

Democrats VS Republicans

The Democratic and the Republican party are the biggest in America but they differ significantly in their ideals and philosophies.

DEMOCRATS

- DEMOCRATS believe that the government should have a more active role in society because this will help society grow, achieve its goals, and also lead to equality and higher quality of life.

REPUBLICANS

- REPUBLICANS support the idea that the government should be small: it should employ a small number of people, and it shouldn't play such a big role in society.

The American Democrat:

The American Democrat James Fenimore Cooper, 2004 When *The American Democrat* was first published in 1838 Cooper's position as America's first major novelist obscured his serious contribution to the discussion of American principles and politics Yet Cooper says H L Mencken was probably the first American to write about Americans in the really frank spirit a simple sound and sensible tract moderate in tone and extraordinarily astute in its conclusions Cooper provides a concise statement of the principles of American democracy and of its social ramifications He was concerned that these principles and our institutions would be perverted especially by the confusion of an equality of rights with equality of condition The

Democrat (1838) James Fenimore Cooper, 2018-11-20 *The American Democrat Or Hints on the Social and Civic Relations of the United States of America* a political essay written by American republican author James Fenimore Cooper was published initially in New York State in 1838 Originally intended as a textbook on the American republican democracy the work analyzes the social forces that shape and can ultimately corrupt such a system It served as an indictment of public opinion which he argued had the potential to corrupt public morals and democracy Because *The American Democrat* did not intrigue the public like a novel would have it was neither purchased in the United States nor published in Europe The essay however provided the intellectual framework and concepts for two later works of fiction *Homeward Bound* or *The Chase A Tale of the Sea and Home as Found* Sequel to *Homeward Bound* Unlike his previous work where he set out to create American literature this essay is credited with helping Cooper to establish a new identity as a writer as one who exposed the vices in society Personal *The American Democrat* arose out of three major events in Cooper's life The first was his experience abroad Cooper had lived in Europe mainly in Paris between 1826 and 1833 This experience according to Cooper helped him become a foreigner in his own country 3 allowing him to present to the reader those opinions that are suited to the actual condition of the country rather than to dwell on principles more general 4 *The American Democrat* also arose out of the Three Mile Point dispute which ended on July 22 1837 This controversy began when the people of his hometown Cooperstown trespassed onto his property using it as a picnic ground After Cooper's publication of a notice about trespassing on his land the citizens and the press of Cooperstown organized a protest against him Attacks by the Whig newspapers continued even after Cooper had proved his ownership of that piece of property 5 This occurrence led Cooper to write about the role of property rights in America giving universal meaning to the dispute 6 The final event in Cooper's life that influenced his message in *The American Democrat* was his experience with libel lawsuits His struggles with the Whig press who had published libelous

statements about him escalated between 1837 and 1838 Ideological and Social Context In Cooper's mind the divine moral natural and civil laws were intertwined Influenced by John Locke and Alexander Pope he believed that natural law was the will of God's providence operating in nature according to observable principles 7 such as property rights deism and biblical truth These views were further influenced by the philosophies of Thomas Jefferson John Adams and James Madison Their ideas led him to believe that is necessary to protect the entire country from man's inherently self-serving nature The political situation in the late 1830s made Cooper feel as though the true nature of civil law and government was being disregarded Hence by 1838 the troubles created by legislative usurpation demagoguery rotation in office and leveling to mediocrity had in Cooper's view reached such a point that he longed to curb the exercise of individual liberty that he equally longed to maintain James Fenimore Cooper September 15 1789 September 14 1851 was an American writer of the first half of the 19th century His historical romances draw a picture of frontier and American Indian life in the early American days which created a unique form of American literature **The American Democrat** James Fenimore Cooper, 2018-05-05 The American Democrat Or Hints on the Social and Civic Relations of the United States of America a political essay written by American republican author James Fenimore Cooper was published initially in New York State in 1838 Originally intended as a textbook on the American republican democracy the work analyzes the social forces that shape and can ultimately corrupt such a system It served as an indictment of public opinion which he argued had the potential to corrupt public morals and democracy Because The American Democrat did not intrigue the public like a novel would have it was neither purchased in the United States nor published in Europe The essay however provided the intellectual framework and concepts for two later works of fiction Homeward Bound or The Chase A Tale of the Sea and Home as Found Sequel to Homeward Bound Unlike his previous work where he set out to create American literature this essay is credited with helping Cooper to establish a new identity as a writer as one who exposed the vices in society **The American Democrat** James Fenimore Cooper, 1838

Sheckels,2020-10-13 The Rhetoric of the American Political Party Conventions 1948 2016 establishes the rhetorical goals of the thirty six political party conventions that have taken place since 1948 against the backdrop of the fundamental changes that television brought to the conventions Theodore F Sheckels analyzes these conventions to determine whether the gatherings met or failed to meet those goals including addressing civil rights unifying divergent wings of the party celebrating the triumph of a single wing overcoming dissent inside and outside the meeting hall overcoming or capitalizing on scandal reconstituting the party after defeats arguing for change and advocating for inclusion Sheckels observes that although speeches are the primary vehicle through which attendees strive to reach these goals the crucial addresses are not always by the principal players often events other than speeches such as negotiations demonstrations and media spin can be just as consequential Sheckels discusses both the similarities and differences in the ways in which the conventions do business and constitute and reconstitute what the political parties are aiming to persuade the public with rhetorical images and messages Scholars of communication rhetoric political science and American studies will find this book particularly useful Truth, Justice & the American Way!
