Slicing Edge Of Death:

Slicing Edge of Death Random House, 1994-08-01 **The Slicing Edge of Death** Judith Cook, 1993 Fictionalised account of the mysterious death of the Elizabethan playwright **Death Investigation** Ann Bucholtz, 2014-03-26 Death Investigation An Introduction to Forensic Pathology for the Nonscientist provides students and law enforcement professionals with an accurate clear overview of forensic pathology It presents death investigation at the scene and autopsy providing readers with a broad understanding of forensic pathology and giving them a clear picture of what happens after the examination of the scene Readers learn what first responders should and should not do at the scene and get a forensic pathologist s perspective on the importance of preserving evidence Death Investigation methodically explains what happens during autopsy to determine cause and manner of death including particulars of blunt force trauma sharp force injuries asphyxia and gunshot wounds and how findings are presented in court Written for a criminal justice audience by a practicing forensic pathologist and educator Death Investigation makes challenging forensics concepts accessible to nonscientists

Transnational Death Samira Saramo, Eerika Koskinen-Koivisto, Hanna Snellman, 2019-09-10 Transnational Death brings together eleven cutting edge articles from the emerging field of transnational death studies The collection highlights European Asian North American and Middle Eastern perspectives and reflects on people s changing experiences with death in the context of migration over time The collection begins with a thematic assessment of transnational death studies and then examines case studies divided into Family Community and Commemoration sections Together the chapters provide new insights on issues including identity and belonging community reciprocity transnational communication and spaces of mourning and commemoration The collection is edited by Dr Samira Saramo University of Turku Dr Eerika Koskinen Koivisto University of Jyväskylä and Professor of Ethnology Hanna Snellman University of Helsinki *Death Grip* Matt Samet, 2013-02-12 A world class climber s memoir of high altitude risk and rock bottom addiction to prescription psychiatric drugs and his dramatic fight to free himself from their grip **Cradle to Grave : Life, Work, and Death at the Lake Superior Copper Mines** Larry Lankton Associate Professor of History Michigan Technological University, 1991-03-07

Concentrating on technology economics labor and social history Cradle to Grave documents the full life cycle of one of America s great mineral ranges from the 1840s to the 1960s Lankton examines the workers world underground but is equally concerned with the mining communities on the surface For the first fifty years of development these mining communities remained remarkably harmonious even while new large companies obliterated traditional forms of organization and work within the industry By 1890 however the Lake Superior copper industry of upper Michigan started facing many challenges including strong economic competition and a declining profit margin growing worker dissatisfaction with both living and working conditions and erosion of the companies hegemony in a district they once controlled Lankton traces technological changes within the mines and provides a thorough investigation of mine accidents and safety He then focuses on social and

labor history dealing especially with the issue of how company paternalism exerted social control over the work force A social history of technology Cradle to Grave will appeal to labor social and business historians

Dissecting Death Frederick Zugibe, M.D., David L. Carroll, 2006-07-18 From TV's CSI to bestsellers by Patricia Cornwell and Kathy Reichs interest in forensics is at an all time high Now one of our most respected forensic pathologists gives a behind the scenes look at eleven of his most notorious cases cracked by scientific analysis and Sherlock Holmesian deduction As chief medical examiner of Rockland County New York for almost thirty five years Dr Frederick Zugibe literally wrote the book on the subject his widely used textbook is considered the definitive text Over the years he has pioneered countless innovations including the invention of a formula to soften mummified fingers enabling fingerprinting and thus identification of a long deceased victim He has appeared as an expert hundreds of times in the media and in the courtroom and not once has a jury failed to accept his testimony over opposing expert witnesses And now in Dissecting Death he has opened the door to the world of forensic pathology in all its gruesome and fascinating mystery Dr Zugibe takes us through the process all good pathologists follow using eleven of his most challenging cases With him we visit the often grisly though sometimes shockingly banal crime scene We inspect the body palpate the wounds search for clues in the hair and skin We employ ultraviolet light strange measuring devices optical instruments We see how a forensic pathologist determines the hour of death the type of weapon used the killer's escape route And then we enter the lab the world of high tech criminal detection DNA testing fingerprinting gunshot patterns dental patterns X rays But not every case ends in a conviction and in a closing chapter Dr Zugibe examines some recent high profile cases in which blunders led to killers going free either because the wrong party was brought to trial or because the evidence presented didn't do the trick including Jon Benet Ramsey's murder and of course the O J Simpson trial
