

INTERACTIONIST PERSPECTIVE

The interactionist perspective sees social phenomena as a product of the interaction between an individual and their immediate situation.

DEFINITION

Herbert Blumer defined the interactionist perspective as a framework that "emphasizes the subjective meaning of social action as the basis for understanding social life" (1969). The "subjective meanings" emerge through interaction social.

EXAMPLE

Looking Glass Self: Cooley's "looking-glass self" concept explains how our sense of self is intimately linked to our interactions with others.

We are always connected and shaped by 'others'. Just like a mirror's reflection, our selfhood depends on the perceived responses of others: "each to each a looking glass reflects the other that doth pass."

Jesus and the Stigmatized Elia Shabani Mligo, 2011-08-01 Biblical scholars often read the Bible with their own interpretive interests in mind without associating the Bible with the concerns of laypeople This largely undermines the contributions laypeople can offer from reading the Bible in their own contexts and from their own life experiences Moreover such exclusively scholarly reading conceals the role of biblical texts in dealing with current social problems such as HIV AIDS related stigmatization Hence the lack of lay participation in the process of Bible reading makes the Bible less visible in various common life situations In this volume Elia Shabani Mligo draws on his fieldwork among people living with HIV AIDS PLWHA in Tanzania selects stigmatization as his perspective and chooses participant centered contextual Bible study as his method to argue that the reading of texts from the Gospel of John by PLWHA given their lived experiences of stigmatization empowers them to reject stigmatization as unjust Mligo's study shows that Christian PLWHA reject stigmatization because it does not comply with the attitude of Jesus toward stigmatized groups in his own time The theology emerging from the readings by stigmatized PLWHA through their evaluation of Jesus attitudes and acts toward stigmatized people in the texts challenges churches in their obligatory mission as disciples of Jesus Churches are challenged to reconsider healing hospitality and caring prophetic voices against stigmatization and the way they teach about HIV and AIDS in relation to sexuality Churches must revisit their practices toward stigmatized groups and listen to their voices Mligo argues that participant centered Bible study methods similar to the one used in this book whereby stigmatized people are the primary interlocutors in the process can be useful tools in listening to the voices of stigmatized groups
