Social Security Helen P. Rogers, 1985 **A Series of New and Modest Proposals: Political Satire for the 21st Century** Gregory Jones, **Social Security Amendments of 1971** United States. Congress. Senate. Committee on Finance, 1972 *The Candidate* Margaret Bohannon-Kaplan, 2013-02 This is a story about the pursuit of freedom and individual expression Freedom requires risk responsibility and a peculiar kind of human energy That energy has been stifled and we have become dependent and highly regulated citizens enslaved by the unfunded liabilities and huge debt burdens caused by the expansion of government at all levels But there is a solution The Candidate begins in 1996 when two teachers and eleven representatives of their respective high schools illustrate another more efficient way to use the resources in their communities In 2011 it picks up again when ten members of the original group come together and persuade one of their colleagues to run for political office They have heated discussions as they pursue their grandiose plans Rumors fly and romances are suspected and they are both frustrated and gleeful however through it all they stick together bound by their shared vision of what it should mean to be an American *United States Congressional Serial Set, Serial No. 14919, House Reports Nos. 567-598* , *Congressional Record* United States. Congress, 2001 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 **United We Serve** E. J. Dionne, Kayla Meltzer Drogosz, Robert E. Litan, 2004-05-26 Public rhetoric in the United States has always laid heavy stress on the obligations of citizenship Bill Clinton praised the idea of service and so does George W Bush Since September 11 the debate over service and the obligations of citizenship has become even more urgent United We Serve gathers many diverse voices on civic life and civic obligation to explore the idea of national service as it relates to citizenship Activists and practitioners discuss the rise of the service movement its practical successes and its challenges Policymakers and political leaders explore the links between service and problem solving Political scientists and philosophers connect the service debate to larger concerns about democratic participation The book also includes a lively debate over whether the U S should reconsider compulsory national service The discussion about service is a debate over how Americans think of themselves and their nation and about what the new patriotism means Contributors include Daniel Blumenthal Harry Boyte John M Bridgeland Louis Caldera Bruce Chapman former President Bill Clinton Charles Cobb Jr Jane Eisner Jean Bethke Elshtain William Galston Stephen Goldsmith Robert D Haas Stephen Hess Peter D Hart and Mario A Brossard Alan Khazei John Lehman Leslie Lenkowsky Paul C Light Michael Lind Tod Lindberg Will Marshall and Marc Magee Senator John McCain Charles Moskos Robert Putnam Representative Charles Rangel Alice M Rivlin Michael Schudson Mark Shields Carmen Sirianni Theda Skocpol Andrew L Stern Jeff Swartz Steven Waldman Caspar

Subcommittee on Consumer Protection and Finance,1975 **The Fifth Domain** Richard A. Clarke,Robert K. Knake,2020-09-15 An urgent warning from two bestselling security experts and a gripping inside look at how governments firms and ordinary citizens can confront and contain the tyrants hackers and criminals bent on turning the digital realm into a war zone In the battle raging between offense and defense in cyberspace Clarke and Knake have some important ideas about how we can avoid cyberwar for our country prevent cybercrime against our companies and in doing so reduce resentment division and instability at home and abroad Bill Clinton There is much to fear in the dark corners of cyberspace we have entered an age in which online threats carry real world consequences But we do not have to let autocrats and criminals run amok in the digital realm We now know a great deal about how to make cyberspace far less dangerous and about how to defend our security economy democracy and privacy from cyber attack Our guides to the fifth domain the Pentagon s term for cyberspace are two of America s top cybersecurity experts seasoned practitioners who are as familiar with the White House Situation Room as they are with Fortune 500 boardrooms Richard A Clarke and Robert K Knake offer a vivid engrossing tour of the often unfamiliar terrain of cyberspace introducing us to the scientists executives and public servants who have learned through hard experience how government agencies and private firms can fend off cyber threats With a focus on solutions over scaremongering and backed by decades of high level experience in the White House and the private sector *The Fifth Domain* delivers a riveting agenda setting insider look at what works in the struggle to avoid cyberwar *The Pitfalls of a Minimum Wage Increase* United States. Congress. House. Committee on Government Reform and Oversight. Subcommittee on National Economic Growth, Natural Resources, and Regulatory Affairs,1997 *No Excuses* Robert Shrum,2007-06-05 He was named by *The Atlantic Monthly* as the most sought after strategist in the Democratic party He was targeted by *National Review* as the Democratic Party s poet goon From his unique perspective Robert Shrum gives us an epic and personal story of the struggle for power in America during the past four decades With wit and humor rare candor and a wealth of detail he vividly recounts the real personalities and real forces that shaped the outcome of the closest and most important elections of our time We are there with Shrum in the back rooms on the planes and in the motorcades with Ted Kennedy Al Gore John Kerry John Edwards and Bill and Hillary Clinton Shrum reveals the manipulations and limitations of old and new forms of political persuasion from the historic and sometimes controversial speeches he wrote to the negative ads he created for national and statewide candidates from prepping presidential nominees for critical debates to the deployment of the new political weapon

the Internet He lifts the curtain on decisive moments Did John Kerry and John Edwards actually believe in the Iraq war they voted for What was the real reason the Kerry campaign didn't respond faster to the Swift Boat attacks Why didn't Al Gore let Bill Clinton campaign all out in 2000 How did Clinton get through the first perilous week of the Lewinsky scandal This is a provocative journey through recent history George McGovern's antiwar campaign of 1972 the improbable rise of Jimmy Carter Senate campaigns that made historic breakthroughs and shaped the presidential contests of the future the gifts that made Bill Clinton a great politician and the circumstances and calculations that kept him from being a great president As strategist adviser and often friend to the leaders he enlisted with Shrum shows them as they are with their strengths and human weaknesses as well as his own Assailed as a populist who pushed the Democratic Party in a phrase he coined to stand for the people not the powerful Shrum argues that unlike Republicans from Reagan on Democrats fall short politically or in office when they trim their convictions and walk away from fundamental issues like universal health coverage This is one of the most fascinating books ever written about the victories and defeats the causes and candidates the flawed heroes that drive the high drama of American politics Taking a Stand on Poverty Helen P. Alternatives Helen P. Rogers, 1992 Law in Theory and History Maksymilian Del Mar, Michael Lobban, 2016-11-17 This collection of original essays brings together leading legal historians and theorists to explore the oft neglected but important relationship between these two disciplines Legal historians have often been sceptical of theory The methodology which informs their own work is often said to be an empirical one of gathering information from the archives and presenting it in a narrative form The narrative produced by history is often said to be provisional insofar as further research in the archives might falsify present understandings and demand revisions On the other side legal theorists are often dismissive of historical works History itself seems to many theorists not to offer any jurisprudential insights of use for their projects at best history is a repository of data and examples which may be drawn on by the theorist for her own purposes The aim of this collection is to invite participants from both sides to ask what lessons legal history can bring to legal theory and what legal theory can bring to history What is the theorist to do with the empirical data generated by archival research What theories should drive the historical enterprise and what wider lessons can be learned from it This collection brings together a number of major theorists and legal historians to debate these ideas *Hearings, Reports and Prints of the Senate Committee on Labor and Human Resources* United States.
