Antonio Mendoza Pérez,2007-05-10 Desde nuestro punto de vista una de las grandes aportaciones de la Psicología al Deporte ha sido su contribución al desarrollo de una nueva concepción del entrenamiento deportivo que ha pasado de tener un enfoque unilateral centrado en la técnica a una visión global en la que se incorporan todos los elementos que intervienen ya sea directa o indirectamente en el proceso y donde ya no es suficiente la aplicación correcta de la técnica y la táctica ahora las estrategias juegan un papel destacado si queremos conseguir el éxito en el deporte En este sentido tanto los planteamientos metodológicos como la preparación psicológica del entrenador juegan un papel destacado Estas son las cuestiones que nos van a ocupar en el presente libro y que nos van a servir para identificar las habilidades psicológicas a desarrollar las habilidades de dirección de equipos los rasgos de personalidad más destacados y las características psicológicas de los entrenadores de fútbol
