Questions seeks to champion the art of curiosity by setting out a framework to make every question count. The fundamental building blocks of insight are data and information joined together in new and often unpredictable ways. The way we surface new data and information and make meaningful connections between data points is by asking smarter questions. By taking this approach you can make your organisation a less confrontational, more collaborative and more productive environment in which to work, particularly in the more distributed and remote settings that will characterise the 2020s. Managers, directors and leaders will find the universal principles, expert interviews and data-driven recommendations a source of inspiration to share with their teams. Asking Smarter Questions is aimed at professionals in businesses and organisations across all sectors and will help those working in many functions including market research, intelligence, insight, analytics, strategy, marketing, communications, planning, product development and innovation.
