the six capacities of love that are all necessary to a long term stable love relationship the capacities for erotic involvement for merging for idealization for integration for refining and for self transcendence The authors demonstrate in a very practical hands on way how individuals and couples can use these capacities to work on breaking down their usual defenses and grow toward a deeper understanding and connection In defending ourselves against disappointment in love we frequently and often unknowingly throw up obstacles create roadblocks and take detours around these six capacities We think such detours will take us where we want to go in a relationship but too often they do not Goldbart and Wallin s sophisticated but accessible approach using case studies and practical pointers throughout based on solid psycho analytic theory while creating a completely new model for love relationships that also makes intuitive sense Mapping the Terrain of the Heart offers a comprehensive psychology of love that maps out the paths to a successful relationship and shows how both individuals and couples can progress toward that ever elusive goal of lasting and passionate love **Savagery in the Heart**
