Dress, Fashion and Technology Phyllis G.

Tortora,2015-02-26 Technology has been an essential factor in the production of dress and the cultures of fashion throughout human history Structured chronologically from prehistory to the present day this is the first broad study of the complex relationship between dress and technology Over the course of human history dress making and fashion technology has changed beyond recognition from needles and human hands in the ancient world to complex 20th century textile production machines it has now come to include the technologies that influence dress styles and the fashion industry while fashion itself may drive aspects of technology In the last century new technologies such as the electronic media and high tech manufacturing have helped not just to produce but to define fashion the creation of automobiles prompted a decline in long skirts for women while the beginnings of space travel caused people to radically rethink the function of dress In many ways technology has itself created avant garde and contemporary fashions Through an impressive range of international case studies the book challenges the perception that fashion is unique to western dress and outlines the many ways in which dress and technology intersect Dress Fashion and Technology is ideal reading for students and scholars of fashion studies textile history anthropology and cultural studies [Encyclopedia of Information Science and Technology, Second Edition](#)

Handbook of Textile and Industrial Dyeing M

Clark,2011-10-25 Dyeing is one of the most effective and popular methods used for colouring textiles and other materials

Dyes are employed in a variety of industries from cosmetic production to the medical sector The two volumes of the Handbook of textile and industrial dyeing provide a detailed review of the latest techniques and equipment used in the dyeing industry as well as examining dyes and their application in a number of different industrial sectors Volume 1 deals with the principles of dyeing and techniques used in the dyeing process and looks at the different types of dyes currently available Part one begins with a general introduction to dyeing which is followed by chapters that examine various aspects of the dyeing process from the pre treatment of textiles to the machinery employed Chapters in part two then review the main types of dyes used today including disperse dyes acid dyes fluorescent dyes and many others for a diverse range of applications With its distinguished editor and contributions from some of the world s leading authorities the Handbook of textile and industrial dyeing is an essential reference for designers colour technologists and product developers working in a variety of sectors and will also be suitable for academic use Examines dyeing and its application in a number of different

industrial sectors Deals with the principles of dyeing and techniques used in the dyeing process as well as types of dyes currently available Chapters review various dye types right through to modelling and predicting dye properties and the chemistry of dyeing *Encyclopedia of Forensic Sciences*, 2012-12-28 Forensic science includes all aspects of investigating a crime including chemistry biology and physics and also incorporates countless other specialties Today the service offered under the guise of forensic science includes specialties from virtually all aspects of modern science medicine engineering mathematics and technology The *Encyclopedia of Forensic Sciences* Second Edition Four Volume Set is a reference source that will inform both the crime scene worker and the laboratory worker of each other s protocols procedures and limitations Written by leading scientists in each area every article is peer reviewed to establish clarity accuracy and comprehensiveness As reflected in the specialties of its Editorial Board the contents covers the core theories methods and techniques employed by forensic scientists and applications of these that are used in forensic analysis This 4 volume set represents a 30% growth in articles from the first edition with a particular increase in coverage of DNA and digital forensics Includes an international collection of contributors The second edition features a new 21 member editorial board half of which are internationally based Includes over 300 articles approximately 10pp on average Each article features a suggested readings which point readers to additional sources for more information b a list of related Web sites c a 5 10 word glossary and definition paragraph and d cross references to related articles in the encyclopedia Available online via SciVerse ScienceDirect Please visit www.info.sciencedirect.com for more information This new edition continues the reputation of the first edition which was awarded an Honorable Mention in the prestigious Dartmouth Medal competition for 2001 This award honors the creation of reference works of outstanding quality and significance and is sponsored by the RUSA Committee of the American Library Association **General Catalogue of Printed Books** British Museum. Department of Printed Books,1969 **Till Freedom Cried Out** T. Lindsay Baker,Julie Philips Baker,1997 The 32 reminiscences presented here provide insight into the lives of the enslaved including recollections of being sold away from parents suffering harsh punishment by overseers and living in misery *American Reference Books Annual* Bohdan S. Wynar,1973 1970 issued in 2 vols v 1 General reference social sciences history economics business v 2 Fine arts humanities science and engineering **Choice** ,1973

Encyclopedia of Textile Finishing H.-K. Rouette,2014-04-14 The textile processing industry is complexly structured just as complex even impenetrable is the know how that an expert in the textile field should have The new *Encyclopedia of Textile Finishing* is designed to bring some order into the confusion of technical terms in this sector The encyclopedia was devised with the specialists in mind and is a store of knowledge for the textile specialist It consists of three volumes containing in alphabetical order the latest research findings approx 16000 keywords from all technical disciplines of textile finishing and their practice related application Clear colored illustrations and numerous cross references serve for faster comprehension and conveyence of information By virtue of its interdisciplinary character this reference book is an

irreplaceable aid for users from all fields of textile industry Thus no textile engineer and no library should be without it
Written for factory managers engineers technologists environmental officers in the textile industry textile machine producing
industry chemist colorists clothing manufacturers materials quality inspectors in institutions or big department store chains
dry cleaners drycleaning chains researchers students in textile science
