Theory Now Philip Wexler,2003-05-20 First Published in 1991 The first wave of North American critical theory was at once both academic and political Interest in the works of the early Frankfurt School may have belonged to a more general renaissance of academic social theory that occurred in North America during the late 1960s and early 1970s There is a new voice that comes through the historic political struggles of a student movement of feminism and of anti racist and ecological social movements It is a voice also schooled in a sensitivity to the theories of social disintegration or an implosion that characterizes the post modernist moment The authors represented in this reader are neither scholastic nor dogmatic They do not eschew postmodernism for hackneyed slogans nor do they embrace theory as an aesthetic substitute for theory as a socially transformative practice They are committed both to social theory and social practice and it is this which unifies the papers which follow The authors are a new generation of North American critical theorists who do not retreat to European humanism in the face of social cultural and self transformation

Thurschwell,2009-05-07 The work of Sigmund Freud has penetrated almost every area of literary theory and cultural studies as well as contemporary culture Encouraging and preparing readers to approach Freud s original texts this guide ensures that readers of all levels will find Freud accessible challenging and of continued relevance *Reading Lacan* Jane

Gallop,2018-08-06 The influence of the French psychoanalyst Jacques Lacan has extended into nearly every field of the

humanities and social sciences from literature and film studies to anthropology and social work yet Lacan's major text *Écrits* continues to perplex and even baffle its readers. In *Reading Lacan* Jane Gallop offers a novel approach to Lacan's work based on his own theories of language. Lacan locates truth in the letter rather than in the spirit in the ways statements are expressed rather than in their intended meaning. Gallop here grapples with six of Lacan's essays from *Écrits*: The Seminar on The Purloined Letter, The Mirror Stage, The Freudian Thing, The Agency of the Letter in the Unconscious, The Signification of the Phallus and The Subversion of the Subject. While other commentators have chosen not to confront Lacan's notoriously problematic style in their discussions of his ideas, Gallop addresses herself directly to the problem and the practice of reading Lacan. She takes her direction from Lacan's view of subjectivity and offers a deeply personal feminist reading of *Écrits*. Concentrating on the relation of desire and interpretation, she opens up the rich implications of Lacan's thought for psychoanalytic theory for the act of reading and for knowledge itself. Forceful and revealing yet utterly candid about its own areas of uncertainty, Gallop's book will be indispensable to readers of Lacan and to scholars and students who have felt his impact.

The Pornography of Representation Susanne Kappeler, 2013-05-03 This book marks a radical and powerful intervention in traditional arguments about pornography. Kappeler re-examines the artistic distinctions between fantasy and reality, pornography and erotica, and challenges the legal definition of obscenity as well as the intellectual defence of freedom of expression. By linking images of actual violence with the imaginative portrayal of women in the realm of the aesthetic, she establishes vital connections between modes of representation and social forms of power and domination. It is essential reading for anyone concerned with issues of pornography and sexual politics and related debates in literary criticism and cultural studies.
