Chattampi Swami: An Intellectual Biography R. Raman Nair, L. Sulochana Devi, 2010 Ca ampi Swami 1853 1924 Hindu sage and social reformer from Kerala India Women, Power, and Property Rachel E Brulé, 2020-10-22 Quotas for women in government have swept the globe Yet we know little about their capacity to upend entrenched social political and economic hierarchies Women Power and Property explores this question within the context of India the world s largest democracy Brul employs a research design that maximizes causal inference alongside extensive field research to explain the relationship between political representation backlash and economic empowerment Her findings show that women in government gatekeepers catalyze access to fundamental economic rights to property Women in politics have the power to support constituent rights at critical junctures such as marriage negotiations when they can strike integrative solutions to intrahousehold bargaining Yet there is a paradox quotas are essential for enforcement of rights but they generate backlash against women who gain rights without bargaining leverage In this groundbreaking study Brul shows how well designed quotas can operate as a crucial tool to foster equality and benefit the women they are meant to empower Development and Gender Capital in India Shoba Arun, 2017-09-06 The Indian state of Kerala has invoked much attention within development and gender debates specifically in relation to its female capital an outcome of interrelated historical cultural and social practices On the one hand Kerala has been romanticised with its citizenry particularly women being free of social divisions and uplifted through educational well being On the other hand its realism is stark particularly in the light of recent social changes Using a Bourdieusian frame of analysis Development and Gender Capital in India explores the forces of globalisation and how they are embedded within power structures Through narratives of women s lived experiences in the private and public domains it highlights the anomie of gender through complexities and contradictions vis vis processes of modernity development and globalisation By demonstrating the limits placed upon gender capital by structures of patriarchy and domination it argues that discussions about the empowered Malayalee women should move from a mere politics of rhetoric and representation to a more embedded politics of transformation meaningfully taking into account women s changing roles and identities This book will be of interest to scholars and students of Development Studies Gender Studies Anthropology and Sociology *Education and Social Mobility* P.T. Thomas, This book focuses on the provision of basic social services in particular access to education as the central building blocks of any human development strategy and it also signifies a substantial contribution towards the central role of education in social mobility In examining the impact of educational development of any society or group the questions that the proponents of egalitarian approach ask are Who benefits Who loses What is the resulting socio economic status of the people Although gender inequality in education is not so prominent in Kerala the difference between communities and classes is one of the critical aspects of this broader

phenomenon of disparity in Kerala Recent studies regarding poverty and inequality show that although poverty is declining inequality between socio economic groups is increasing in Kerala In this scenario the educational backwardness of the socio economic groups in Kerala is a matter of particular concern to the policy makers and this book hopes to provide some insight into this subject It will be highly useful to policy makers administrators and academicians
