Social Welfare David Macarov, 1995-02-28 Poverty unemployment limited access to health care the litany of ills plaguing contemporary society seems endless reflective of the pragmatic and philosophical battles waged to overcome what some perceive as insurmountable obstacles What role has the state played in mitigating the effects of these harsh realities Offering a comprehensive survey of past and present programs Social Welfare considers the substance and results of government intervention Shaped by the works of such distinguished figures as Martin Luther Adam Smith and Charles Darwin this incisive text charts the progression of social welfare policy from inception to its current status David Macarov links present policy to the convergence of five interacting motivations mutual aid religion politics economics and ideology In identifying these elements Macarov assays the significance of each in determining the nature of social welfare and its future Featuring chapter summaries and exercises this intriguing introduction to social welfare policy and practice will involve and inform students of social work political science and sociology David Macarov has written a handy introductory social policy text for undergraduate that transcends the descriptive accounts of the social services that pervade the literature Unlike many other introductory texts Macarov does not seek to list the major social services and describe their functioning but focuses instead on the role of ideas and wider social forces in social welfare The book is easy to read and thoroughly supported with recommendations for additional reading It is a useful addition to the literature Journal of Sociology and Social Welfare

Equal Treatment for People with Mental Retardation Martha A. Field, Valerie A. Sanchez, 2009-07-01 Engaging in sex becoming parents raising children these are among the most personal decisions we make and for people with mental retardation these decisions are consistently challenged regulated and outlawed This book is a comprehensive study of the American legal doctrines and

social policies past and present that have governed procreation and parenting by persons with mental retardation. It argues persuasively that people with retardation should have legal authority to make their own decisions. Despite the progress of the normalization movement which has moved so many people with mental retardation into the mainstream since the 1960s, negative myths about reproduction and child rearing among this population persist. Martha Field and Valerie Sanchez trace these prejudices to the eugenics movement of the late nineteenth and early twentieth centuries. They show how misperceptions have led to inconsistent and discriminatory outcomes when third parties seek to make birth control or parenting decisions for people with mental retardation. They also explore the effect of these decisions on those they purport to protect. Detailed, thorough and just, their book is a sustained argument for reform of the legal practices and social policies it describes. *University of Michigan Official Publication* University of Michigan, 1972. Ambivalences of Inclusion in Society and Social Work Stephan Bundschuh, Maria José Freitas, Cándid Palacín Bartrolí, Nino Žganec, 2020-10-28. This book represents the work of the European Research Network Inclusive Society and the Role of Social Work which comprises researchers from Barcelona, Spain; Koblenz, Germany; Maastricht, The Netherlands; and Zagreb, Croatia. The authors present research results and reflections from these four different European countries to provide a comprehensive introduction and discussion of the ambivalences of inclusive processes in society and social work. The development towards an inclusive society is a subject of ongoing discussion in Europe. How the subject is addressed through an examination of political and social characteristics differs significantly by country. Each country-specific chapter includes evidence-based reflections on inclusive society and the role of social work. In The Netherlands, there is evidence of a top-down process implementing inclusive social policy and social work principles through the self-proclaimed participation society. In Spain, the process to inclusion is accompanied by the third sector, often replacing governmental responsibilities, namely through the bottom-up activities of non-governmental organizations in social work. In Croatia, inclusion is a state initiative in transitioning society and an academic approach to deinstitutionalising social work. In Germany, inclusion is discussed in social systems theory and the reform of school systems. In the migration discourse, it was introduced as a less loaded alternative to integration. *Ambivalences of Inclusion in Society and Social Work: Research Based Reflections in Four European Countries* is a useful resource for learners, teachers, practitioners and researchers in social work as well as those who have an interest in social policy, social welfare and sociology. *Country Reports on Human Rights Practices*, 1980.
