The Alien's Dictionary David Hallamshire, 1989-10-01 *The Alien Apocalypse* Frank Morin, 2014-05 *A Donkey's Diary* Conny Jansky, 2020-04-01

Seventy five years after the publication of Orwell's satirical fable it's story time again So welcome to the Free World where everyone will live happily ever after right SYNOPSIS A team of future scientists is determined to find out what caused a previous mass extinction of species when they discover evidence of mysterious creatures that may provide an answer to what caused the event The ancient finds include several scriptures among them a story called Animal Farm which tells the tale of a farm on which animals decide to overthrow their evil human master but soon after doing so the farm's pigs take over and turn malignant too This story is continued in another scripture titled Animal Farming which is told from the perspective of the donkey Benjamin who escapes the farm in fear of persecution by the pigs At first Benjamin is impressed by the high living standards on his new host farm but soon starts developing ethical concerns when a huge hen cage is installed Benjamin meets a series of characters representing renowned Western philosophers who have shaped the basis of today's moral justification for intensive animal farming methods From Aristotle to Kant they all try their best to convince Benjamin of its legitimacy and not without success It is only after a personal tragedy that Benjamin realises he should have listened to his gut feeling Besides challenging the popular reasoning in favour of intensive farming methods *A Donkey's Diary* explores arguments concerning animal welfare animal rights and environmental protection in the context of the ongoing climate crisis and mass extinction event In a sarcastic tone the story questions the popular assumption that humans are not to be considered animals due to their allegedly superior intellect In doing so the donkey Benjamin reveals what truly lies beneath their apparent need for eternal growth despite its fatal consequences that currently threaten to destroy their own livelihoods Similar to its prequel *A Donkey's Diary* is a satirical fable about humans and other animals The story represents how food production and with it the human animal relationship has changed over the course of the past three Industrial Revolutions and highlights which ancient arguments were and still are used to justify intensive farming practices It invites the reader to ponder animals food money work intelligence and much more [Python Crash Course, 2nd Edition](#) Eric Matthes, 2019-05-21 The best selling Python book in the world with over 1 million copies sold A fast paced no nonsense updated guide to programming in Python If you've been thinking about learning how to code or picking up Python this internationally bestselling guide to the most popular programming language is your quickest easiest way to get started and go Even if you have no experience whatsoever *Python Crash Course 2nd Edition* will have you writing programs solving problems building computer games and creating data visualizations in no time You'll begin with basic concepts like variables lists classes and loops with the help of fun skill strengthening exercises for every topic then move on to making interactive programs and best practices for testing your code Later chapters put your new knowledge into play with three cool projects a 2D Space Invaders style arcade game a set of responsive data visualizations you'll build with Python's handy libraries
