Smith,1971      The Aesthetic Nature of Tennyson (Classic Reprint) Jean Pauline Smith,2015-07-16 Excerpt from The Aesthetic Nature of Tennyson In this study it is my purpose to show to what extent the different sense impressions have appealed to Tennyson in his writing The spirituality of the Universe is realized through the more intellectual senses of hearing and seeing By means of these and by touch which brings us in direct contact with the physical world and because of our observations we are lifted to a higher plane and to a broader understanding of Nature and Man By these we are able to communicate with others and with Nature Whitman has said that all objective grandeurs of the world for highest purposes yield them selves up and depend on mentality alone About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      **The aesthetic nature of Tennyson, by Jean Pauline Smith** Jean Pauline Smith,1920

**The Nature of Aesthetic Value** Hugo Anthony Meynell,1986-01-01 The Nature of Aesthetic Value proposes that aesthetic goodness the property in virtue of which works of art are valuable is a matter of their capacity in appropriate circumstances to give satisfaction It inquires into the nature of this satisfaction arguing that it consists of the extension and clarification of consciousness This provides a basis for treatment of the ancient problem of the relation between cultivation of the arts and the pursuit and maintenance of the true and the good The book summarizes critics judgments and arguments on literature the visual arts and music testing the author s theory about the nature of aesthetic opinion      **The Artistry and**

**Tradition of Tennyson's Battle Poetry** Timothy J. Lovelace,2004-03-01 Many readers are aware of Alfred Tennyson s treatment of legendary battles in such poems as Boadicea The Revenge Battle of Brunanburh and Achilles over the Trench Yet among Tennyson s most neglected works are his first battle poems pieces that reflect the poet s immersion in the literature of the heroic age J Timothy Lovelace argues that Tennyson s war poems reflect image patterns of the Illiad and Aeneid and reinvigorate the heroic ethos that informs these and other ancient texts Highlighting the heroic aspects of Maud and the Idylls of the King this book shows that Tennyson s early grounding in the Homeric tradition greatly influenced his later celebrated work on martial subjects      **The Nature of Aesthetic Value** Hugo A. **1830-1914** R. Ebbatson,2013-05-23 This study examines the vital centrality of readings of nature in a variety of literary forms in the period 1830 1914 It is exploratory and original in approach stressing the philosophical and cultural implications in a range of texts from Tennyson Hardy Jefferies and Thomas     Education in Manliness Malcolm Tozer,2018-03-28

*Education in Manliness* explores the central educational ideal of the Victorian and Edwardian public school The book traces the formulation of what Edward Thring the most celebrated headmaster of the era termed true manliness noting the debt to the Platonic concept of the whole man and to Christian example before examining the ideal s best holistic practice at Uppingham and other mid Victorian schools The central chapters follow the tilting of manliness to the physical by the muscular Christians in the 1860s its distortion to Spartanism by the games masters and sporting dons from the 1870s and its hijacking by the advocates of esprit de corps during the remainder of the century The book lays bare the total perversion of

the ideal by the military imperialists in the years up to the Great War and traces the lifeline of holistic education through the progressive school movement from the 1880s to the 1970s It then brings this up to date by comparing true manliness with the wholeness ideal of schools of the new millennium This book will be of great interest to scholars and students in the fields of history of education and the theory and practice of teaching as well as school and university teachers teacher trainers and trainee teachers

**Tennyson's Rapture** Cornelia D. J. Pearsall, 2008-01-29 This book explores Tennyson's representation of rapture as a radical mechanism of transformation theological social political or personal and as a figure for critical processes in his own poetics Offering a new approach to reading Victorian dramatic monologues Pearsall probes the complex aims of these performances showing how speakers' ambitions are both articulated in and attained through their consequential speech

**Orientalist Poetics** Emily A. Haddad, 2017-03-02 Orientalist Poetics is the only book on literary orientalism that spans the nineteenth century in both England and France with particular attention to poetry and poetics It convincingly demonstrates orientalism's centrality to the evolution of poetry and poetics in both nations and provides a singularly comprehensive and definitive analysis of the aesthetic impact of orientalism on nineteenth century poetry Because it examines the poetry of the entire century across both national literatures the book is in a unique position to articulate the essential part orientalism plays in major developments of nineteenth century poetics Through probing discussions of an array of prominent nineteenth century poets including Shelley Southey Byron Hugo Musset Leconte de Lisle Wordsworth Hemans Gautier Tennyson Arnold and Wilde Emily A Haddad reveals how orientalism functions as a diffuse avant garde a crucial medium for the cultivation and refinement of a broad range of experimental positions on poetry and poetics Haddad argues that while orientalist poems are often viewed mainly as artefacts of European attitudes towards the East and imperialism poetic representations of the Islamic Orient also provide an indispensable matrix for the reexamination of such aesthetically fundamental issues as the purpose of poetry the value of mimesis and the relationship between nature and art Orientalist Poetics effectively bridges the gap between the analysis of poetics and the analysis of orientalism In showing that major poetic developments have roots in orientalism Haddad's book offers a valuable and innovative revisionist view of nineteenth century literary history

**The Written and the Visual** Małgorzata Łuczyńska-Holdys, 2021-06-07 The author investigates the points of contact between literature visual arts and feminist criticism by offering fresh readings of selected Romantic and Victorian poems about women and a discussion of their wide ranging visual history a subject which has not yet been undertaken in a book length study The innovative feature of the project lies in its scope and merit extensive readings of 19th century poetry informed by carefully chosen critical approaches are followed by a rich overview and analysis of visual renderings of the poems in question uczy ska Holdys has succeeded in bringing to light previously unknown or undiscussed works and reappraised many well known paintings and illustrations
