Sir Edward Grey A Biography Of Lord Grey Of Fallodon:

Sir Edward Grey Keith Robbins,1971 *Grey of Fallodon* George Macaulay Trevelyan,1937 **A Bibliography of British History, 1914-1989** Keith Robbins,American Historical Association,Royal Historical Society (Great Britain),1996

Containing over 25 000 entries this unique volume will be absolutely indispensable for all those with an interest in Britain in the twentieth century Accessibly arranged by theme with helpful introductions to each chapter a huge range of topics is covered There is a comprehensive index Statesman of Europe T. G. Otte,2020-11-26 The lamps are going out all over Europe We shall not see them lit again in our life time The words of Sir Edward Grey looking out from the windows of the Foreign Office at the end of August 1914 are amongst the most famous in European history and encapsulate the impending end of the nineteenth century world The man who spoke them was Britain's longest ever serving Foreign Secretary in a single span of office and one of the great figures of late Victorian and Edwardian Britain *Statesman of Europe* describes the three decades before the First World War through the prism of his biography which is based almost entirely on archival sources and presents a detailed account of the main domestic and international events and of the main personalities of the era In particular it presents a fresh understanding of the approach to war in the years and months before its outbreak and Grey's role in the unfolding of events Yet Grey's life was not all public affairs momentous as those were He disliked being in London much preferring country life at Fallodon his family estate in Northumberland and displayed none of the ambition of his contemporaries or successors He attended assiduously to his duties as director of the Great North Eastern Railway one of the transformative enterprises in industry and communications of the period and wanted to spend as much time as he could fishing Apart from his memoirs the only book he wrote was called *The Charm of Birds* This hinterland gave quality to his judgements and made his character attractive to his contemporaries This important book is the definitive biography of one of the pivotal figures in European diplomacy and a magnificent portrait of an age *Britain and the Iranian Constitutional Revolution of 1906-1911* Mansour Bonakdarian,2006-06-30 In this thoroughly researched account Mansour Bonakdarian provides an in depth exploration of the substantial British support for the Iranian constitutional and national struggle of 1906-1911 illuminating the opposition in Britain to Anglo Russian imperialist intervention in Iran In painstaking and compelling detail Bonakdarian analyzes in particular the role of the Persia Committee a lobbying group founded in 1908 for the sole purpose of changing Britain's policy toward Iran This book's strength lies in its coverage of how Sir Edward Grey's policy toward Iran was shaped and the extent to which this policy was affected by sustained criticism from a number of disparate groups including dissenters radicals socialists liberal imperialists and conservatives The volume and breadth of primary archival materials used is extensive Not only have all the standard collections been examined such as the Foreign Office files and the Cabinet and Grey papers but also numerous private archives in international libraries have been consulted Bonakdarian's deep understanding of the Iranian issues yields a rich and balanced approach to the literature in the field With

clear and systematic arguments he offers an account of diplomatic history that is accessible and persuasive His scholarship is certain to reinvigorate dialogue on the subject of Anglo Iranian relations Grey of Fallodon, Being the Life of Sir Edward Grey George Macaulay Trevelyan,1937 Encyclopedia of the Age of Imperialism, 1800-1914 Carl C. Hodge,2007-11-30 In 1800 Europeans governed about one third of the world s land surface by the start of World War I in 1914 Europeans had imposed some form of political or economic ascendancy on over 80 percent of the globe The basic structure of global and European politics in the twentieth century was fashioned in the previous century out of the clash of competing imperial interests and the effects both beneficial and harmful of the imperial powers on the societies they dominated This encyclopedia offers current detailed information on the major world powers and their global empires as well as on the people events ideas and movements both European and non European that shaped the Age of Imperialism World War I Almanac David R. Woodward,2009 Presents a day by day chronology of the events of World War I and a biographical dictionary of people involved in the conflict British Humanitarianism and the Congo Reform Movement, 1896-1913 Dean Pavlakis,2016-03-09 The Congo Free State was under the personal rule of King Leopold II of the Belgians from 1885 to 1908 The accolades that attended its founding were soon contested by accusations of brutality oppression and murderous misrule but the controversy by itself proved insufficient to prompt changes Starting in 1896 concerned men and women used public opinion to influence government policy in Britain and the United States to create space for reforming forces in Belgium itself to pry the Congo from Leopold s grasp and implement reforms Examining key factors in the successes and failures of a pivotal movement that aided the colonized people of the Congo and broadened the idea of human rights British Humanitarianism and the Congo Reform Movement provides a valuable update to scholarship on the history of humanitarianism in Africa The Congo Reform movement built on the institutional experience of overseas humanitarianism the energy of evangelical political involvement and innovations in racial imperial and nationalist discourse to create political energy Often portrayed as the efforts of a few key people especially E D Morel this book demonstrates that the movement increasingly manifested itself as an institutionalized and transnational campaign with support from key government officials that ultimately made a material difference to the lives of the people of the Congo **Liberalism and Liberal Politics in Edwardian England** George L. Bernstein,2023-08-11 First published in 1986 Liberalism and Liberal Politics in Edwardian England makes a lively contribution to the historical debate over whether the Liberal Party was already threatened by decline before the First World War It challenges the current orthodoxy among historians of the Liberal Party arguing that neither the new liberalism nor the progressive alliance with Labour helped to make it more attractive to working class voters Dr Bernstein takes a wide view of liberal ideology and policies stressing that the new liberalism cannot be treated in isolation from traditional domestic and external policies He examines the crucial relationship between party leaders and constituency activists and argues that the party was more effective when the leadership could mobilize the activists in support of

traditional domestic and foreign policies such as peace and retrenchment free trade education and temperance reform land reform the House of Lords and Irish Home Rule This book will be welcomed by both scholars and students of history and political science

The Hidden Perspective David Owen, 2014-09-15 In 1905 British Foreign Secretary Edward Grey agreed to speak secretly with his French counterparts about sending a British expeditionary force to France in the event of a German attack Neither Parliament nor the rest of the Cabinet was informed The Hidden Perspective takes readers back to these tense years leading up to World War I and re creates the stormy Cabinet meetings in the fall of 1911 when the details of the military conversations were finally revealed Using contemporary historical documents David Owen himself a former foreign secretary shows how the foreign office s underlying belief in Britain s moral obligation to send troops to the Continent influenced political decision making and helped create the impression that war was inevitable Had Britain s diplomatic and naval strategy been handled more skillfully during these years Owen contends the carnage of World War I might have been prevented altogether

Decisions For War, 1914 F.H. Hinsley, Keith Wilson, 2016-04-29 Keith Wilson is Lecturer in International History at the University of Leeds This book is intended for undergraduate history courses broad 20th century European history First World War military history war studies international and diplomatic history school libraries

Mosley and British Politics 1918-32 D. Howell, 2014-10-21 Oswald Mosley has been reviled as a fascist and lamented as the lost leader of both Conservative and Labour Parties Concerned to articulate the demands of the war generation and to pursue an agenda for economic and political modernization his ultimate rejection of existing institutions and practices led him to fascism

The Chamberlains, the Churchills and Ireland, 1874-1922 Ian Chambers, 2006 Winston Churchill and Austen Chamberlain both entered Parliament with inherited Unionist views However changing political circumstances in Britain and Ireland led them to change their stance and adopt policies that would have been anathema to their fathers

Lloyd George and the Generals David R. Woodward, 2004-11-23 The frustrating stalemate on the western front with its unprecedented casualties provoked a furious debate in London between the civil and military authorities over the best way to defeat Germany The passions aroused continued to the present day The mercurial and dynamic David Lloyd George stood at the centre of this controversy throughout the war His intervention in military questions and determination to redirect strategy put him at odds with the leading soldiers and admirals of his day Professor Woodward a student of the Great War for some four decades explores the at times Byzantine atmosphere at Whitehall by exhaustive archival research in official and private papers The focus is on Lloyd George and his adversaries such as Lord Kitchener General Sir William Robertson and Field Marshall Sir Douglas Haig The result is a fresh compelling and detailed account of the interaction between civil and military authorities in total war

A Sense of Power John A. Thompson, 2015-12-04 Why has the United States assumed so extensive and costly a role in world affairs over the last hundred years The two most common answers to this question are because it could and because it had to Neither answer will do according to this challenging re assessment of the way that America came to assume its global role The country's vast economic resources gave it the capacity to exercise great influence abroad but Americans were long reluctant to meet the costs of wielding that power Neither the country's safety from foreign attack nor its economic well being required the achievement of ambitious foreign policy objectives In *A Sense of Power* John A Thompson takes a long view of America's dramatic rise as a world power from the late nineteenth century into the post World War II era How and more importantly why has America come to play such a dominant role in world affairs There is he argues no simple answer Thompson challenges conventional explanations of America's involvement in World War I and World War II seeing neither the requirements of national security nor economic interests as determining He shows how American leaders from Wilson to Truman developed an ever more capacious understanding of the national interest and why by the 1940s most Americans came to support the price tag in blood and treasure attached to strenuous efforts to shape the world The beliefs and emotions that led them to do so reflected distinctive aspects of U S culture not least the strength of ties to Europe Consciousness of the nation's unique power fostered feelings of responsibility entitlement and aspiration among the people and leaders of the United States This original analysis challenges some widely held beliefs about the determinants of United States foreign policy and will bring new insight to contemporary debates about whether the nation should or must play so active a part in world politics

Reporting the First World War A. J. A. Morris, 2015-12-17 Charles Repington was Britain's most influential military correspondent during the first two decades of the twentieth century From 1914 to 1918 Repington's commentary in *The Times* *The War Day by Day* was read and discussed by opinion shapers and decision makers worldwide who sought to better understand the momentous events happening around them and his subsequently published diaries offered a compelling portrait of England's governing class at war This is the first major study of Repington's life and career from the Boer War to the end of the Great War A J A Morris presents unique insights into the conduct of the First World War and into leading figures in the British high command French Haig Robertson Wilson The book offers modern readers a rewardingly fresh understanding of the conflict and will appeal to scholars of the First World War and British political and military history of the period

Roots of War David G. Winter, 2018 *Roots of War* presents systematic archival experimental

and survey research on three psychological factors leading to war desire for power exaggerated perception of threat and justification for force set in comparative historical accounts of the unexpected 1914 escalation to world war and the peacefully resolved 1962 Cuban Missile Crisis Provided by publisher *The Origins of World War I* Richard F. Hamilton, Holger H. Herwig, 2003-02-24 This work poses a straightforward yet at the same time perplexing question about World War I Why did it happen Several of the oft cited causes are reviewed and discussed The argument of the alliance systems is inadequate lacking relevance or compelling force The arguments of mass demands those focusing on nationalism militarism and social Darwinism it is argued are insufficient lacking indications of frequency intensity and process how they influenced the various decisions The work focuses on decision making on the choices made by small coteries in Austria Hungary Germany Russia France Britain and elsewhere The decisions made later by leaders in Japan the Ottoman Empire Italy the Balkans and the United States are also explored The final chapters review the basic causes once again An alternative position is advanced one focused on elites and coteries their backgrounds and training and on their unique agendas
