Honest Answers about the Murder of President John F. Kennedy Vincent Michael Palamara, 2021-03-19. Thousands of books and articles have been written about the murder of JFK, many of which are large in volume and short on facts. Quite often these works try to reinvent the wheel, attempting to cover every single area of the assassination as well as many tangential and unessential points as well. The reader is often left exhausted and confused. The sheer volume of pages, conflicting facts, and theories leaves one unsatisfied and quite frankly not sure exactly what did happen on 11-22-63. This book seeks to separate the wheat from the chaff. It is 55+ years later; it is time for real honest answers in an easy-to-read and understand format. Proof of a conspiracy: no theories to the point; a perspective on the assassination for the millennial age and beyond. Based on years/decades of primary source research and having read countless books on the subject.

The Devil's Chessboard Leon De Costa, 1945* *USA: The Ruthless Empire* Daniele Ganser, 2023-01-17. Empires rise and fall; they do not last. In the eyes of many, the US exerts the strongest destabilizing influence on world events and thus presents the greatest threat to world peace. World power 1 hasn't acquired this top position by chance. Since 1945, no other nation has bombed as many other countries or toppled as many governments as the US. It maintains the most military bases, exports the most weapons, and has the highest defense budget in the world. *USA: The Ruthless Empire* explains the background, factors, motives, and resources of this world power.

Energy Reality Peter Cabana, 2018-05-29. In 1963, he began work as a civil engineer working on the California State Water Project, and he went on to develop large energy projects throughout the world, capping his career working with Bechtel on the Big Dig in Boston. *Energy Reality* reveals how energy, politics, and power are intertwined. Highlights include power struggles between the United States of America and Russia, the Soviet Union to be the world's largest producer of petroleum, which began after the Rothschilds took a shortcut through the Suez Canal, secretly opening the Asian market to kerosene. John Watson Foster, his son-in-law Robert Lansing, and Uncle Bert's two nephews John Foster and Allen Dulles, who made certain that Sullivan and Germany and Japan and how they were excluded from sharing oil wealth from the Middle East. The author also examines five postwar oil crises, including the taking of American hostages in Iran by the Khomeini regime in 1979 and how Vladimir Putin is seeking to turn Russia into a powerful petro-state.

Near and Far Waters Colin Flint, 2024-07-30. Seapower has been a constant in world politics, a tool through which powerful countries have policed the seas for commercial advantage. Political geographer Colin Flint highlights the geography of seapower as a dynamic, continual struggle to gain control of near waters (those parts of the oceans close to a country's shoreline) and far waters (parts of the oceans beyond the horizon and that neighbor the shorelines of other countries). A forceful and clarifying challenge to conventional accounts of geopolitics, *Near and Far Waters* offers an accessible introduction to the combination of economic and political relations that are the reason

behind and the result of the development of seapower to control near waters and project force into far waters Examining the histories of three naval powers the Netherlands Britain and the United States this book distills the past and present patterns of seapower and their tendency to trigger repercussive conflict and war Readers will gain an appreciation for how geopolitics works the importance of seapower in economic competition the motivations behind China s desire to become a global naval force and the risks of current and future wars Drawing on decades of experience Flint urges readers to take seriously the dilemma of near far waters as a context for an alternative understanding of global politics **The Anti-Globalist**

Manifesto Jerome R. Corsi,2024-08-13 In his new book The Anti Globalist Manifesto Ending the War on Humanity bestselling author Jerome Corsi puts out a call for action to reverse the totalitarian goals of the New World Order globalists Corsi addresses that these demons are well advanced in their planned One World Government takeover aimed at establishing an atheistic utopia that will have no respect for traditional human rights Comfortable that their transhuman aspirations are achievable the Malthusian elite is waging a war on humanity that embraces global depopulation as a means of preventing Earth s abundant natural resources for themselves Tracing this dystopian nightmare back to the assassination of President John F Kennedy on November 23 1963 as the day the deep state went rogue in a conspiracy involving the CIA the Pentagon the State Department and the Department of Justice to affect a coup d tat that would allow the military industrial complex to go to war in Vietnam the deep state has created an ongoing Truman Show a series of never ending psychological operations designed to induce citizens worldwide to surrender freedoms to government in return for security With the premise that the globalist elite uses systems of mass manipulation and social engineering to induce the world s population to accept the implementation of the reforms it has already decided to implement Corsi sets a detailed plan for organizing global resistance against the subversives who now sit at the top of the institutions or world government and finance The Anti Globalist Manifesto is a call to action to restore God to our lives as those of us fighting for a return to personal freedoms and limited government ending the war on humanity and driving once and for all time the New World Order globalists back to Hell where they belong **The Anointed** Jeremiah Lambert,Geoffrey S. breakdown of US democracy In particular how we can understand the uncanny continuity of American foreign policy the breakdown of the rule of law and the extreme concentration of wealth and power into an overworld of the corporate rich To trace the evolution of the American state the author takes a deep politics approach shedding light on those political practices that are typically repressed in mainstream discourse In its long history before World War II the US had a deep political system a system of governance in which decision making and enforcement were carried out within and outside of public institutions It was a system that always included some degree of secretive collusion and law breaking After World War II US elites decided to pursue global dominance over the international capitalist system Setting aside the liberal rhetoric this project was pursued in a manner that was by and large imperialistic rather than progressive To administer this covert empire US elites created a massive national security state characterized by unprecedented levels of secrecy and lawlessness The Global Communist Conspiracy provided a pretext for exceptionism an endless exception to the rule of law What gradually emerged after World War II was a tripartite state system of governance The open democratic state and the authoritarian security state were both increasingly dominated by an American deep state The term deep state was badly misappropriated during the Trump era In the simplest sense it herein refers to all those institutions that collectively exercise undemocratic power over state and society To trace how we arrived at this point American Exception explores various deep state institutions and history making interventions Key institutions involve the relationships between the overworld of the corporate rich the underworld of organized crime and the national security actors that mediate between them History making interventions include the toppling of foreign governments the launching of aggressive wars and the political assassinations of the 1960s The book concludes by assessing the prospects for a revival of US democracy

Who Paid the Pipers of Western Marxism? Gabriel Rockhill, 2025-12 Who Paid the Pipers of Western Marxism offers a crash course in the history of imperialist propaganda as well as in the Marxist method for analyzing culture and ideology Author Gabriel Rockhill demonstrates the explanatory and transformative superiority of a dialectical and historical materialist approach while elucidating how the world of ideas is a crucial site of class struggle He then engages in a meticulous counter history of the Frankfurt School which made a foundational contribution to Western Marxism by situating it within the global relations of class struggle and the imperialist war on actually existing socialism With the explicit and direct backing of powerful elements in the capitalist ruling class and the world s leading imperialist state the Frankfurt School developed a widely promoted form of compatible critical theory as an ersatz for dialectical and historical materialism The volume concludes by bringing to the fore the positive project that serves as the guiding methodological framework for the work as a whole a thoroughly anticolonial and anti imperialist Marxism dedicated to building socialism in the real world Drawing on extensive archival research to pull back the curtain on ruling class machinations Rockhill s book elucidates how the intellectual world war on the socialist alternative has sought to

shore up and promote a compatible left intelligentsia while misrepresenting maligning and trying to destroy the revolutionary left
