Like Mother, Like Daughter? Armstrong, Jill, 2019-03-06 Women are encouraged to believe that they can occupy top jobs in society by the example of other women thriving in their careers Who better to be a role model for career success than your mother Paradoxically this book shows that having a mother as a role model even for graduates of top universities does not predict daughters progressing in their own careers It finds that mothers with careers whilst highly influential in their daughters choice of career path rarely mentor their daughters as they progress This is partly explained by quiet ambition the

tendency of women to be modest about their achievements Bigger issues are the twin pressures from contemporary motherhood and workplace culture that ironically lead career women's daughters to believe that being a good mother means working part time This stalls career progress Based on a large cross generational qualitative sample this book offers a timely and original perspective on the debate about gender equality in leadership positions

Daughters Grow up Feeding on Mother's Emotions Woo-ran Park, 2022-06-14 Mother is Mother Daughter is Daughter A self recovery guide for all of mothers and daughters by a psychoanalytic expert How mothers can reclaim their lives as independent women and human beings Why do mothers turn more to their daughters than sons when feeling upset or distressed Why do mothers look upon their happily married daughters with not just pride but a hint of jealousy Why do daughters when thinking about their mothers feel gratitude as well as guilt and resentment We need to lose our mothers to find ourselves And we need to find ourselves for our daughters to live their own lives Woo ran Park a psychoanalytic expert who for more than ten years has conducted over 10 000 psychotherapy and dream interpretation sessions reaches deep into psychology research and case studies to unlock the secret behind the love hate relationship between mothers and daughters and explain how we can protect our girls from this emotional wounding across generations Many reasons lie behind the mother's obsession with her daughter and the daughter's inability to break free from this hold But the author pays particular attention to the female tendency to attain self realization by meeting the unmet needs of others Mothers typically see the son or husband as the other and try to satisfy their needs but when it comes to the daughter who they see as their equivalent they're more likely to make demands Likewise daughters identify with the mother and see the mother's emotions as her own This is what makes the mother daughter relationship so complicated the daughter is angry at the mother who is full of demands but gives little love and wants to hate her but can't This deep psychological bond between the mother and daughter starts to show cracks as they become older introducing problems both big and small into their lives Feelings of obsession bitterness resentment longing and gratitude get rolled into one and make the two oscillate between love and hate In short the mother and daughter have failed to create a healthy distance between themselves Then what can we do Park says we should question the social concept of unconditional motherly love and try to bring to the surface the mom's deeply buried wants and desires as a woman Only then can we forge a path different from our mother's and our daughters live a different life from our young selves The author walks us through the main conduits through which the mother's unconscious is passed onto the daughter emotions gaze unmet needs maternal love husband and how we can reclaim ourselves as not just a woman but as a human being This book will help you to learn the Psychology for Mothers Daughters and all of women and recover yourself Feelings of Guilt Resentment and Gratitude About Female Emotions Daughters Grow up Feeding on Mother's Emotions About Mother's Emotions Am I Really My Child's Mother About the Maternal Gaze I Wanted to Be Mom's Loving Daughter About the Mother's Unmet Needs All Mothers are Strong About Maternal Love Moms Be Moms Dads Be Dads About Our Husbands

Mothers and Daughters

Suzanne Degges-White, Christine Borzumato-Gainey, 2014-01-16 In addition to the simple physiological and genetic bond that connects parents to their children there is also a deeply rooted and often conflicting emotional bond that develops between mothers and daughters The culture of motherhood has dramatically reshaped itself over the past few decades as economics and politics have shifted in this nation Single parenting is no longer the cultural taboo it once was perceived to be Daughters and mothers are frequently spending a greater number of years under one roof as both emerging adults face financial challenges in trying to launch from the nest and older adults are living longer and often being cared for by daughters Making sense of these relationships can be challenging and upsetting rewarding and fulfilling all at once Here the authors discuss the roles of mother and daughter and how they have changed and continue to grow and present the stories of women from all walks of life and from different age groups to illustrate what being a mother and being a daughter really means to women in their everyday lives They guide readers to a better understanding of their relationships on a personal level even as they describe the evolving nature of contemporary mother daughter dynamics By providing women with a book that candidly explores the myriad paths and depths to which the mother daughter relationship might wind the authors help readers smooth over the difficulties and power struggles they may be experiencing with their mothers or their daughters or both

Holocaust

Mothers and Daughters

Federica K. Clementi, 2013-12-03 In this brave and original work Federica Clementi focuses on the

mother daughter bond as depicted in six works by women who experienced the Holocaust sometimes with their mothers sometimes not The daughters memoirs which record the all too human qualities of those who were persecuted and murdered by the Nazis show that the Holocaust cannot be used to neatly segregate lives into the categories of before and after Clementi s discussions of differences in social status along with the persistence of antisemitism and patriarchal structures support this point strongly demonstrating the tenacity of trauma individual familial and collective among Jews in twentieth century Europe
