March, Joan McEvers, 1981 V I Basic principles v II Math interpretation techniques v III Horoscope analysis *Seven Paths to Understanding* Zipporah Pottenger Dobyns, William Wrobel, 1985 The Sun at the Center Philip Sedgwick, 1990 Take a step forward into a new universe of astrological interpretation when you shift focus from Earth centered charts to Sun focused interpretations in *The Sun at the Center* by Philip Sedgwick The paths of astrology and astronomy diverged during the Renaissance and the Age of Reason as more facts and data became available People relied less on intuition and more on the powers of observations enhanced with more powerful telescopes Curiously astrology began who knows how many millennia ago as a strictly observational art When people could observe more they said that the Sun not the Earth was at the center of the solar system Old astrology didn't suddenly stop working with the advent of heliocentric awareness Because we live on the Earth geocentric astrology makes sense no scientific advancement can nullify it But if we can create a system where the planets and signs are seen in relation to the Earth we can do the same with the Sun The question is how do we come up with astrology from a Sun centered perspective The Sun at the Center answers that question Learn how discover the heliocentric positions of the planets Ideal for use in mundane astrology and analysis of spontaneous mass behavior Adds new information to geocentric astrological interpretations Provides a new way for looking at individuals Discover how solar activity influences revolutionary actions The Sun at the Center is a complete primer of heliocentric astrology It can be used by itself giving new

insights or in combination with geocentric astrology to enhance and expand upon what you already know The Sun at the Center takes astrology in a new direction and back to its origins Join this journey when you get The Sun at the Center
