**Capital Punishment** C. Cliff,2003 The issue of capital punishment is a continually debated issue because it calls into question the values and direction of society How is a civilisation supposed to handle lawbreakers Are some crimes so heinous and some people so dangerous that the death penalty is the only appropriate response The United States Constitution prohibits cruel and unusual punishment but opinions on whether that includes capital punishment are vehement on both sides Many states have some form of death penalty and public opinion seems to indicate support of it in principle However many firestorms have erupted recently over the application of the penalty including the topics of its use on minors and those with mental disabilities There are also questions raised about how much of a factor race plays in a capital sentence Internationally several countries have foresworn the death penalty with certain countries in Europe and the Americas refusing to extradite criminal suspects including suspected terrorists to the US if capital punishment is a possible sentence With such politically flammable and ethically challenging issues hanging over it capital punishment is a vitally important issue to understand To help facilitate that study this book assembles a carefully selected and substantial listing of literature focussing on the death penalty Anyone researching this area of criminal justice will find this book an important tool as it offers easy access to the most relevant works about capital punishment Following the bibliography further access is provided with author title and subject indexes

**Essays on the Civil War and Reconstruction and Related Topics** William Archibald Dunning,1897

The Death Penalty Roger Hood,Carolyn Hoyle,2008 This new edition of a classic study assesses the global status of capital punishment As in previous editions this work draws on Roger Hood s experiences as consultant to the United Nations

for the Secretary General's five yearly surveys of capital punishment as well as the latest literature from non governmental organizations and academic experts This edition examines significant developments around the world including the Chinese plan for the People's Supreme Court to review all death sentences and the abolition in the USA of the death penalty for offenders who committed murder while under the age of 18 Recent legal challenges to lethal injection as a form of execution are also examined This edition also includes an additional chapter on the role and influence of victims families and victim interest movements This volume shows how despite a number of set backs the movement to abolish the death penalty has continued to gather pace that international organizations and human rights treaties continue to put pressure on retentionist countries that further developments have been made in securing protection for those facing the death penalty in retentionist countries and that despite such advances in some parts of the world the range of crimes subject to the death penalty remains wide and the number of executions considerable This work engages with the latest debates on the realities of capital punishment with claims that the death penalty is a unique deterrent to murder and other serious crimes and contains expanded coverage of arguments about the role of public opinion in the debate on capital punishment

President Rodrigo Duterte and the War on Drugs William N. Holden, 2021-10-01 Since his election in 2016 Philippine president Rodrigo Duterte has directed a brutal anti drug campaign rife with extrajudicial killings Interpreting the war on drugs through the conceptual frameworks of penal populism noble cause corruption revanchism and state terrorism William N Holden argues the war on drugs has failed to achieve its purpose follows trends of authoritarian populism and overlooks a more pressing social issue the vulnerability of the Philippines to climate change

### **Post-War Protection of Human Rights in Bosnia and Herzegovina**

Gregory Gisvold, Michael O'Flaherty, 2021-11-01 The war in Bosnia and Herzegovina was characterized by human rights abuses on a scale not seen in Europe since the Second World War It is not then surprising that the Dayton Agreement together with related texts and agreements lays out the most ambitious human rights protection regime ever included within an international peace settlement The peace agreement imports myriad substantive guarantees for the protection of every category of human rights including some through a novel application of the European Convention on Human Rights The provisions are accompanied by a highly complex system for both monitoring and enforcement of their implementation These enforcement procedures contain temporary elements such as international field operations and an array of tribunals and institutions intended to be permanent The present volume is a contribution to the process of interpreting and assessing the post Dayton human rights regime in Bosnia and Herzegovina The analysis of the contributing human rights scholars and practitioners is located within the contexts of the immediate reality and needs of Bosnia and Herzegovina and the systemic significance of the peace agreement for other post conflict and complex emergency situations worldwide

**The War Within - Between Good and Evil** Bhimeswara Challa, The human has always prided himself as an exceptional moral species but has always been haunted by two questions Why am I not good when I want to be why do I do bad when I don't want to This is at the heart of what scriptures and sages have long alluded to as the eternal internal struggle between good and evil that wages in the human consciousness The book posits that much of our confusion and angst stems from our inability to recognize the ramifications of this war between two sides of our own self It is because we are ignoring this war between two sides of our own self It is because we are ignoring this war that we are losing all other wars of the world That ignorance is the primary source of all the horrors malevolence and violence that fill us with so much dread But a favorable outcome is possible only if the forces of goodness are aided to get an upper hand consistently and that calls for two cathartic changes consciousness change by inducing a turn from the mind to the heart and contextual change by radically reconstructing the roles of morality money and mortality in our everyday lives The book offers a menu of insights and options we all can use to tilt the scales in the war waging inside each of us

### **War No More: The Case for Abolition**

David Swanson, 2013-09-29 This book presents what numerous reviewers have called the best existing argument for the abolition of war demonstrating that war can be ended war should be ended war is not ending on its own and that we must end war

*Freedom Church of the Poor* Colleen Wessel-McCoy, 2021-08-19 When King looked over into the promised land and tried to discern how we would get there he called the poor to lead the way The Poor People's Campaign was part of a political strategy for building a movement expansive enough to tackle the enmeshed evils of racism poverty and war In

Freedom Church of the Poor Martin Luther King Jr s Poor People s Campaign Colleen Wessel McCoy roots King s political vision solidly in his theological ethics and traces the spirit of the campaign in the community and religious leaders who are responding to the devastating crises of inequality today *El-Hi Textbooks & Serials in Print, 2005* ,2005 **Brassey's Naval Annual** ,1953 The War Against The Poor Herbert J. Gans,1995 For most of its history America has been fighting a vicious war that cannot be won a war against its poor Herbert J Gans argues that by withholding the opportunity for decent jobs and incomes we are also killing the spirit of an already large portion of the population And he warns as more well paying and secure jobs disappear from the American economy a growing number of workers will join its ranks The book ends with an imaginative set of economic policy ideas for a twenty first century America that may never again be able to supply enough decent jobs for everyone The Seven Years' War Mark Danley,Patrick Speelman,2012-11-09 In The Seven Years War Global Views Mark H Danley Patrick J Speelman and sixteen other contributors reach beyond traditional approaches to the conflict Chapters cover previously understudied aspects of the war in Europe Asia Africa and the Western Hemisphere *Atheism, Morality, and Meaning* Michael Martin,2009-12-02 Despite the pluralism of contemporary American culture the Judaeo Christian legacy still has a great deal of influence on the popular imagination Thus it is not surprising that in this context atheism has a slightly scandalous ring and unbelief is often associated with lack of morality and a meaningless existence Distinguished philosopher and committed atheist Michael Martin sets out to refute this notion in this thorough defense of atheism as a both moral and meaningful philosophy of life Martin shows not only that objective morality and a meaningful life are possible without belief in God but that the predominantly Christian world view of American society is seriously flawed as the basis of morality and meaning Divided into four parts this cogent and tightly argued treatise begins with well known criticisms of nonreligious ethics and then develops an atheistic meta ethics In Part 2 Martin criticizes the Christian foundation of ethics specifically the Divine Command Theory and the idea of imitating the life of Jesus as the basis of Christian morality Part 3 demonstrates that life can be meaningful in the absence of religious belief Part 4 criticizes the theistic point of view in general terms as well as the specific Christian doctrines of the Atonement Salvation and the Resurrection This highly informed and sophisticated defense of atheism is a stimulating challenge to religious believers and a serious contribution to ethical theory Comparative Capital Punishment Carol S. Steiker,Jordan M. Steiker, Comparative Capital Punishment offers a set of in depth critical and comparative contributions addressing death practices around the world Despite the dramatic decline of the death penalty in the last half of the twentieth century capital punishment remains in force in a substantial number of countries around the globe This research handbook explores both the forces behind the stunning recent rejection of the death penalty as well as the changing shape of capital practices where it is retained The expert contributors address the social political economic and cultural influences on both retention and abolition of the death penalty and consider the distinctive possibilities and pathways to worldwide abolition **The Origins of War Prevention**

Martin Ceadel,1996 This original study aims to provide a contribution to international relations and British political history Its analysis of the birth of the British peace movement includes a historiography of British politics and many theories about international relations      *Feasting on the Gospels--Matthew, Volume 2* Cynthia A.
