The Development Of Chinese Agriculture 1950 1959:

The Development of Chinese Agriculture, 1950-1959 Peter Schran, 1969 **The Development of Chinese Agriculture, 1950-1959** Peter Schran, 1969 Socialist transformation of peasant agriculture Peasant population and employment Peasant production and productivity Peasant income and expenditure Socialist transformation and income redistribution Production and distribution and state farms *The Chinese Communist Party In Power, 1949-1976* Jacques Guillerma, 2019-07-16 This book traces the history of the Chinese Communist Party's behavior toward itself and the way it has created and developed the regime on the state of affairs at home and abroad and on a compelling ideology dominated by the giant like personality of Mao Tse tung *The Economy of Communist China, 1949-1969* Chu-yuan Cheng, 2020-08-06 Economic development in mainland China during the first two decades of Communist control provides a typical example for the difficult task to transform a vast underdeveloped agrarian economy into a modern industrial one In the first half of this period a series of massive transformations of social and economic institutions was accompanied by a drafted industrialization program the result was an impressive speed up in economic growth The second decade witnessed an economic crisis 1960 62 and a political upheaval 1966 68 These disruptions marred the economic performance over the period as a whole Consequently the long term growth rate appears to have been only moderate The Economy of Communist China reviews selected aspects of the economy After examining the development strategy it analyzes the quantitative trends and the structural changes The book goes on to analyze the key factors contributing to the earlier growth and the elements responsible for the later disruption and finally assesses the impact of the Cultural Revolution on the Chinese economy and the prospects of the current Third Five Year Plan The text includes a bibliography of selected materials on Chinese economic development **China's Road to Development** N. Maxwell, 2014-06-28 China's Road to Development is a collection of papers by specialists on aspects of China's economy and society It covers a wide range of subjects from development strategy to the specifics of small scale energy exploitation from the role of women in China's development to the greening of China through great efforts in afforestation Commenting on the limited issue original edition a special issue of the journal World Development from which this volume has been greatly expanded Dr Knowles President of the Rockefeller Foundation wrote A magnificent collection of essays by very astute and experienced observers covering everything from population control health economic planning trade city planning and rural development to Chinese aid in building the Tanzania Zambia railway If I could only afford two books on modern China I would get this one **A History of Chinese Civilization** Jacques Gernet, 1996-05-31 When published in 1982 this translation of Professor Jacques Gernet's masterly survey of the history and culture of China was immediately welcomed by critics and readers This revised and updated edition makes it more useful for students and for the general reader concerned with the broad sweep of China's past **The Pattern of the Chinese Past** Mark Elvin, 1973 A satisfactory comprehensive history of the social and economic development of pre modern China the largest country in the

world in terms of population and with a documentary record covering three millennia is still far from possible The present work is only an attempt to disengage the major themes that seem to be of relevance to our understanding of China today In particular this volume studies three questions Why did the Chinese Empire stay together when the Roman Empire and every other empire of antiquity of the middle ages ultimately collapsed What were the causes of the medieval revolution which made the Chinese economy after about 1100 the most advanced in the world And why did China after about 1350 fail to maintain her earlier pace of technological advance while still in many respects advancing economically The three sections of the book deal with these problems in turn but the division of a subject matter is to some extent only one of convenience These topics are so interrelated that in the last analysis none of them can be considered in isolation from the others

History of Soybeans and Soyfoods in Manchuria (1833-2022) William Shurtleff; Akiko Aoyagi, 2022-01-16 The world's most comprehensive well documented and well illustrated book on this subject With extensive subject and geographic index 177 photographs and illustrations mostly color Free of charge in digital PDF format **China in Transition** George T. Yu, 1993-07-02 An all inclusive guide to the political and social development of modern China **A Cultural History of Food in the Modern Age** Amy Bentley, 2014-05-22 In the modern age 1920 2000 vast technological innovation spurred greater concentration standardization and globalization of the food supply As advances in agricultural production in the post World War II era propelled population growth a significant portion of the population gained access to cheap industrially produced food while significant numbers remained mired in hunger and malnutrition Further as globalization allowed unprecedented access to foods from all parts of the globe it also hastened environmental degradation contributed to poor health and remained a key element in global politics economics and culture A Cultural History of Food in the Modern Age presents an overview of the period with essays on food production food systems food security safety and crises food and politics eating out professional cooking kitchens and service work family and domesticity body and soul representations of food and developments in food production and consumption globally **State and Peasant in Contemporary China** Jean C. Oi, 1991-08-12 This is a study of peasant state relations and village politics as they have evolved in response to the state's attempts to control the division of the harvest and extract the state defined surplus To provide the reader with a clearer sense of the evolution of peasant state relations over almost a forty year period and to highlight the dramatic changes that have taken place since 1978 I have divided my analysis into two parts Chapters 2 through 7 are on Maoist China and chapters 8 and 9 are on post Mao China The first part examines the state's grain policies and patterns of local politics that emerged during the highly collectivized Maoist period when the state closed free grain markets and established the system of unified purchase and sales *tonggou tongxiao* The second part describes the new methods for the production and division of the harvest after 1978 when the government decollectivized agriculture and abolished its unified procurement program

The Search for Modern China Jonathan D. Spence, 1990 This work chronicles the history of China for over four hundred

years through the spring of 1989 *Democracy, Dictatorship and Development* Georg Sørensen, 2016-07-27 Questions regarding the economic consequences of various forms of regime have puzzled development researchers for many years This book examines the theoretical debate as a starting point for in depth case studies of four countries India China Taiwan and Costa Rica The case studies are used as a basis for a number of new conclusions about the circumstances under which a specific form of regime has certain consequences for economic development The implications of these results for other third world countries democratic and authoritarian are addressed in the final chapter **Across the Himalayan Gap** Tan Chung, 1998-12 An anthology of 40 Indian authors that parades various Indian perspectives on China her civilization history society and development It is a fruition of a project launched by the Indira Gandhi National Centre for the Arts IGNCA where Sino Indian studies is a special window A scholarly work **Revival: Land Reform and Economic Development in China (1975)** Victor D Lippit, 2018-12-20 This title was first published in 1975 The question of development finance in underdeveloped countries is ultimately one of the use of the surplus how can a significant part of that share of national income above a nation s culturally determined subsistence requirements be channeled into investment In every society an elaborate system of claims on the surplus exists whether as a material expression of the fealty owed to elders and chiefs in tribal society or the rent interest and profits due the owners of capital in capitalist society Part of a revivals collection

China's Modern Economy in Historical Perspective Dwight Perkins, 1975-06-01 Why did it take China more than a century after its defeat in the first Opium War to begin systematically acquiring the fruits of modern technology To what extent did the rapid economic developments after 1949 depend on features unique to China and to Chinese history as well as on the socialist reorganization of society These are the major questions examined in this collection of papers which challenges many previously accepted generalizations about the nature and extent of advances in China s economy during the twentieth century The papers discuss the positive and negative effects of foreign imperialism on Chinese economic development the adequacy of China s financial resources for major economic initiatives the state of science and technology in late traditional China the changing structure of national product and distribution of income the cotton textile and small machine building industries as examples of pre 1949 economic bases the village market town structure of rural China the tradition of cooperative efforts in agriculture and the influence of the Yenan period on the economic thinking of China s leaders **Consumer Demand In China** Jeffrey R Taylor, 2019-04-24 This factbook provides an overview of China s consumers their incomes and the goods and services on which they spend their money It consists of a brief introduction to sources of data on Chinese consumer demand and incomes and numerous detailed statistical tables from these sources

ONE QUARTER OF HUMANITY James Z. LEE, Wang. Feng, 2009-06-30 One Quarter of Humanity presents evidence about historical and contemporary Chinese population behavior that overturns much of the received wisdom about the differences between China and the West James Lee and Wang Feng argue that there has been effective regulation of

population growth in China through a variety of practices that depressed marital fertility to levels far below European standards and through the widespread practices of infanticide and abortion. These practices and other distinctive features of the Chinese demographic and social system they argue led to a different demographic transition in China from the one that took place in the West.

Centre and Province in the People's Republic of China David S. G. Goodman, 1986-10-09 According to common misconception the Chinese political system is highly centralized. One result of this widely accepted view is that China specialists have often neglected the study of decision making as a process. Concentrating upon the neighbouring but contrasting provinces of Sichuan and Guizhou during the decade before the Cultural Revolution, this book examines the interaction between centre and province and without adopting a centralist or a pluralist viewpoint argues that a spatial dimension is of necessity part of the Chinese decision making process. Particular attention is paid to the variability of this interaction over time.

China's Economic Revolution Alexander Eckstein, 1977-05-27 Professor Eckstein's book is a study of China's efforts to achieve rapid modernization of its economy within a socialist framework. Eckstein begins with an examination of economic development in pre-Communist China, specifically focusing on the resources and liabilities inherited by the new regime in 1949 and their effects on development policies. He then analyses the economic objectives of the Communist leadership: narrowing income disparities, maintaining full employment without inflation, and achieving rapid industrialization. He argues that the implementation of these goals required a potent ideology capable of providing a strong faith and motivational force for the mass mobilization of resources. In discussing the methods used by the government to achieve its aims, Eckstein makes a thorough evaluation of China's general framework for economic planning, particularly in regard to the distribution and pricing of farm products and the allocation of resources in the industrial sector. The author also evaluates the radical institutional changes in property relations and in economic organization in the People's Republic of China.
