Remaking Radicalism Dan Berger,Emily K. Hobson,2020-10 This book brings together documents from multiple radical movements in the recent United States from 1973 through 2001 These years are typically viewed as an era of neoliberalism dominated by conservative retrenchment the intensified programs of privatization and incarceration dramatic cuts to social welfare and the undermining of labor antiracist and feminist advances Yet activists from the period proved tenacious in the face of upheaval resourceful in creating new tactics and dedicated to learning from one another Persistent and resolute activists did more than just keep radical legacies alive They remade radicalism bridging differences of identity and ideology often assumed to cleave movements grappling with the eradication of liberal promises and turning to movement cultures as the source of a just future Remaking Radicalism is the first anthology of U S radicalisms that reveals the depth diversity and staying power of social movements after the close of the long 1960s Editors Dan Berger and Emily Hobson track the history of popular struggles during a time that spans the presidencies of Richard Nixon and George W Bush and bring to readers the political upheavals that shaped the end of the century and that continue to define the present

OUR UNFINISHED BUSINESS Phillip Berryman, 2013-02-20 What human ends are served by our economic policies To whom is what owed in our country today Is there an acceptable argument for just wars or for the proliferation of nuclear weapons In the final years of the Reagan era The U S Catholic bishops emerged as articulate sources of dissenting wisdom publicly testing our foreign and domestic policies against the principles of morality and humanity With the same succinct style of Liberation Theology Phillip Berryman analyzes two recent and widely circulated texts the 1982 Challenge of Peace on nuclear arms and the 1986 Economic Justice For All Drawing on debate in and beyond church circles over these letters Berryman argues that as we search for acceptable answers to urgent political questions we must use ethical and moral traditions if we are to confront them squarely Only then can we promote peace and prosperity for all

The Nutmeg's Curse Amitav Ghosh, 2021-10-14 The author of The Great Derangement finds the origins of our climate crisis in Western colonialism's violent exploitation of human life and the environment A powerful work of history essay testimony and polemic Amitav Ghosh's new book traces our contemporary planetary crisis back to the discovery of the New World and the sea route to the Indian Ocean The Nutmeg's Curse argues that the dynamics of climate change today are rooted in a centuries old geopolitical order constructed by Western colonialism At the center of Ghosh's narrative is the now ubiquitous spice nutmeg The history of the nutmeg is one of conquest and exploitation of both human life and the natural environment In Ghosh's hands the story of the nutmeg becomes a parable for our environmental crisis revealing the ways human history has always been entangled with earthly materials such as spices tea sugarcane opium and fossil fuels Our crisis he shows is ultimately the result of a mechanistic view of the earth where nature exists only as a resource for humans to use for our own ends rather than a force of its own full of agency and meaning Writing against the backdrop of the global pandemic and the Black Lives Matter protests Ghosh frames these historical stories in a way that connects our shared colonial histories with the deep inequality we see around us today By interweaving discussions on everything from the global history of the oil trade to the migrant crisis and the animist spirituality of Indigenous communities around the world The Nutmeg's Curse offers a sharp critique of Western society and speaks to the profoundly remarkable ways in which human history is shaped by non human forces

Fractured Narratives and Pandemic Identities Om Prakash Dwivedi, Aleks Wansbrough, 2024-08-30 The book considers how identities have become more fractured since COVID 19 by thinking of COVID 19 in relation to other crises economic social digital and ecological and by drawing parallels to literature cinema and visual art COVID 19 was a type of apocalypse a catastrophic destructive event that produced dystopian measures in its wake and drew uncanny parallels to dystopic works of literature and speculative fiction Yet the pandemic was apocalyptic in another sense too The word apocalypse derives from apokalupsis which means disclosure or uncovering In this way COVID 19 also revealed the dystopian processes already at work in the world including digital forms of surveillance as well as the asymmetries within populations and divides in health outcomes between the Global North and Global South Indeed societies that have experienced the horrors of settler colonialism have already survived apocalypses COVID 19 serves then as a premonition for our climate emergency as well as an echo of other apocalyptic situations both real and imagined This book consists of essays from acclaimed theorists and scholars writing amid the pandemic and exposes the asymmetries of our divided world The volume will be indispensable for scholars and researchers of literature postcolonial studies cultural studies and comparative literature including post apocalyptic and speculative fiction The chapters in this book were originally published as a special issue of Journal of Postcolonial Writing and are accompanied by a new afterword
