Social Democracy Of The Austrian Providence:

In the Name of Social Democracy Gerassimos Moschonas, 2016-02-23 Following the locust years of the neo liberal revolution social democracy was the great victor at the fin de siècle elections Today parties descended from the Second International hold office throughout the European Union while the Right appears widely disorientated by the dramatic modernisation of a political tradition dating back to the nineteenth century The focal point of Gerassimos Moschonas s study is the emergent new social democracy of the twenty first century As Moschonas demonstrates change has been a constant of social democratic history the core dominant reformist tendency of working class politics notwithstanding capitalism has transformed social democracy more than it has succeeded in transforming capitalism Now in the great transformation of recent years a process of de social democratization has been set in train affecting every aspect of the social democratic phenomenon from ideology and programs to organization and electorates Analytically incisive and empirically meticulous In the Name of Social Democracy will establish itself as the standard reference work on the logic and dynamics of a major mutation in European politics

German History in Modern Times William W. Hagen, 2012-02-13 This history of German speaking central Europe offers a very wide perspective emphasizing a succession of many layered communal identities It highlights the interplay of individual society culture and political power contrasting German with Western patterns Rather than treating the Germans as a collective whole whose national history amounts to a cumulative biography the book presents the pre modern era of the Holy Roman Empire the nineteenth century the 1914 45 era of war dictatorship and genocide and the Cold War and post Cold War eras since 1945 as successive worlds of German life thought and mentality This book s Germany is polycentric and multicultural including the multinational Austrian Habsburg Empire and the German Jews Its approach to National Socialism offers a conceptually new understanding of the Holocaust The book s numerous illustrations reveal German self presentations and styles of life which often contrast with Western ideas of Germany

Forthcoming Books Rose Arny, 2003-04 **Providential Democracy** Dominique Schnapper, 2017-07-05 Democracy posits the universality of the equality principle a community of citizens is governed by the principle of the formal equality of all individuals whatever their real social cultural or other inequalities Democratization on the other hand is motivated by the ambition of ensuring the real equality of citizens and not simply their formal equality The dynamics of democracy are thus insured by the development of a welfare state that increasingly intervenes in order to satisfy the social and economic needs of individuals Especially focused on France yet informed by the experiences of other European countries this book examines the dilemmas of the search for equality in society and politics Democratization guarantees the rights of salaried workers and employees the rights to material survival and housing as well as health care education and culture Today however as Schnapper observes its action has become paradoxical As the fruit of a praiseworthy concern to ensure the universality of rights what Schnapper identifies as a Providence State now aims by means of positive discrimination and other specific

promotion policies to defend the particular rights of certain categories of individuals The action of the Providence State thus nourishes an aspiration that the identities of historical collectivities gathered within the same national society be publicly recognized and that these have rights Equity thus supplants equality and multiculturalism universality Such is the ordeal currently experienced by Western democracies which are faced with the increasingly providential nature of their societies Indeed the author asks how can a united political Europe be constructed on the ideals and institutions of citizenship when European nations are becoming providential democracies Providential Democracy offers a searching and timely critique of democratization that will be of interest to sociologists political sci

The Question of Nationalities and Social Democracy Otto Bauer, 2000 Until now *The Question of Nationalities and Social Democracy* was the only remaining work of classical Marxism not fully translated into English First published in German in 1907 this seminal text has been cited in countless discussions at nationalism from the writings of Lenin to Benedict Anderson's *Imagined Communities* The issues Bauer addressed almost a century ago still challenge current debates on diversity and minority rights In this remarkably prophetic text Bauer foreshadowed current ethnic conflicts in the Balkans and in the former Soviet Union and advocated an early concept of multiculturalism Attempting to reconcile Marxism with nationalism Bauer called for a system of self determination for ethnic communities in which extensive autonomy would be granted within a confederal multicultural state Bauer's words a United States of Europe with remarkable similarities to the contemporary European Union

Theatre and Performance in Austria Ritchie Robertson, Edward Timms, 1993 Through examining the interactions between public performance and national identity it provides a wide ranging account of one of the defining features of Austrian culture

The Betrayal of Socialism by the German Social-Democratic Party Joseph Goričar, 1917

Austria 1867-1955 John W. Boyer, 2022-09-15

Austria 1867-1955 connects the political history of German speaking provinces of the Habsburg Empire before 1914 Vienna and the Alpine Lands with the history of the Austrian Republic that emerged in 1918 John W Boyer presents the case of modern Austria as a fascinating example of democratic nation building The construction of an Austrian political nation began in 1867 under Habsburg Imperial auspices with the German speaking bourgeois Liberals defining the concept of a political people Volk and giving that Volk a constitution and a liberal legal and parliamentary order to protect their rights against the Crown The decades that followed saw the administrative and judicial institutions of the Liberal state solidified but in the 1880s and 1890s the membership of the Volk exploded to include new social and economic strata from the lower bourgeoisie and the working classes Ethnic identity was not the final structuring principle of everyday politics as it was in the Czech lands Rather social class occupational culture and religion became more prominent variables in the sortition of civic interests exemplified by the emergence of two great ideological parties Christian Socialism and Social Democracy in Vienna in the 1890s The war crisis of 1914-1918 exploded the Empire with the Crown self destructing in the face of military defeat chronic domestic unrest and bitter national partisanship But this crisis also accelerated the emergence of new structures of

democratic self governance in the German speaking Austrian lands enshrined in the republican Constitution of 1920 Initial attempts to make this new project of democratic nation building work failed in the 1920s and 1930s culminating in the catastrophe of the 1938 Nazi occupation After 1945 the surviving legates of the Revolution of 1918 reassembled under the four power Allied occupation which fashioned a shared political culture which proved sufficiently flexible to accommodate intense partisanship resulting by the 1970s in a successful republican system organized under the aegis of elite democratic and corporatist negotiating structures in which the Catholics and Socialists learned to embrace the skills of collective but shared self governance

Ethical Personalism Cheikh Mbacke Gueye, 2013-05-02 Ethical Personalism proposes to reflect on the person from at least three levels ontology epistemology and ethics Articulating from various philosophical and religious angles and traditions the ontological and inalienable value of the human person i e her dignity the contributors to this volume show not just what it means to be a human person but also what it takes to live accordingly Hence beyond the purely theoretical elaboration on ethical personalism that reposes the crucial debates between relativism and realism on the one hand and consequentialism and deontology on the other hand this volume offers a range of insights useful for addressing concrete and practical matters that we as humans are confronted in our everyday life With the call back to the person which takes roots from a deep conviction to bring into light the value of the person Ethical Personalism unequivocally affirms the necessity of re placing the person in the centre of our project of society economic plans political settings and environment policies

Women and Trade Unions Jennifer Curtin, 2018-11-09 First published in 1999 this volume aims to examine the extent to which such a partnership has been developed between women workers and trade unions with a comparative emphasis Jennifer Curtin analyses how women trade unionists have sought to make trade union structures and policy agendas more inclusive of the interests of women workers in four countries Australia Austria Israel and Sweden

OSS Foreign Nationalities Branch Files, 1942-1945 United States. Office of Strategic Services. Foreign Nationalities Branch, 1988 Documents consist of departmental memos and reports correspondence with individuals and press clippings and press reports which deal with American Jewish groups during 1942 1945 as well as issues relating to Palestine Jews and Jewish refugees during World War II

Austria Anton Pelinka, 2019-04-11 This book compares contemporary Austria with other political systems and with the Austrias that existed in the past The dynamism of the changes taking place in Austria can be described and analyzed with this double focus of comparison

Suffrage, Gender and Citizenship - International Perspectives on Parliamentary Reforms Pirjo Markkola, Seija-Leena Nevala-Nurmi, Irma Sulkunen, 2008-12-18 In 2006 Finland celebrated the centenary of universal and equal suffrage The reform in 1906 was radical women gained the right to vote and to stand as candidates in parliamentary elections The new rights were immediately used and 19 women were elected to the Parliament Finland was the third country after New Zealand and Australia in which women were admitted to full political citizenship Norwegian women were also granted political rights before WWI This publication studies suffrage

citizenship and parliamentary reforms in various socio political contexts It brings together new research from a wide range of scholars and disciplines In addition to pioneers attention is given to Austria Britain Canada Hungary Iran Ireland Israel Poland Romania Russia and Slovenia among others By highlighting national differences the collection strives to disperse the universalising trend of research The chapters suggest that the age of suffrage narratives based on a view of universal emancipation is over more significant are deconstructive approaches and analyses embedded in local factors From an international perspective the realisation of female suffrage was a long and multi faceted process taking different forms The issue of women s civil rights is certainly not a matter of the past Internationally suffrage gender and citizenship are highly topical issues as indicated in this collection

Social Democracy In Latin America Menno Vellinga,1993-05-06 In this book contributors review the prospects for social and economic transformation in Latin America using the European model Country and regional studies examine specific policies and discuss what social democracy offers given the margins for reformism

European Feminisms, 1700-1950 Karen M. Offen,2000 This ambitious book explores challenges to male hegemony throughout continental Europe over the past 250 years For general readers and those interested primarily in the historical record it provides a comprehensive comparative account of feminist developments in European societies as well as a rereading of European history from a feminist perspective By placing gender or relations between women and men at the center of European politics it aims to reconfigure our understanding of the European past and to make visible a long but neglected tradition of feminist thought and politics On another level the book seeks to disentangle some misperceptions and to demystify some confusing contemporary debates about the Enlightenment reason nature and public vs private equality vs difference In the process the author aims to show that gender is not merely a useful category of analysis but that sexual difference lies at the heart of human thought and politics

A History of Czechs and Jews Martin Wein,2015-02-11 Was Israel founded by Czechoslovakia A History of Czechs and Jews examines this question and the resulting findings are complex Czechoslovakia did provide critical secret military sponsorship to Israel around 1948 but this alliance was short lived and terminated with the Prague Trial of 1952 Israel s Czech guns were German as much as Czech and the Soviet Union strongly encouraged Czechoslovakia s help for Israel Most importantly however the Czechoslovak Israeli military cooperation was only part of a much larger picture Since the mid 1800s Czechs and Jews have been systematically comparing themselves to each other in literature music politics diplomacy media and historiography A shared perception of similar fates of two small nations trapped between East and West in constant existential danger helped forge a Czech Jewish national friendship amid periods of estrangement Yet this Czech Jewish national friendship an idea that can be traced from Masaryk and Kafka via Weizman and Ben Gurion to Havel and Netanyahu was more myth than reality Relations were often mixed and highly dependent on larger historical developments affecting Central Europe and the Middle East As the Czech Republic emerges as Israel s main EU ally this book provides a timely analysis of this old new alliance and is essential reading for students and

scholars with an interest in History and Jewish Studies *Dictionary of German Biography (DGB). Volume 8, Plett-Schmidseder* Walther Killy, Rudolf Vierhaus, 2011-11-30 No detailed description available for Plett Schmidseder

Historical Destiny and National Socialism in Heidegger's Being and Time Johannes Fritzsche, 2023-04-28 There has been much debate over the relationship of Heidegger's philosophy in particular his book Being and Time to his practical involvement with National Socialism Yet the question has never been addressed through a comparison of Being and Time with other texts on history and politics written at the time Johannes Fritzsche does this providing a detailed interpretation of the relevant passages in Being and Time especially sections 72-77 on fate community and society He analyzes for comparison two other authors who explicitly regarded themselves as rightists Adolf Hitler Mein Kampf and Max Scheler Formalism in Ethics and other writings and two authors on the left Georg Lukács History and Class Consciousness and Paul Tillich The Socialist Decision Fritzsche concludes that Being and Time is a brilliant summary of right wing politics in general which proposes the destruction of liberal society in order to regenerate an idealized community In addition Heidegger rejects positions on the right such as Scheler's that enabled their authors to distance themselves from the most extreme political rightists and thus he paves the way for National Socialism Being and Time Fritzsche demonstrates must be seen as a clear case for the National Socialists and their project of revitalization of the Volksgemeinschaft the community of the people This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1999 There has been much debate over the relationship of Heidegger's philosophy in particular his book Being and Time to his practical involvement with National Socialism Yet the question has never been addressed through a comparison of Being and Time **Embodied Histories** Katya Motyl, 2024-04-29 In Embodied Histories historian Katya Motyl explores the everyday acts of defiance that formed the basis for new unconventional forms of womanhood in turn of the century Vienna The figures Motyl brings back to life dressed however they pleased defied gender conformity behaved brashly and expressed themselves freely overturning assumptions about what it meant to exist as a woman Motyl delves into the ways in which these women inhabited and reshaped the urban landscape of Vienna an increasingly modern cosmopolitan city Specifically she focuses on how easily overlooked quotidian practices such as loitering outside cafés striking up conversations with strangers and taking dogs for walks helped create novel conceptions of gender Exploring the emergence of a new womanhood Embodied Histories presents a new account of how the gender the body and the city merge with and transform each other showing how our modes of being are radically intertwined with the spaces we inhabit Parties And Politics In Modern Germany Gerard Braunthal, 2019-06-18 This comprehensive text provides a detailed overview of the party system and politics of one of the most powerful states in the international arena Noted scholar Gerard Braunthal surveys the parties

in the Federal Republic of Germany and in the German Democratic Republic after World War II and in united Germany since 1990 By illustrating the cent
