how both governments and people will respond to the confirmation that we are not alone in the universe This book is a goose bump raising thrill ride one sure to provoke thought spark debate and entertain in equal measure Out of Time Steve Aspin,2023-08-24 In Out of Time The Intergenerational Abduction Program Explored author Steve Aspin has written a crossover work about the enduring worldwide reports of alien abduction The book is intended for both those familiar with the historic published case material and the curious reader unfamiliar with the decades of serious academic research on this superficially improbable phenomenon The author details his lifelong personal experience and the relationships he built with leading researchers during 15 years of investigating this phenomenon He has at all times attempted to approach the subject with critical thoroughness and intellectual rigour From stumbling on a cattle mutilation in Ireland in 1970 to witnessing a UFO after a period of missing time at age 16 in 1972 to a confrontational experience in a Sardinia hotel in 2006 the author relates a lifetime of anomalous experiences But this is only the starting point of the journey the reader of Out of Time will make Steve then details several years of investigation into the subject and how what he has learned has shaped his thoughts on what is happening to perhaps millions of people worldwide He had the good fortune to meet with several leading researchers in the field including Budd Hopkins and Dr David Jacobs and read hundreds of published works on the subject of UFOs and abductions He has attempted to bring hard forensic evidence to the discussion and to follow that evidence where it may lead paying particular attention to the clearly intergenerational aspect of the global abduction program which he demonstrates with corroborating evidence almost certainly dates from the 1890s His conclusions will be of interest to anyone attentive to this field of study Whether inevitably proved right or wrong they stem from a conscious effort to bring objectivity and honesty to the analysis of this widely reported phenomenon Although successfully normalised in popular culture to become background noise or a minor comic footnote in otherwise busy lives this subject has real and serious implications for both the individual experiencer and human society collectively The PK Man Jeffrey Mishlove,2025-09-12 So begins Jeffrey Mishlove s The PK Man the true and strange story of Ted Owens whose claims of powerful psychokinetic abilities given to him by Space Intelligences were too bizarre and extreme for many to believe When these claims were ignored or challenged he purportedly used his powers to produce earthquakes civil unrest UFO sightings strange weather events and other powerful phenomena Owens even threatened to down aircraft to garner attention Was there any truth to Owens abilities or was he a fraud with a knack for picking the times and places of catastrophes Jeffrey Mishlove PhD a respected parapsychologist and host of the popular public television program Thinking Allowed analyzes correspondence interviews newspaper reports and remarkable life of the world s greatest psychic as Owens claimed to be Whether Owens was a prodigious liar and dangerous con man or a true but unbalanced master who used his incredible powers primarily for petty acts of revenge many questions remain and the implications for the rest of us are staggering Close Encounters: 20 Hot Topics in the Field of UFO Research Daniel Payne,2025-02-23 Are we alone in the universe Or have we been visited by

Intimate Alien David J. Halperin, 2020-03-24 A voyage of exploration to the outer reaches of our inner lives UFOs are a myth says David J Halperin but myths are real The power and fascination of the UFO has nothing to do with space travel or life on other planets It's about us our longings and terrors and especially the greatest terror of all the end of our existence This is a book about UFOs that goes beyond believing in them or debunking them and to a fresh understanding of what they tell us about ourselves as individuals as a culture and as a species In the 1960s Halperin was a teenage UFOlogist convinced that flying saucers were real and that it was his life's mission to solve their mystery He would become a professor of religious studies with traditions of heavenly journeys his specialty With *Intimate Alien* he looks back to explore what UFOs once meant to him as a boy growing up in a home haunted by death and what they still mean for millions believers and deniers alike From the prehistoric Balkans to the deserts of New Mexico from the biblical visions of Ezekiel to modern abduction encounters *Intimate Alien* traces the hidden story of the UFO It's a human story from beginning to end no less mysterious and fantastic for its earthliness A collective cultural dream UFOs transport us to the outer limits of that most alien yet intimate frontier our own inner space

Extraterrestrial Life Tamara L. Roleff, 2001 From NASA's exploration into whether Mars's atmosphere might once have supported life to tabloid tales of UFO sightings and alien abductions the question of whether life exists on other planets is a fascinating one Contributors to this volume examine both sides of the issue as they explore the scientific evidence first person accounts and conspiracy theories dealing with the existence of extraterrestrial life
