenomenon of air power was both a cause and a crucial accelerating factor contributing to the theory and practice of total war. For instance, the expansion of warfare to the homefront was a direct result of bombing and indirectly due to the extent of national economic mobilization required to support first rate air power status. In addition, the move away from the principle of total war with the onset of the Cold War and the replacement of air power by ICBMs is thoroughly examined. This work should provide students of international history, war studies, defence and strategic studies with an insight into 20th century warfare.

Forgiveness and Power in the Age of Atrocity Shann Ray Ferch, 2012. In a fresh rendering of the role of leaders as healers, *Forgiveness and Power in the Age of Atrocity* considers love and power in the midst of personal, political and social upheaval. Unexpected atrocity coexists alongside the quiet subtleties of mercy, and people and nations currently encounter a world in which not even the certainties of existence remain, even as grace can sometimes arise under the most difficult circumstances. Ultimately, *Forgiveness and Power in the Age of Atrocity* is a book about the alienation and intimacy at war within us all. Ferch speaks to categorical human transgressions in the hope that readers will be compelled to examine their own prejudices and engage the moral responsibility to evoke in their own personal life, work life and larger national communities a more humane and life giving coexistence. In addition to a primary focus on servant leadership, the book addresses three interwoven aspects of social responsibility: 1. the nature of personal responsibility, 2. the nature of privilege and the conscious and unconscious violence against humanity often harbored in a blindly privileged stance, and 3. the encounter with forgiveness and forgiveness asking grounded in a personal and collective obligation to the well being of humanity. Modernist and postmodernist notions of the will to meaning are considered against the philosophical notion of the will to power. The book examines the everyday existence of human values in a time when we inhabit a world filled as much with unwarranted cruelty as with the disarming nature of authentic and life affirming love. The book asks the question: Can ultimate forgiveness change the heart of violence? In *Forgiveness and Power*, people are challenged not only by the work of profound thought leaders such as Mandela, Tutu, but also Simone Weil, Vaclav Havel, Emerson, Mary Oliver, Martin Luther King, Paulo Freire, bell hooks and Robert Greenleaf. The hope of the book is that people of all ages and creeds come to a deeper understanding and of personal and collective responsibility for leadership that helps heal the heart of the world.

Lilith: The Power of the Woman's Spirit in the Age of Aquarius Ed Russo, 2014-08-06. Embrace the darkness for there you will find the light. We all have been told in this patriarchal system that to look for salvation is to look upward and outward to a god or gods to worship. We are not here to worship but to look inside ourselves and embrace who we are and grow to our full potential. Inanna is the archetypal Goddess of love and war. Her descent into the Underworld is a reflection of our journey of going inward to face our true nature. When we fight this, we then are at war with

nature Lilith is Inanna's handmaiden as we ourselves can also become partners with Inanna. Realizing who we are we then embrace the balance with the female archetype with the male archetype which will bring us wholeness as women become stronger and men and women come to love themselves. This new perspective is what is taken place as we enter into the Age of Aquarius.
