"...For example, advanced manufacturing technologies such as computer-aided design can increase job variety, autonomy and interdependence, and improve work design (Wall, Corbett, Clegg, Paul & Martin, 1991). Ultimately, therefore, it is rarely the technology per se that determines the nature of work design within organizations (Liker, Haddad & Karim, 1999; Wood, 1982) ..."

The Degradation Of Work Skill Deskilling And The Labour Process:

The Degradation of Work? Stephen Wood,1982 The Degradation of Work? Skill, Deskilling and the Labour Process Stephen Wood,1982 *The Degradation of Work?* Stephen Wood,2024-09-02 Originally published in 1982 and now reissued with a new Preface by Stephen Wood the contributors of this book discuss the issues surrounding the organization of labour They use insights from industrial sociology historical research and Marxist Feminist debates In particular they stress that work organization cannot be seen simply as a reflection of the strategy of an omniscient management any examination of it must involve product and labour markets technology trade unionism and above all the way in which production systems are jointly created out of the interrelationship between management and workforces The Degradation of Work asks if there has been a general de skilling and routinization of jobs and if skilled jobs are really any different from semi skilled or unskilled ones New Technology and the Labour Process David Knights,Hugh Willmott,1988-06-01 The papers in this volume examine the conditions and consequences of micro electronic technology within one or more of various spheres of the labour process **The SAGE Handbook of the Sociology of Work and Employment** Stephen Edgell,Heidi Gottfried,Edward Granter,2015-12-03 The SAGE Handbook of the Sociology of Work and Employment is a landmark collection of original contributions by leading specialists from around the world The coverage is both comprehensive and comparative in terms of time and space and each state of the art chapter provides a critical review of the literature combined with some thoughts on the direction of research This authoritative text is structured around six core themes Historical Context and Social Divisions The Experience of Work The Organization of Work Nonstandard Work and Employment Work and Life beyond Employment Globalization and the Future of Work Globally the contours of work and employment are changing dramatically This handbook helps academics and practitioners make sense of the impact of these changes on individuals groups organizations and societies Written in an accessible style with a helpful introduction the retrospective and prospective nature of this volume will be an essential resource for students teachers and policy makers across a range of fields from business and management to sociology and organization studies **The Sociology of Work** Stephen Edgell,Edward Granter,2019-10-28 Definitive critical and engaging this is a superb introduction to the sociology of work Leo McCann Now in a fully updated third edition The Sociology of Work draws on the work of classic and contemporary theorists to provide readers with a thorough exploration of all aspects of work and employment including paid and unpaid work standard and non standard employment and unemployment The new edition includes Two new chapters on Work Skill and the Labour Process and Managing Culture at Work Expanded coverage of the rise and decline of trade unions emotional labour misbehaviour and resistance at work Further discussion of the gig economy and precarious work automation and the end of work globalization and human rights For Sociology and Business students taking modules in work employment and society Clearcutting the Pacific Rain Forest Richard A. Rajala,2011-11-01 This book integrates class environmental and political analysis to uncover

the history of clearcutting in the Douglas fir forests of B C Washington and Oregon between 1880 and 1965 Part I focuses on the mode of production analyzing the technological and managerial structures of worker and resource exploitation from the perspective of current trends in labour process research Rajala argues that operators sought to neutralize the variable forest environment by emulating the factory model of work organization The introduction of steam powered overhead logging methods provided industry with a rudimentary factory regime by 1930 accompanied by productivity gains and diminished workplace autonomy for loggers After a Depression inspired turn to selective logging with caterpillar tractors timber capital continued its refinement of clearcutting technologies in the post war period achieving complete mechanization of yarding with the automatic grapple Driviiing this process of innovation was a concept of industrial efficiency that responded to changing environmental conditions product and labour markets but sought to advance operators class interests by routinizing production The managerial component of the factory regime took shape in accordance with the principles of the early 20th century scientific management movement Requiring expertise in the organization of an expanded technologically sophisticated exploitation process operators presided over the establishment of logging engineering programs in the region s universities Graduates introduced rational planning procedures to coastal logging contributing to a rate of deforestation that generated a corporate call for technical forestry expertise after 1930 Industrial foresters then emerged from the universities to provide firms with data needed for long range investment decisions in land acquisition and management Part II constitutes an environmental and political history of clearcutting This reconstructs the process of scientific research concernng the factory regime s impact on the ecology of the Douglas fir forest assessing how knowledge was utitized in the regulation of cutting practices Analysis of business government relations in British Columbia Washington and Oregon suggests that the reliance of those client states on revenues generated by timber capital enouraged a pattern of regulation that served corporate rather than social and ecological ends *Just a Temp* Kevin Daniel Henson,1996 Based on the author s participant observation research undertaken between 1988 and 1991 and on interviews with 35 others involved in temporary employment **Women's Employment and the Capitalist Family** Ben Fine,2002-01-31 First published in 2002 Routledge is an imprint of Taylor Francis an informa company

Skills in the Age of Over-Qualification Caroline Lloyd,Jonathan Payne,2016-11-10 Across the developed world most of us who work now earn our living in the service sector However the issue of what kind of service economy is sustainable and desirable both in economic and social terms is rarely debated This book argues that this needs to change National governments have emphasised the role of skills in achieving international competitiveness higher living standards and social inclusion However even prior to the 2008 financial crisis problems of over qualification skills wastage and poor job quality were becoming difficult to ignore This raises important questions about what kind of service sector jobs will be on offer to meet the aspirations of an increasingly qualified workforce and what role can governments play in raising the skills required in jobs and the quality of jobs and services Work organisation and job design

are key factors shaping the skill content of work and the opportunities workers have to deploy their skills and capabilities Through cross national comparative research this book examines whether and why service sector jobs vary across countries Drawing upon detailed empirical research the jobs of vocational teacher fitness instructor and caf worker in the UK Norway and France are compared allowing an exploration of the role of national institutions sectors and organisations in shaping work organisation and job quality The findings contribute to the comparative study of work organisation the relationship between skills and performance the role and purpose of education and the prospects for better jobs in the age of over qualification

Comparative Employment Relations in the Global Economy Carola

Frege, John Kelly, 2013-07-24 Employment Relations is widely taught in business schools around the world Increasingly however more emphasis is being placed on the comparative and international dimensions of the relations between employers and workers It is becoming ever more important to comprehend today's work and employment issues alongside a knowledge of the dynamics between global financial and product markets global production chains national and international employment actors and institutions and the ways in which these relationships play out in different national contexts This textbook is the first to present a cross section of country studies including all four BRIC countries Brazil Russia India and China alongside integrative thematic chapters covering all the important topics needed to excel in this field The textbook also benefits from the editors and contributors experience as leading scholars in Employment Relations The book is an ideal resource for students on advanced undergraduate and postgraduate comparative programmes across areas such as Employment Relations Human Resource Management Political Economy Labour Politics Industrial and Economic Sociology Regulation and Social Policy

The International Migration of Health Workers John Connell, 2008-02-11 This volume provides the first detailed overview of the growing phenomenon of the international migration of skilled health workers The contributors focus on who migrates why they migrate what the outcomes are for them and their extended families what their experiences in the workforce are and ultimately the extent to which this expanding migration flow has a relationship to development issues It therefore provides new interdisciplinary reflections on such core issues as brain drain gender roles remittances and sustainable development at a time when there has never been greater interest in the migration of health workers

Managing the Adoption of New Technology David Preece, 2018-03-29 Originally published in 1989 this book gives an overview of the empirical work on new technology objectives together with an analysis of management strategies for adoption at the corporate technological and people levels It also reviews previous work on the extent to which staff at different levels and from different specialisms are involved in decision making as well as the adoption process more generally The book looks at different approaches to analysing organizational contexts and provides a framework for studying the stages of the adoption process The book includes case studies two in financial services and two in engineering contexts

Social Policy Gillian Pascall, 2002-09-11 No one can hope to understand the workings of the welfare state without first appreciating women's part in it In the past decade the significance of the gendering of welfare states has become widely accepted extensively charted in research and more systematically theorized Building on her earlier work in Social Policy A New Feminist Analysis Gillian Pascall confronts the challenges and outlines the developments that have taken place during the eleven years since its first publication This new edition also reflects extensive social changes in women's participation at work educational achievement security in marriage and policy changes aimed at producing a mixed economy of welfare increasing family responsibility in health community care housing education and income security It examines the changing pattern of welfare provision with increasing reliance on women's unpaid work the gendered nature of UK welfare structures

the continuing dependence of women on men's incomes and on welfare benefits the public private divide women's non citizenship as carers for young and old and the changing political climate of the 1980's and 1990's Social Policy A New Feminist Analysis covers traditional policy areas which makes it ideal reading for students of health housing social security and education as well as courses about women

The Political Ecology of Bananas Lawrence S. Grossman, 2000-11-09

This study of banana contract farming in the Eastern Caribbean explores the forces that shape contract farming enterprises everywhere capital the state and the environment Employing the increasingly popular framework of political ecology which highlights the dynamic linkages between political economic forces and human environment relationships Lawrence Grossman provides a new perspective on the history and contemporary trajectory of the Windward Islands banana industry He reveals in rich detail the myriad impacts of banana production on the peasant laborers of St Vincent and the Grenadines Grossman challenges the conventional wisdom on three interrelated issues central to contract farming and political ecology First he analyzes the process of deskilling and the associated significance of control by capital and the state over peasant labor Second he investigates the impacts of contract farming for export on domestic food production and food import dependency And third he examines the often misunderstood problem of pesticide misuse Grossman's findings lead to a reconsideration of broader debates concerning the relevance of research on industrial restructuring and globalization for the analysis of agrarian change Most important his work emphasizes that we must pay greater attention to the fundamental significance of the environmental rootedness of agriculture in studies of political ecology and contract farming
