Michelle A. McKinley, 2016-10-14 *Fractional Freedoms* explores how thousands of slaves in colonial Peru were able to secure their freedom keep their families intact negotiate lower self purchase prices and arrange transfers of ownership by filing legal claims Through extensive archival research Michelle A McKinley excavates the experiences of enslaved women whose historical footprint is barely visible in the official record She complicates the way we think about life under slavery and demonstrates the degree to which slaves were able to exercise their own agency despite being ensnared by the Atlantic slave trade Enslaved women are situated as legal actors who had overlapping identities as wives mothers mistresses wet nurses and day wage domestics and these experiences within the urban working environment are shown to condition their identities as slaves Although the outcomes of their lawsuits varied *Fractional Freedoms* demonstrates how enslaved women used channels of affection and intimacy to press for liberty and prevent the generational transmission of enslavement to their children Colonialism and Postcolonial Development James Mahoney, 2010-02-15

In this comparative historical analysis of Spanish America Mahoney offers a new theory of colonialism and postcolonial development He explores why certain kinds of societies are subject to certain kinds of colonialism and why these forms of colonialism give rise to countries with differing levels of economic prosperity and social well being Mahoney contends that differences in the extent of colonialism are best explained by the potentially evolving fit between the institutions of the colonizing nation and those of the colonized society Moreover he shows how institutions forged under colonialism bring countries to relative levels of development that may prove remarkably enduring in the postcolonial period The argument is sure to stir discussion and debate both among experts on Spanish America who believe that development is not tightly bound by the colonial past and among scholars of colonialism who suggest that the institutional identity of the colonizing nation is of little consequence **From Chattel Slaves to**

**Wage Slaves** Mary Turner, 1995 a very welcome addition to the literature on labour history *Labour History Review* This is a valuable collection of essays which gives fresh perspectives and interesting empirical data on the modes of labor bargaining by New World slaves and on the transition from chattel to wage slavery *New West Indian Guide* *Nieuwe West Indische Gids* Of uniformly high quality these essays underline the fluidity and dynamic of bargaining processes the diversity of political and economic contexts and the importance of external factors will provoke discussion on parallels between capitalist agriculture and capitalist industrial organization and will fuel debates on slave as proletarian and on the notions of peasant breach and the two economies *Choice* These essays provide important answers to questions relating to levels of slave subsistence the material conditions of the enslaved the control mechanisms of owners the contexts which generated labor bargaining on the part of the enslaved and the reasons owners employers acquiesced to laborers demands rather than rely on the coercive power of the whip *Labor History* The contributors deserve commendation for making salutary advances towards developing an integrated analysis of the history of labouring people in slavery and freedom that transcends the particularities

Between Resistance and Adaptation Caroline Williams,2005-01-01 Between Resistance and Adaptation explores the Spanish colonization of the Chocó a lowland region of present day Colombia that was crucial to Spanish interests in Latin America because of its large gold deposits Controlling the gold required the Spanish to subdue the native population of the Chocó the author considers the strategies used by the colonizers as well as the subtle pragmatic responses of indigenous peoples This book will interest anyone studying the colonial history of Latin America and the struggle of indigenous peoples against colonial powers

*Bound Lives* Rachel Sarah O'Toole,2012-04-15 Bound Lives chronicles the lived experience of race relations in northern coastal Peru during the colonial era Rachel Sarah O Toole examines how Andeans and Africans negotiated and employed *casta* and in doing so constructed these racial categories Royal and viceregal authorities separated Indians from blacks by defining each to specific labor demands *Casta* categories did the work of race yet not all *casta* categories did the same type of work since Andeans Africans and their descendants were bound by their locations within colonialism and slavery The secular colonial legal system clearly favored indigenous populations Andeans were afforded greater protections as threatened native vassals Despite this in the 1640s during the rise of sugar production Andeans were driven from their assigned colonial towns and communal property by a land privatization program Andeans did not disappear however they worked as artisans muleteers and laborers for hire By the late seventeenth and early eighteenth centuries Andeans employed

their legal status as Indians to defend their prerogatives to political representation that included the policing of Africans As rural slaves Africans often found themselves outside the bounds of secular law and subject to the judgments of local slaveholding authorities Africans therefore developed a rhetoric of valuation within the market and claimed new kinships to protect themselves in disputes with their captors and in slave trading negotiations Africans countered slaveholders claims on their time overt supervision of their labor and control of their rest moments by invoking customary practices Bound Lives offers an entirely new perspective on racial identities in colonial Peru It highlights the tenuous interactions of colonial authorities indigenous communities and enslaved populations and shows how the interplay between colonial law and daily practice shaped the nature of colonialism and slavery
