The Critics Alchemy:

The Critic's Alchemy Ruth Zabriskie Temple, 1962 **Confessions of the Critics** H. Aram Veaser, 2014-05-01

The *Confessions of the Critics* shatters a certain silence. Autobiographical criticism has until now skated relatively free from the challenges that usually assail a new literary critical method. It has had this immunity from critique largely because feminists and third world liberation fighters such as Alice Walker, Adrienne Rich, and Jane Gallop ushered it to the North American academic stage. Other women and men including Rigoberta Menchu, Nawal al Sadawi, Mahasweta Devi, and Malcolm X wrote in the tradition and genre of testimonio. These and other unimpeachably militant backgrounds gave confessional criticism a certain cache among the largely liberal community of literary scholars. We have hesitated to express misgivings about a form that seemed intrinsically tied to the most vital, powerful strivings. Telling stories about one's own past is probably our culture's richest way of characterizing the effects of social injustice and developing what it takes to resist various kinds of victimage, writes contributor Charles Altieri. *Confessions of the Critics* provides a revealing look into the thoughts and experiences of some of the most influential and important critics of the 20th century. The writers included avoid pretention and gross self-misrepresentation, giving way to raw, sometimes embarrassing, always wholly believable emotion. Describing cumulative literary shocks and episodes of self-recognition, contributors offer insights to their ruling passions and works. Powerful sensations, emotions, recognitions, and revelations make up the heart of *Confessions of the Critics*. It is a book that none will put aside or easily forget.

Contributors: Charles Altieri, William Andrews, Michael F. Berube, Timothy Brennan, Gillian Brown, Cathy Davidson, Elizabeth Fox-Genovese, Diane Freedman, Marjorie Garber, Gerald Graff, Stephen J. Greenblatt, Michael Hill, Marianne Hirsch, Alice Yeager, Kaplan, Amitava Kumar, Candace Lang, Louis Menand, Judith Lowder Newton, Linda Orr, Vincent Pecora, David Simpson, Gayatri Chakravorty Spivak, Madelon Sprengnether, Jane Tompkins, Marianna Torgovnick, H. Aram Veaser, Jeffrey Williams, Elizabeth Young Bruehl.

The Critic's Alchemy Ruth Z. Temple, 1953 "*King of Critics*" Dorothy Richardson Jones, 1992

An early advocate of art for art's sake, George Saintsbury became for the English reader of the 1880s the interpreter of all French literature and later a pioneer in comparative literature and historian of English prosody and prose rhythm. His early years at Oxford shaped his literary attitudes for life. After a decade as a schoolmaster, he was for many years a leading London journalist, then professor of English at the University of Edinburgh. Eighteen more years saw a steady flow of prefaces and essays and a history of the French novel. In *King of Critics*, one meets a man of myriad literary tastes who wished to know the whole history of European literature and share it all with readers. He loved equally the purest lyrics of Shelley and the complexity of Donne, the richness of Rabelais, the panorama of Scott and medieval romance, and the profound depths of irony in Swift and Ecclesiastes, and always urged upon the reader the joys of minor writers. *King of Critics* is a fascinating study, not only of Saintsbury but of the literary world of Victorian-Edwardian England. It will appeal to a wide variety of readers, particularly those interested in biography and literary history and criticism.

Max Ernst and Alchemy M. E. Warlick, 2013-05-01 Surrealist artist Max Ernst defined collage as the alchemy of the visual image Students of his work have often dismissed this comment as simply a metaphor for the transformative power of using found images in a new context Taking a wholly different perspective on Ernst and alchemy however M E Warlick persuasively demonstrates that the artist had a profound and abiding interest in alchemical philosophy and often used alchemical symbolism in works created throughout his career A revival of interest in alchemy swept the artistic psychoanalytic historical and scientific circles of the late nineteenth and early twentieth centuries and Warlick sets Ernst's work squarely within this movement Looking at both his art many of the works she discusses are reproduced in the book and his writings she reveals how thoroughly alchemical philosophy and symbolism pervade his early Dadaist experiments his foundational work in surrealism and his many collages and paintings of women and landscapes whose images exemplify the alchemical fusing of opposites This pioneering research adds an essential key to understanding the multilayered complexity of Ernst's works as it affirms his standing as one of Germany's most significant artists of the twentieth century

Chaucer's Poetic Alchemy Sheila Fisher, 2019-10-16 Originally published in 1988 The economic changes and the growth of commerce in fourteenth century England precipitated both social changes and a preoccupation with material wealth This book examines Chaucer's treatment of economic and ethical value in *The Canterbury Tales* within the context of contemporary economic and social change and in relation to the scholastic economic theory that attempted to formulate ethical standards for commercial conduct The importance of value and its determination and transformation is evident from the two enterprises that Chaucer defines as the motivating principles for his poem The pilgrimage to St Thomas's shrine should effect a transformation of their spiritual value The story telling competition that produces the tales themselves is established to judge the value of the pilgrims' literary productions In the Middle Ages economic value and ethical value were not perceived as unrelated phenomena Chaucer's concern with the interrelationship of material and moral value is apparent in the number of pilgrims who are interested in material value at the obvious expense of moral value This book examines this along with a discussion of money's growing importance in the late Middle Ages and the determination of its value

Victorian Literary Critics Harold Orel, 1984-06-07 **Alchemist of the Avant-Garde** John F. Moffitt, 2012-02-01 Acknowledged as the Artist of the Century Marcel Duchamp 1887-1968 left a legacy that dominates the art world to this day Inventing the ironically d'gag attitude of ready-made art making Duchamp heralded the postmodern era and replaced Pablo Picasso as the role model for avant-garde artists John F. Moffitt challenges commonly accepted interpretations of Duchamp's art and persona by showing that his mature art after 1910 is largely drawn from the influence of the occult traditions Moffitt demonstrates that the key to understanding the cryptic meaning of Duchamp's diverse
