Excerpt from Soap Bubbles Their Colours and the Forces Which Mould Them Being the Substance of Many Lectures Delivered to Juvenile and Popular Audiences With the Addition of Several New and Original Sections I would ask those readers who have grown up and who may be disposed to find fault with this book on the ground that in so many points it is incomplete or that much is so elementary or well known to remember that the lectures were meant for juveniles and for juveniles only These latter I would urge to do their best to repeat the experiments described They will find that in many cases no apparatus beyond a few pieces of glass or india rubber pipe or other simple things easily obtained are required If they will take this trouble they will find themselves well repaid and if instead of being discouraged by a few failures they will persevere with the best means at their disposal they will soon find more to interest them in experiments in which they only succeed after a little trouble than in those which go all right at once Some are so simple that no help can be wanted while some will probably be too difficult even with assistance but to encourage those who wish to see for themselves the experiments that I have described I have given such hints at the end of the book as I thought would be most useful I have freely made use of the published work of many distinguished men among whom I may mention Savart Plateau Clerk Maxwell Sir William Thomson Ix rd Rayleigh Mr Chichester Bell and Prof Rucker The experiments have mostly been described by them some have been taken from journals and I have devised or arranged a few I am also indebted to Prof Rucker for the apparatus illustrated in Figs 23 24 26 27 30 31 and 32 About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
