The Dark Kingdoms The Impact Of White Civilization On Three Great African:

The Dark Kingdoms Alan Scholefield,1975 **The Kingdoms of Black: A Journey Through African Monarchies** Pasquale De Marco,2025-07-12 This book is a comprehensive exploration of the impact of white civilization on three great African monarchies the Kingdom of Congo the Kingdom of Dahomey and the Kingdom of Lesotho Basutoland It examines how these kingdoms were affected by European trade colonialism and imperialism and how they struggled to maintain their independence and cultural integrity The book begins with an overview of the history of Africa before the arrival of Europeans It then discusses the rise of the three kingdoms and their interactions with European powers The book also explores the impact of the slave trade colonialism and imperialism on the kingdoms and their people The Kingdom of Congo was one of the most powerful and prosperous kingdoms in Africa before the arrival of the Portuguese in the 15th century The Portuguese quickly established a trading relationship with the kingdom and soon began to exert their influence over its political and economic affairs The Portuguese also brought Christianity to Congo which had a profound impact on the kingdom s culture and society The Kingdom of Dahomey was founded in the 17th century and quickly became a powerful military and economic force in West Africa The Dahomeans were known for their fierce warriors and they expanded their territory through a series of conquests However the Dahomey Kingdom was also involved in the slave trade and the profits from this trade helped to fuel its expansion The Kingdom of Lesotho was founded in the early 19th century by King Moshoeshoe I The Basotho people were a pastoral people and they established a kingdom in the mountainous region of southern Africa The Basotho were able to resist the British who were eager to expand their control over the region However the British eventually prevailed and Lesotho became a British protectorate in 1868 The stories of these three kingdoms are just a few examples of the impact that white civilization has had on Africa The continent has been shaped by centuries of European colonialism and the legacy of this colonialism is still felt today This book explores the complex and often tragic history of Africa s encounter with white civilization and sheds light on the challenges that the continent faces today If you like this book write a review **The Griqua Past and the Limits of South African History, 1902-1994** Edward Cavanagh,2011 The Griqua people are commonly misunderstood Today they do not figure in the South African imagination as other peoples do nor have they for over a century This book argues that their comparative invisibility is a result of their place in the national narrative In this revisionist analysis of South African historiography the author analyses over a century s worth of historical studies and identifies a number of narrative frameworks that have proven resilient to change over this time The Griqua in particular have fared poorly compared to other peoples They appear in and disappear from this body of work in a number of consistent ways almost as though scholars have avoided re imagining their history in ways relevant to the present This book questions why that might be the case *Cultural Sociology of the Middle East, Asia, and Africa* Andrea L. Stanton,2012 In our age of globalization and multiculturalism it has never been more important to understand and

appreciate all cultures across the world The four volumes take a step forward in this endeavour by presenting concise information on those regions least well known to students across Europe the Middle East Asia and Africa The volumes convey what daily life is like for people in these selected regions Entries will aid readers in understanding the importance of cultural sociology to appreciate the effects of cultural forces around the world and to learn the history of countries and cultures within these important regions Key Features Topics are explored within historical context in three broad historical periods prehistory to 1250 1250 to 1920 and 1920 to the present One volume each is devoted to the regions of the Middle East and Africa and then one volume to East and Southeast Asia and a final volume to West Central and South Asia The volumes include extensive use of photographs and maps to explain cultural and geographic content Each volume has its own volume editor with expertise in that particular region Key Themes Arts Culture and Science People Society and Dynasties Religion and Law Family and Daily Life Conflicts and Wars Politics and Government Health and Education Economy Trade and Industry National Geography and History

Dahomey's Royal Architecture Lynne Ellsworth Larsen, 2023-06-23 Dahomey's Royal Architecture examines the West African kingdom of Dahomey located in present day Republic of Benin The book explores the Royal Palace of Dahomey's relationship to the religious cultural and national identity of the pre colonial Kingdom of Dahomey c 1625 1892 colonial Dahomey 1892 1960 and post colonial Benin 1960 present The Royal Palace of Dahomey covers more than 108 acres and was surrounded by a wall over two miles long When the French colonial army arrived in Abomey in 1892 the ruling king set fire to the palace to keep it from falling into enemy hands Though much of the palace structure was subsequently left to ruin a portion of it was restored from which the French ruled for a short period In 1945 the colonial administration transformed part of the palace into a museum and in 1985 the entire palace was added to UNESCO's World Heritage list This book documents the palace's physical transformations in relation to its changing purposes and explores how the space maintained religious significance despite change The palace's construction destruction and restorations demonstrate how architecture can be manipulated and transformed according to the agendas of governments or according to the religious and cultural needs of a populace The palace functions as a historic record by discussing aspects of documentation revision language and interpretation Covering almost four centuries of Dahomey's history this book will be of interest to researchers and students of African art and architecture religious studies west African history and post colonial studies

Matchlocks to Flintlocks William Urban, 2011-12-13 A big picture view of how changes in the way war was waged between 1500 and 1700 affected the world at large an exemplary book

War in History In the early modern world three dominant cultures of war were shaped by a synergy of their internal and external interactions One was Latin Christian western Europe Another was Ottoman Islam The third no less vital for so often being overlooked was east central Europe Poland Lithuania Livonia Russia the freebooting Cossacks a volatile mix of variations on a general Christian theme William Urban's fascinating narrative is an integrated account of early modern war on the ground of campaigns and battles soldiers and generals Temporally it extends from the French invasion of Italy in 1494 to Austria's Balkan victories culminating in the 1718 Treaty of Peterwardein Geographically it covers ground from the Low Countries to the depths of the Ukraine That narrative in turn focuses Urban's major analytical points the replacement of crowd armies by professionals and the professionals' integration into crown armies government supervised bureaucratized institutions The key to this process was the mercenary Originally recruited because the obligations of feudal levies were too limited mercenary forces evolved operationally into skilled users of an increasingly complex gunpowder technology in ever more complex tactical situations By the end of the seventeenth century soldiers were identifying with the states and the rulers they served

This book will have a particular appeal for arms and armor collectors because it is written from the soldier's perspective. It charts the fighting man's transition from warrior to soldier and from soldier to servant of the state. Classic Arms and Militaria
