The Affirmation of Immortality ... John Haynes Holmes,1947 *We Believe in Immortality* Sydney Strong,1929 [The Assurance of Immortality](#) Harry Emerson Fosdick,1913 [Thoughts on Death and Immortality from the Papers of a Thinker: A New Translation](#) Ludwig Feuerbach,2024-05-09 Feuerbach s 1830 work *Gedanken ber Tod und Unsterblichkeit* aus den Papieren eines Denkers *Thoughts on Death and Immortality from the Papers of a Thinker* is his first publication and an important philosophical work that examines the nature of human existence and the question of immortality Feuerbach would be the primary influence of Marx and all of Marx s core ideas of Alienation Dialectical Materialism and class struggle are found in the writings of Feuerbach This was Feuerbach s first published work which sparked controversy by portraying Christianity as egoistic and inhumane The book presents a straightforward denial of Christian belief in personal immortality advocates for the recognition of the value of our only life and attacks the hypocrisies of professional religious figures This edition also contains his reply to the criticism of the work published over a decade later in 1846 in his *The Immortality Question From the Standpoint of Anthropology* Feuerbach was heavily influential on Marx who modeled his entire religion on Feuerbach s demythologization of the Hegelian dialectic Schopenhauer and Nietzsche both took their satirical criticism about religion from Feuerbach and every aspect of Marxism can be found here in Marx s favorite Philosopher Feuerbach is a critical figure in the development of not merely Marxism but Materialistic Humanism in general Feuerbach is critical to understanding Marx His critique of immortality attempts to dismantle theological abstraction by grounding human purpose in finite communal existence i e a Theo Anthropology Feuerbach s argument that immortality negates ethical urgency prefigures existentialist thought particularly Heidegger s *Being and Time* which emphasizes being toward death as a catalyst for authenticity By rejecting transcendence Feuerbach reorients philosophy toward immanent critique a method later adopted by the Frankfurt School His satirical appendix *Xenia* employs irony to expose clerical exploitation a tactic Nietzsche would refine in *The Antichrist* to dismantle religious authority His emphasis on species being as a collective human essence directly informs Marx s critique of capitalist alienation even though Marx criticized it as too abstract which estranges individuals from communal identity Contemporary scholars stress Feuerbach s role in secularizing Hegelian dialectics replacing Spirit with material intersubjectivity as the engine of historical progress [The Philosophy of the Immortality of the Soul and the Resurrection of the Human Body ...](#) John Henry Freese,1864 *The Philosophy of the Immortality of the Soul and the Resurrection of the Human Body: Considered Rationalistically, Irrespective Of, But Not Antagonistic To, Revelation ...* Edited by J. H. F. John Henry FREESE (Director of the Freese College.),1864 [The Immortality Question](#)

From the Standpoint of Anthropology Ludwig Feuerbach, Published in 1846 The Immortality Question from the Standpoint of Anthropology stands as one of Ludwig Feuerbach's clearest efforts to reposition religious discourse within the framework of human experience Emerging five years after the controversial impact of *The Essence of Christianity* this short work was part of Feuerbach's continued campaign to reframe theology as anthropology and to expose metaphysical doctrines as projections of human desire Released as part of a series of short pamphlets intended for a wider educated public the text reflects both Feuerbach's polemical intent and his increasing frustration with the metaphysical abstractions that dominated German philosophical and theological discourse This concept would be the foundation of Freud's Modernism which evolved into today's dominant Postmodern religion The intellectual climate of mid 19th century Germany was marked by both the influence of Hegelian philosophy and a growing crisis of religious authority The revolutionary upheavals of 1848 were just on the horizon and the radical critiques of religion from figures like David Strauss Bruno Bauer and Feuerbach himself were reshaping the cultural conversation Feuerbach's contribution in this period was distinctive for its insistence that theological questions be translated into human terms In this context the immortality of the soul was not an objective truth to be defended or denied on doctrinal grounds but a human longing that revealed deeper truths about psychological and social life The publication of this work in the politically charged pre 1848 environment was a deliberate intervention aimed at demystifying one of the most sacred pillars of Christian eschatology Feuerbach argues that belief in personal immortality is not a reflection of divine reality but of human self love and the fear of death This view which treats religious doctrine as a mirror of the human condition represented a direct challenge to both traditional Christian theology and to the more speculative idealism still present in many post Hegelian systems Feuerbach was not content with merely dismantling dogma he sought to expose its anthropological roots and to show how metaphysical beliefs emerge from deeply human anxieties Though less well known than his major works this pamphlet played a key role in establishing Feuerbach as a central figure in the radical humanist tradition It was read and circulated among the Young Hegelians including Marx and Engels who would later adopt and transform Feuerbach's critique of religion in their own materialist projects The text also marked a turning point in Feuerbach's own development as he moved further away from abstract metaphysics and toward a more concrete engagement with human psychology and culture

Curtis, 1901 **The Tragic Sense of Life in Men and Nations** Miguel de Unamuno, 1977 The acknowledged masterpiece of Unamuno expresses the anguish of modern man as he is caught up in the struggle between the dictates of reason and the demands of his own heart **Nietzsche** Karl Jaspers, 1997-10-24 Nietzsche

claimed to be a philosopher of the future but he was appropriated as a philosopher of Nazism His work inspired a long study by Martin Heidegger and essays by a host of lesser disciples attached to the Third Reich In 1935 however Karl Jaspers set out to marshall against the National Socialists the world of thought of the man they had proclaimed as their own philosopher The year after Nietzsche was published Jaspers was discharged from his professorship at Heidelberg University by order of the Nazi leadership Unlike the ideologues Jaspers does not selectively cite Nietzsche s work to reinforce already held opinions Instead he presents Nietzsche as a complex wide ranging philosopher extraordinary not only because he foresaw all the monstrosities of the twentieth century but also because he saw through them The Tragedy of Hamlet Henry Frank,1910 **Spirit in Philosophy** Catarina Belo,2019-04-30 Catarina Belo explores the question of spirit in the history of philosophy and in various philosophical disciplines highlighting its meaning and significance for Thomas Aquinas George Berkeley and Georg Wilhelm Friedrich Hegel among other major figures Belo argues that some of the traditional arguments concerning God reason and our knowledge of the world are shared by these philosophers culminating but not ending in Hegel In addition she defends a kind of idealism that is not incompatible with realism The book assumes the form a lively dialogue between a student and a teacher following the literary tradition in philosophy that begins with Plato The question of the spirit and its varied meanings are examined philosophically from a historical and a conceptual perspective
