

Ontology and Data

- Philosophy: Ontologies are models of what exists in the world (kinds of things, relations, events, properties, etc.)
 - Information systems: a schema for info. or data
 - KR languages: model of classes & relations/properties & associated axioms, e.g., subPropertyOf is transitive
- Data is information about individual instances expressed with terms in the ontology
 - Some instances might be considered part of the ontology (e.g., God, George Washington, Baltimore)

The Data Of Philosophy

Michael Agerbo Mørch

The Data Of Philosophy:

Metaphilosophy Nicholas Rescher, 2014-10-23 The definitive mission of metaphilosophy is to facilitate an understanding of how philosophy works the aim of the enterprise the instrumental and procedural resources for its work and the prospect of its success Nicholas Rescher unites two facets of metaphilosophy to show that historical perspective and forward thinking normative or systematic metaphilosophy cannot be independent of one another The descriptive or historical metaphilosophy provides an account of what has been thought regarding the conduct of philosophical inquiry and the prescriptive or normative metaphilosophy which deliberates about what is to be thought regarding the conduct of philosophizing Rescher argues that metaphilosophy forms a part of philosophy itself This is a unique feature of the discipline since the philosophy of biology is not a part of biology and the philosophy of mathematics is not a part of mathematics Ultimately the salient features of philosophizing in general including the inherently controversial and discordant nature of philosophical doctrines are also bound to afflict metaphilosophy Thus only by a careful analysis of the central issues can a plausible view of the enterprise be developed Metaphilosophy Philosophy in Philosophical Perspective challenges the static compartmentalized view of metaphilosophy providing insight for scholars and students of all areas of philosophy

Philosophy Examined Nicholas Rescher, 2021-10-25 The book presents a detailed examination of many key aspects of philosophizing ranging from the mission of philosophy its method its dialectic and its epistemology It conveys to the reader student and scholar alike a clear account of the aspirations and potential of the discipline Readers will come away with a clearer understanding of the promise and challenges of philosophizing

Studies in Metaphilosophy Nicholas Rescher, 2013-05-02 While philosophers from Plato to Kant and beyond have discussed the mission and methodology of philosophy this area of deliberation has only recently been acknowledged as a distinctive branch of philosophy as such duly entitled metaphilosophy There are as yet very few books on the subject so that the present volume joins a rather select group Professor Rescher has published in the field for some thirty years and this book gathers together a representative sampling of his contributions Taken together these pieces convey an instructive overview of the field as well as vividly conveying their author's take on the key issues that constitute its problem domain

The Data of Philosophy Herbert Spencer, 2005-12-01 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world's literature in affordable high quality modern editions that are true to the original work

The Philosophy and Practice of Medicine and Bioethics Barbara Maier, Warren A. Shibles, 2010-11-03 This book challenges the unchallenged methods in medicine such as evidence based medicine which claim to be but often are not scientific It completes medical care by adding the comprehensive humanistic perspectives and philosophy of medicine No specific or absolute recommendations are given regarding medical treatment moral approaches or legal advice Given rather is

discussion about each issue involved and the strongest arguments indicated Each argument is subject to further critical analysis This is the same position as with any philosophical medical or scientific view The argument that decision making in medicine is inadequate unless grounded on a philosophy of medicine is not meant to include all of philosophy and every philosopher On the contrary it includes only sound practical and humanistic philosophy and philosophers who are creative and critical thinkers and who have concerned themselves with the topics relevant to medicine These would be those philosophers who engage in practical philosophy such as the pragmatists humanists naturalists and ordinary language philosophers A new definition of our own philosophy of life emerges and it is necessary to have one Good lifestyle no longer means just abstaining from cigarettes alcohol and getting exercise It also means living a holistic life which includes all of one s thinking personality and actions This book also includes new ways of thinking In this regard the Metaphorical Method is explained used and exemplified in depth for example in the chapters on care egoism and altruism letting die etc The Principles of Ethics: The data of ethics; The inductions of ethics; The ethics of individual life Herbert Spencer,1893

Finding Philosophy in Social Science Mario Bunge,Professor Mario Bunge,1996-01-01 *The Strife of Systems* Nicholas Rescher,2010-11-23 The disagreement of philosophers is notorious In this book Rescher develops a theory that accounts for this conflict and shows how the basis for philosophical disagreement roots in divergent cognitive values values regarding matters such as importance centrality and priority In light of this analysis Rescher maintains that despite this inevitable discord a skeptical or indifferentist reaction to traditional philosophy is not warranted seeing that genuine value conflicts are at issue He argues that philosophy is an important and worthwhile enterprise notwithstanding its inability to achieve rationally constrained consensus on the issues Given the nature of the enterprise consensus is not a realistic goal and failure to achieve it is not a defect Accordingly Rescher argues against the revisionist views proposed by Richard Rorty and Robert Nozick His discussions are devoted to providing a clear view of why philosophical problems arise and how philosophers address them *Axiomatic Philosophy* Pritam Sen,1996 Scientific Method In Philosophy Scientific Method Summary Of Axiomatic Philosophies Western Philosophies Plato Aristotle Kant Russell Eastern Philosophies Samkara Bhagavadgita Confucius Lao Tzu New Axioms New Aristotelian Philosophy A Rational Religious Philosophy References Index *Platonism and Positivism in Psychology* Mortimer Jerome Adler,1994-12-01 Psychology is a field of many paradoxes Since its earliest beginnings as a natural science psychologists have been in search of their proper subject matter Today they are in less agreement than ever In this classic text originally published as What Man Has Made of Man Mortimer J Adler goes to the root of the problem He shows that psychology is simultaneously a particular social science and a branch of philosophical knowledge These two parts must be distinguished from yet related to each other if sound philosophical analysis is to replace bad philosophizing which scientific psychologists too often use to describe their research findings Adler also examines the scientific contribution of psychoanalysis by distinguishing it from Freud s meta psychology which he shows to be an

inadequate statement of the traditional or classical philosophical positions Adler believes that psychology is crucially important in modern culture It is theoretically important because it is central to the errors of modern philosophy It has practical significance because economic moral and political doctrines are determined by the view that man reviews his own nature To understand the history of modern times and to correct its normative deviations we must according to Adler consider what man has made of man This engaging analytical study will be a valuable tool for psychologists psychoanalysts philosophers and sociologists

The Christian Science Journal ,1908 **The Index ...** Benjamin Franklin Underwood,1884 Systematic Theology as a Rationally Justified Public Discourse about God Michael Agerbo Mørch,2023-01-23 For centuries it has been discussed whether systematic theology is a scientific discipline But it is not obvious what is meant by either systematic theology or scientific discipline Michael Agerbo Mørch presents an understanding of systematic theology as a tripartite discipline and science as a rationally justified public discourse about a given topic Systematic theology is shown to meet the most generally accepted criteria for scientific work since its theories can be tested and even falsified in an intersubjective setting This can be done by the most proper tool we have for assessing and comparing scientific theories which is coherence theory Therefore even though systematic theology is a distinct and normative discipline it is not compromising for its theories because it can present its theses in a transparent way that can be checked and criticized by peers and compared to relevant alternatives As such the book shows that systematic theology is a scientifically strong discourse that meets accepted criteria to the same degree as other disciplines *Fundamental of Research Methodology* Mr. Rohit Manglik,2024-05-11 EduGorilla Publication is a trusted name in the education sector committed to empowering learners with high quality study materials and resources Specializing in competitive exams and academic support EduGorilla provides comprehensive and well structured content tailored to meet the needs of students across various streams and levels School & Society James McKeen Cattell,Will Carson Ryan,Raymond Walters,1929 **Vocational Education in Distributive Occupations** United States.
