Stakeholder Politics Robert Boutilier, 2017-09-08 The war is over The largest corporations in the world are now committed to sustainability But behind the public relations gloss corporate executives and managers are perplexed The majority of them have a genuine desire to work in an ethical and sustainable manner Yet when they engage with their stakeholders for that purpose they unexpectedly encounter a world of hardball politics full of hostile activists self interested elites and unpredictable attacks Unfortunately corporate management is too often unskilled in this rough and tumble world While managers rely on facts and rational analysis their self appointed critics have mastered the arts of political discourse issue framing and media manipulation At the same time as corporations extend their global reach their third world stakeholder communities are beset with a variety of poverty maintaining and sustainability thwarting conditions In many parts of the world communities suffer from entrenched divisions exclusion from power unpredictable violence and economic dependency In order to both reduce reputational risk and to contribute to sustainable development companies need the equivalent of roadmaps of the socio political terrain in their stakeholder networks This book moves on to next challenge of giving companies what they need now namely how to guides addressing the twin problems of firstly maintaining political legitimacy talking the talk and secondly promoting sustainable development walking the walk They need to learn how to both play stakeholder politics and collaborate with stakeholders towards sustainability goals Most companies have already encountered or anticipated the barriers that this book addresses and managers will recognize the dilemmas described Stakeholder Politics is the first book to offer a method for classifying and dealing with these socio political problems The book presents a typology of stakeholder networks that will help managers and community leaders identify and improve the social capital patterns in their own networks Once they know what patterns they have they can move their networks towards those that foster sustainable community development The author describes vivid cases in which managers and community stakeholders have already used the approach successfully At the same time managers get handy tools for predicting and avoiding community level socio political risk around stakeholder issues most notably the Stakeholder 360 which has been successfully used in Canada and Australia with large groups of managers learning about stakeholder engagement The book

has been written for an audience of both managers and academics Those working in developing countries with difficult stakeholder issues will find it indispensable **Uniform Trade List Annual** ,1977
