The African Origins of the Maori Gerald Massey, 2005-12-01 This scarce antiquarian book is a facsimile reprint of the original. Due to its age, it may contain imperfections such as marks, notations, marginalia, and flawed pages. Maori

Origins and Migrations M. P. K. Sorrenson, 2013-11-01 Since Europeans first set foot in New Zealand, they have speculated about where the Māori people came from, how they made their way to New Zealand, and how they lived when they arrived here. Theories have abounded; some of them have hardened into accepted truth. The result has been an accumulation of Pakeha myths about Māori origins. The process of this mythmaking is the subject of Sorrenson's book. It is not an attempt to find an original or even a Pacific homeland for the Māori. I leave that task to the many others who are happily engaged on it. But as a study of the development of ideas, this book is both fascinating and salutary. *African Origins of Monotheism* Gwinyai H. Muzorewa, 2014-10-29 *African Origins of Monotheism* recasts an African knowledge of God in a new and original way. It aims to recapture concepts of God as originally reflected upon by pristine African religious thinkers. Muzorewa is seeking after the traditional African understandings of the Divine which trace their origins back before the rise of Judaism, Christianity, and Islam. Monotheism, he maintains, is the ancient view of God ubiquitous across the continent of Africa; indeed, monotheism comes out of Africa. The book challenges the way that the idea of God has been manipulated by Eurocentric agendas by colonizers, enslavers, and empire builders, all of whom were using God-talk to achieve their own personal ends. In African thinking, the God-concept is guided by a sense of the presence of the all-pervasive and omnipresent God, which has instilled in the people a sense of respect for life at all costs. Thus, respect is not based on a commandment or on fear, but on a propensity for affinity.

Sports in African History, Politics, and Identity Formation Michael J. Gennaro, Saheed Aderinto, 2019-04-01 *Sports in African History, Politics, and Identity Formation* explores how sports can render a key to unlocking complex social, political, economic, and gendered relations across Africa and the Diaspora. Sports hold significant value and have an intricate relationship with many components of African societies throughout history. For many Africans, sports are a way of life, a site of cultural heroes, a way out of poverty and social mobility, and a site for leisurely play. This book focuses on the many ways in which sports uniquely reflect changing cultural trends at diverse levels of African societies. The contributors detail various sports such as football, cricket, ping pong, and rugby across the continent to show how sports lay at the heart of the discourse of nationalism, self-fashioning, gender, and masculinity, leisure, and play, challenges of underdevelopment, and ideas of progress. Bringing together the newest and most innovative scholarship on African sports, this book will be of interest to students and scholars of contemporary Africa, African history, culture, and society, and sports history and politics. **History of Māori of Nelson and Marlborough** Hilary Mitchell, Maui John Mitchell, 2004 Volume One Te
