The Nation ,1867 *Fictive Interaction* Esther Pascual,2014-09-15 Language is intimately related to interaction The question arises Is the structure of interaction somehow mirrored in language structure and use This book suggests a positive answer to this question by examining the ubiquitous phenomenon of fictive interaction in which non genuine conversational turns appear in discourse even within clauses phrases and lexical items e g Not happy Money back guarantee The book is based on a collection of hundreds of examples of fictive interaction at all grammatical levels from a wide variety of spoken written and signed languages and from many different discourse genres Special attention is devoted to the strategic use of fictive interaction in legal argumentation with a focus on high profile criminal trials Both trial lawyers and lay jurors often present material evidence or murder victims as speaking and express emotions and intentions in conversational terms The

book thus establishes the role of the conversational turn rather than the sentence as the basic unit of language and the role of conversation as a frame that structures cognition discourse and grammar

The Black Widows of the Eternal City Craig A. Monson,2020-09-21 The Black Widows of the Eternal City offers for the first time a book length study of an infamous case c l bre in seventeenth century Rome how it resonated then and has continued to resonate the 1659 investigation and prosecution of Gironima Spana and dozens of Roman widows who shared a particularly effective poison to murder their husbands This notorious case has been frequently discussed over 350 years but the earliest writers concentrated more on fortifying their reading constituency s shared attitudes than accurately narrating facts Subsequent authors remained largely content to follow their predecessors or keen to improve upon them Most recent writers and bloggers were unaware that their earlier sources were generally unconcerned with a correct portrayal of real events In the present study Craig A Monson takes advantage of a recent discovery the 1 450 page notary s transcript of the 1659 investigation It is supplemented here by many ancillary archival sources unknown to all previous writers Since the story of Gironima Spana and the would be widows is partially about what people believed to be true however this investigation also juxtaposes some of the alternative facts from earlier sensational accounts with what the notary s transcript and other more reliable archival documents reveal Written in a style that avoids arcane idioms and specialist jargon the book can potentially speak to students and general readers interested in seventeenth century social history and gender issues It rewrites the life story of Gironima Spana largely unknown until now who has dominated all earlier accounts usually in caricatures that reiterate the tropes of witchcraft It also concentrates on the dozen other widows whose stories could be the most recovered from archival sources and whom Spana had totally eclipsed in earlier accounts Most were women of a very ordinary sort prostitutes beggars wives of butchers barbers dyers lineners innkeepers the kinds of women commonly lost to history The book seeks to explain why some women were hanged only six in fact most of whom may not have directly poisoned anyone while dozens of others who did poison their husbands escaped the gallows and in some cases were not even interrogated It also reveals what happened to these other alleged perpetrators whose fates have remained unknown until now Other purported culprits about whom less complete pictures emerge are briefly discussed in an appendix The study incorporates illustrations of archival manuscripts to demonstrate the challenges of deciphering them and illustrates scenes of the crime and other important locations identified on seventeenth century bird s eye perspective views of Rome and in modern photographs It also includes GPS coordinates for any who might wish to revisit the sites

Killing and Being Killed: Bodies in Battle

Jörg Rogge, 2018-01-15 What bodily experiences did fighters make through their lifetime and especially in violent conflicts How were the bodies of fighters trained nourished and prepared for combat How did they respond to wounds torture and the ubiquitous risk of death The articles present examples of body techniques of fighters and their perception throughout the Middle Ages The geographical scope ranges from the Anglo Scottish borderlands over Central Europe up to the Mediterranean World This larger framework enables the reader to trace the similarities and differences of the cultural practice of Killing and Being Killed in various contexts Contributions by Iain MacInnes Alastair J Macdonald Bogdan Petru Maleon and others
