Six Lectures On Sound And Meaning:

Six Lectures on Sound and Meaning Roman Jakobson, 1978 Six Lectures on Sound and Meaning Roman Jakobson, John Mepham, Claude Lévi-Strauss, 1981 Preface by C Levi Strauss **Structures of Language: Notes Towards a Systematic Investigation** Joan Casser, 2022-11-14 This annotated commentary delineating Michel P cheux s materialist discourse theory anticipates the formation of a real social science to supersede the metaphysical meanings always already there instituted by empirical ideology Structures of Language presents P cheux s consequential work in respect of Ferdinand de Saussure s epistemological breakthrough that founded the science of linguistics the theoretical separation of sound from meaning Noam Chomsky s generative grammar John Searle s philosophy of language B F Skinner s indwelling agents J L Austin s speech situations Jacques Lacan s symbolic order and other influential linguistic researchers are cited to explain imaginary semantic systems The broader implications for structural metaphysics in language use are tacitly conveyed

Remodelling Communication Gary Genosko, 2013-07-15 Covering major developments from post war cybernetics and telegraphy to the Internet and our networked society Remodelling Communication explores the critical literature from across disciplines and eras on the models used for studying communications and culture Proceeding model by model Genosko provides detailed explanations of mathematical semiotic and reception theory s encoding decoding models as well as Baudrillard s critique of models and general models that bring together a variety of disciplinary perspectives Providing a dynamic forward looking reorientation towards a new universe of reference Remodelling Communication makes a significant productive contribution to communication theory *Semiotics and City Poetics* Mary Coghill, 2022-12-05 Roman Jakobson stands alone in his semiotic theory of poetic analysis which combines semiotics linguistics and structuralist poetics This groundbreaking book proposes methods for developing Jakobson s theories of communication and poetic function It provides an extensive range of examples of the kinds of Formalist praxis that have been neglected in recent years developing them for the analysis of all poetry but especially the poetry of our urban future Throughout the book the parameters of a city poetic genre are proposed and established the book also develops the theory of the function of shifters and deixis with special reference to women as narrators It also instantiates an experimental poetic praxis based on the work of one of Jakobson s great influences Charles Sanders Peirce Steadfastly adhering to the text in itself this volume reveals the often surprising hitherto unconsidered structural and semiotic patterns within poems as a whole Roman Jakobson Richard Bradford, 1994 In Roman Jakobson Richard Bradford reasserts the value of Jakobson s work arguing that he has a great deal to offer contemporary critical theory and providing a critical appraisal the sweep of Jakobson s career Bradford re establishes Jakobson s work as vital to our understanding of the relationship between language and poetry By exploring Jakobson s thesis that poetry is the primary object language Roman Jakobson Life Language Art offers a new reading of his work which includes the most radical elements of modernism This book will be invaluable to students of Jakobson and to anyone

interested in the development of critical theory linguistics and stylistics The Spoken Word and the Work of Interpretation Dennis Tedlock, 2011-06-03 Dennis Tedlock presents startling new methods for transcribing translating and interpreting oral performance that carry wide implications for all areas of the spoken arts Moreover he reveals how the categories and concepts of poetics and hermeneutics based in Western literary traditions cannot be carried over in their entirety to the spoken arts of other cultures but require extensive reevaluation Transversal Rationality and Intercultural Texts Hwa Yol Jung, 2011-07-26 Winner of the 2012 Edward Goodwin Ballard Prize sponsored by the Center for Advanced Research in Phenomenology Transversality is the keyword that permeates the spirit of these thirteen essays spanning almost half a century from 1965 to 2009 The essays are exploratory and experimental in nature and are meant to be a transversal linkage between phenomenology and East Asian philosophy Transversality is the concept that dispels all ethnocentrisms including Eurocentrism In the globalizing world of multiculturalism Eurocentric universalism falls far short of being universal but simply parochial at the expense of the non Western world Transversality is intercultural interspecific interdisciplinary and intersensorial Transversal Rationality and Intercultural Texts means to transform the very way of philosophizing itself by infusing or hybridizing multiple traditions in the history of the world Like no other scholar Jung bridges the gap between Asian and Western cultures What is traditionally called comparative philosophy is not just a neglected branch of philosophy it is poised to radically transform the very conception of philosophy itself *Approaching the Qur'an* Michael Sells, 2023-10-05 Approaching the Qur'an presents brilliant translations of the short hymnic chapters or Suras associated with the first revelations to the Prophet Muhammad These early Suras contain some of the most powerful prophetic and revelatory passages in religious history offering the vision of a meaningful and just life that anchors the faith of one fifth of the world's inhabitants In addition to these translations Michael Sells provides an introduction to the Qur'an commentaries on the Suras a glossary of technical terms and discussions of the auditory nature and gender aspects of the Arabic text An ideal resource for students and interested lay readers this third edition also includes a new full Sura and associated commentary a new preface and a thoroughly updated bibliography **Language And Communicative Practices** William F Hanks, 2018-02-19 This book focuses on major theories of language from several disciplines and aims to develop an approach to communicative practice that combines the formal properties of linguistic systems with the dynamics of speech as social activity
