Dowling,2008-07-01 Boswell s Life of Johnson Tour of the Hebrides and Tour to Corsica are controlled argues William Dowling by a single conception of the heroic character one that reaches beyond the particular narrative situation to a final vision of man s dilemma in the modern world Samuel Johnson and Pascal Paoli the great protagonists of the three major narratives Boswell published during his lifetime are heroic spirits who manage to survive in an age of spiritual disintegration only by dwelling within imperiled private worlds of coherence and belief The Boswellian Hero the first comprehensive thematic study of Boswellian narrative is also a work with strong theoretical implications for students of biography as a genre Biography exists as literature according to Dowling only in relation to formal or objective interpretations of its meaning to read the Life of Johnson as a literary work is to dissociate its biographical hero from any real or historical Samuel Johnson in the same way one dissociates Shakespeare s Richard III from Richard III of England Although The Boswellian Hero promises to establish its importance in Boswell studies immediately it will also be of significant interest to readers concerned with the hero in literature with biography as a narrative form and with the complex theoretical problem of factual or historical literature

*Scotland, Britain, Empire* Kenneth McNeil,2007 Scotland Britain Empire takes on a cliché that permeates writing from and about the literature of the Scottish Highlands Popular and influential in its time this literature fell into disrepute for circulating a distorted and deforming myth that aided in Scotland s marginalization by consigning Scottish culture into the past while drawing a mist over harsher realities Kenneth McNeil invokes recent work in postcolonial studies to show how British writers of the Romantic period were actually shaping a more complex national and imperial consciousness He discusses canonical works the works of James Macpherson and Sir Walter Scott and noncanonical and nonliterary works

particularly in the fields of historiography anthropology and sociology This book calls for a rethinking of the romanticization of the Highlands and shows that Scottish writing on the Highlands reflects the unique circumstances of a culture simultaneously feeling the weight of imperial anglobalization while playing a vital role in its inception While writers from both sides of the Highland line looked to the traditions language and landscape of the Highlands to define their national character the Highlands were deemed the space of the primitive like other spaces around the globe brought under imperial sway But this concern with the value and fate of indigenouness was in fact a turn to the modern
