Library,1987 America Rules Tom Hanahoe,2003 The story of America s march to globalisation began two centuries ago with a trade driven war against Barbary pirates and exists today in the interests of a small corporate elite While politicians foster an image of a chivalric US which serves as the global protector of freedom democracy and human rights the reality is that US policies have showed contempt for these very ideals and have led to the situation that individual corporate giants now wield more economic power in the global arena than most national governments This is that story *China's Foreign Aid and Investment Diplomacy, Volume III* John F. Copper,2016-04-29 Today by many accounts China is the world s foremost purveyor of foreign aid and foreign investment to developing countries This is the product of China s miracle economic growth over a period of more than three decades together with China s drive to become a major player in world affairs and accomplish this through economic rather than military means This three volume work is the first comprehensive study of China s aid and investment strategy to trace how it has evolved since Beijing launched its foreign aid diplomacy at the time of the founding of the People s Republic of China in 1949 Volume III offers an analysis of China s foreign aid and investment to countries outside of Asia in Africa Europe the Middle East Latin America and Oceania Africa was and is the most important of these regions and it is given special treatment In the concluding chapter Copper reviews the findings of previous the volumes delineates China s most important victories and setbacks and notes opposition to and criticism of China s aid and investment diplomacy Copper gives evidence that will be shocking to some of the reality that China s financial help to developing countries is one of the most salient trends in international politics and constitutes a formidable challenge to the United States Japan and Europe as well as international financial institutions **Reader's Guide to the Social Sciences** Jonathan Michie,2014-02-03 This 2 volume work includes approximately 1 200 entries in A Z order critically reviewing the literature on specific topics from abortion to world systems theory In addition nine major entries cover each of the major disciplines political economy management and business human geography politics sociology law psychology organizational behavior and the history and development of the social sciences in a broader sense Africa Phyllis M.
