Teresa of Avila's Autobiography Elena Carrera,2019-01-22 The Spanish mystic Teresa of Avila 1515 82 author of one of the most acclaimed early modern autobiographies *Vida* 1565 has generated a wealth of literary historical and theological studies yet none to date has examined the impact of textual models on Teresa s self construction In looking at the issue of the self Carrera draws on revisions **A Reformation Life** David M. Whitford,2015-08-28 This title presents the European Reformation as seen through the life of an important but little known participant Philipp of Hesse a nobleman who became a Reformation leader in Germany The Reformation was the most cataclysmic event in Western Christianity An ideal resource for undergraduate history students and general readers this title provides an accessible human narrative through the complex events of the period that many find bewildering History comes alive and events unfold through the eyes of Philipp of Hesse a German nobleman who ascended to becoming a key Reformation leader The book begins with a detailed survey of the Holy Roman Empire at the turn of the 16th century and provides chronological coverage of Philipp s life and role in the Reformation through to after his death in 1567 after which Calvinism rose within the empire The chapters document how Philipp of Hesse knew every major figure of the German Reformation participated in every major Reformation era imperial diet was present at every important event in the Lutheran dominated foundational period of 1521 to 1555 and became a leading Lutheran prince in the Holy Roman Empire Additionally the work thoroughly documents the connections between religion politics and society and explains the important role of the German nobility in the development of the Reformation

A Strange Tongue John D. Green,2002 This book is the product of both historical and personal interest in the grounds of religious conviction It deals with the practice and development of the tradition of discernment of spirits in the late fourteenth century England and sixteenth century Spain as reflected in the classical texts of the mystics of the periods Julian of Norwich the Cloud Author and Walter Hilton in England and Ignatius of Loyola and John of the Cross in Spain The tradition of discernment came into being at the very beginning of the Church s history and has been appropriated adapted and developed

throughout its history The book explores how the tradition is expanded and maintains continuity with its origins and suggests that it reaches some apogee in sixteenth century Spain for Christian lives of apostolic mission and contemplation It illustrates how the cultural circumstances of the times moulded the manner in which the experiences of the mystics were perceived Discernment of Spirits is about how Christians reach some conviction that the stirrings within consciousness which seem to originate so strangely and yet beckon so persistently are real in the sense of authentically divine They are stirrings which call for a response in the lives of mystics Rowan Williams at the beginning of his influential book *The Wound of Knowledge* refers to the intractable strangeness of the ground of belief that must constantly be allowed to challenge the fixed assumptions of religiosity it is a given whose question to each age is fundamentally one and the same This book illustrates how the question is addressed in the texts of the mystics In our own time the strange stirrings which intimate the question tend to be drowned by a multiplicity of competing voices The suggestion is made that when we listen to the voices of the past we may be encouraged to wonder about the question posed by the stirrings within our own consciousness hitherto unheard or dismissed as simply strange
