was published as a special issue of Ethnic and Racial Studies Handbook of Adolescent Psychology, Volume 2 Richard M. Lerner, Laurence Steinberg, 2009-04-06 The study of and interest in adolescence in the field of psychology and related fields continues to grow necessitating an expanded revision of this seminal work This multidisciplinary handbook edited by the premier scholars in the field Richard Lerner and Laurence Steinberg and with contributions from the leading researchers reflects the latest empirical work and growth in the field Party System in India Ajay K Mehra, India's party system has been under flux transformation and reconfiguration since the end of the 1980s By the time the sun set on the twentieth century the party system in India had developed a plurality of national and regional levels and following several experiences in fits and starts coalition making among the parties too stabilized at the national level The dawn of twenty first century thus witnessed a federalized party system in place where coalition making and cohabitation amongst the parties stabilized at both national and regional levels As a result since 1999 India has had two completing governments completing their full term at the national level the third UPA II has completed four years and despite hiccups is likely to complete its full term till mid 2013 However the party system in the country has turned competitive and several trajectories of alternation are being attempted by parties and leaders making the emerging political situation fluid The volume attempts to capture the emerging trajectories of the party system in India in the second decade of the twenty first century with seventeen essays written specially for this volume by scholars who met several times to discuss and formulate questions and critique each other's drafts Overall the volume provides an incisive and comprehensive analysis of the far reaching changes that India's political parties and party system are undergoing It looks into the institutional dimensions processes and agenda federal manifestations transitions including generational change and extraneous influences brought in by globalization Indian Diaspora and the impact of new media technology Constituting an important contribution to the on going debate on the Indian party system this volume will attract the attention of students of Indian politics political science democracy party systems and comparative politics **Research in Education** ,1973 Police, Military and Ethnicity Cynthia Enloe, 2024-12-06 This collection of essays describes and analyzes the ways in which government policymakers go about designing police forces and militaries The author includes both wide ranging comparative investigations of the dimensions of the state security phenomenon and specific case studies Dr Enloe uses the sociological concept of ethnicity to demonstrate how the armed forces in several nations have capitalized on racial and ethnic diversity to foster their own goals and those of the government and power elites She examines this idea by focusing on the ethnic factors involved in the evolution of the South African military the military ethnic connection in Malaysia and the role of the armed forces in the conflict in Ulster The author illustrates convincingly that not only individual citizens desire security but that nation states themselves are engaged in the same pursuit What often passes for or is justified in the name of citizen protection is in fact done to strengthen the state itself Militaries are recruited in ethnically skewed ways and increasing numbers of police forces throughout the

world have military capacities not to enhance the security of private individuals but to protect the status quo of the central government and the nation's establishment Dr Enloe covers an assortment of countries within the framework of her central argument which is practically as well as theoretically significant Each chapter can be read on its own and all deal with currently salient political conditions
