

Spring Will Come Again¹

Spring will come again, people say.
Yet I am heartsick.
Nothing will happen when spring comes;
that child will not come again.

I remember May this year:
I bundled you off to the zoo.
When I showed you the elephant, you went: 'Meow';
and when I showed you the birds, again you went: 'Meow'.

The deer I showed you last of all,
its antlers must have impressed you a lot:
you stared at it without saying a thing.

At that time you really were
in the light of this world,
standing and staring at it...

Spring Will Come William N. Zulu, 2005 William Zulu has a natural flair for storytelling and his writing is informed and articulate His wryly observant eye offers a fascinating window to the world of traditional Africa with all its superstition patriarchal rigidity and prejudices on the one hand and its humour shrewd observance and innovative survival strategies on the other Reading his story one is left with a vivid sense of the rural African battles for survival that pit ingenuity against lack of resources and of the redemptive power of ubuntu demonstrated in the kindness of strangers of all races who extend helping hand and heart in the midst of spiritual and physical destitution **Spring Will Come** is a story that lives up to its title **BOOK JACKET**

From Arab Spring to Islamic Winter Raphael Israeli, 2017-09-08 The world is watching with uncertainty as the Arab Spring unfolds Optimistically named by international media sources the term Arab Spring associates the unrest with ideas of renewal revival and democratic thought and deed Many hoped the overthrow of authoritarian leaders signaled a promising new beginning for the Arab world Raphael Israeli argues that instead of paving a path toward liberal democracy the Arab Spring in fact launched a power struggle Judging from the experiences of countries where the dust is settling including Tunisia Egypt Yemen and perhaps also Syria and Libya it appears that Islamic governments will fill the vacuum in leadership The hopes that swept the Islamic world with the Arab Spring have given way to a winter of lost hopes and aspirations as it becomes increasingly clear that democratic outcomes are not on the horizon What is worse is that the West seems to have abandoned its hopes for democracy and freedom in the region instead making peace with the idea that Islamic governments must be accepted as the lesser of evil options Presenting a clear-eyed picture of the situation Israeli examines thematic problems that cut across all the Muslim states experiencing unrest He groups the countries into various

blocs according to their shared characteristics then discusses these groups one by one For each country he considers whether the liberal democratic option is viable and examines what kind of regime could be considered legitimate and stable This volume offers valuable insights for political scientists Middle Eastern specialists and the general informed public eager to comprehend the import of these momentous events [Congressional Record](#) United States. Congress,2000 [Spring Will Be Ours](#) Andrzej Paczkowski,2010-11-01 The Spring Will Be Ours focuses on the turbulent half century from the outbreak of World War II in 1939 which started the chain of events that would lead to the communist takeover of Poland to 1989 when futile attempts to reform the communist system gave way to its total transformation Andrzej Paczkowski shows how the communists captured and consolidated power describes their use of terror and propaganda and illuminates the changes that took place within the governing elite He also documents the political opposition to the regime both inside Poland and abroad that resulted in upheavals in 1956 1968 1970 1976 and 1980 His narrative makes evident the pressures that the elite felt from above from Moscow and from below from the population and from within the party The history of Poland and the Poles is of special interest because on numerous occasions in the twentieth century this relatively small country influenced developments on a global scale [Global Perspectives on the Internationalization of Higher Education](#) Branch, John D.,Durnali, Mehmet,2023-02-24 Transnational higher education was triggered largely by the marketization of higher education which itself manifests in such characteristics as academic rankings institutional branding and an emphasis on managerialism Recent advances in technology and the global COVID 19 pandemic have also driven a virtual internationalization of higher education with universities expanding their digital footprints overseas accelerating their distance education offerings and exploring such innovations as virtual exchange programs Global Perspectives on the Internationalization of Higher Education documents contemporary perspectives on the internationalization of higher education and considers its history throughout the years in order to understand potential future directions Covering key topics such as student recruitment institutional branding and student mobility this premier reference source is ideal for administrators principals researchers academicians practitioners scholars instructors and students *The Decline of Nation-States after the Arab Spring* Imad Salamey,2016-10-14 Surveying the causes of the Arab Spring and revealing the governing trends arising from it this book examines various international relation theories through the lens of the experiences of the countries in the Middle East and North Africa region It takes the events of the Arab Spring as an outcome of globalization s double movement whose integrative cultural political and security frameworks devastated nationally controlled economies undermining the nation state system and propagating a decentralized and communitarian based governance structure The consequences for many plural diverse societies were two fold autocratic nationalism was discarded while decentralized regimes representing communitarian based politics came to the fore The author reveals how the formulation of a new communitocratic order rests on the accommodation of this newly emerging communitarianism and

explores the major drivers of political transformation describing the emerging communities forecasting their governing options and the possible repercussions for the post Arab Spring states
