Neutral Ground Brett F. Woods, 2008 Neutral Ground A Political History of Espionage Fiction takes the reader behind the fiction and explores the real world political military and diplomatic events that have consistently and significantly threaded their way through the fabric of the genre Against this historical timeline it examines how numerous authors including Rudyard Kipling Somerset Maugham Graham Greene and John le Carre have engaged reality in order to write the espionage novels that have become literary classics and in selected cases have also served to alter the course of government policy From publisher s description

Spyscreen Toby Miller, 2003 This is a genre study of English language spy fiction film and television between the 1930s and 1960s Taking as his focus many well known films and television series such as James Bond Gilda The Man From U N C L E and The Avengers Toby Miller uses a wide range of critical approaches including textual interpretation audience studies and cultural history to offer new insights into this popular genre

Spies and Holy Wars Reeva Spector Simon, 2010-11-15 Illuminating a powerful intersection between popular culture and global politics Spies and Holy Wars draws on a sampling of more than eight hundred British and American thrillers that are propelled by the theme of jihad an Islamic holy war or crusade against the West Published over the past century the books in this expansive study encompass spy novels and crime fiction illustrating new connections between these genres and Western imperialism Demonstrating the social implications of the popularity of such books Reeva Spector Simon covers how the Middle Eastern villain evolved from being the malleable victim before World War II to the international techno savvy figure in today s crime novels She explores the impact of James Bond pulp fiction and comic books and also analyzes the ways in which world events shaped the genre particularly in recent years Worldwide terrorism and

economic domination prevail as the most common sources of narrative tension in these works while military tech novels restored the prestige of the American hero in the wake of post Vietnam skepticism Moving beyond stereotypes Simon examines the relationships between publishing trends political trends and popular culture at large giving voice to the previously unexamined truths that emerge from these provocative page turners Encyclopedia of American Popular Fiction Geoff Hamilton, Brian Jones, 2015-04-22 Provides information on American authors and their works who have been ignored by most literary guides *The Cambridge Companion to American Crime Fiction* Catherine Ross Nickerson, 2010-07-08 This Companion examines the range of American crime fiction from execution sermons of the Colonial era to television programmes like *The Sopranos* Hayek: A Collaborative Biography R. Leeson, 2015-01-15 F A Hayek 1899 1992 the co leader of the Austrian free market school embraced the transparently fraudulent assertion made by Donald McCormick aka Richard Deacon in *The British Connection* which accused A C Pigou the co leader of the Cambridge market failure school of being a Soviet spy **The Spy Novels of John Le Carré** M. Aronoff, 1998-12-14 Using espionage as a metaphor for politics John le Carr explores the dilemmas that confront individuals and governments as they act during and in the aftermath of the Cold War His unforgettable characters struggle to maintain personal and professional integrity while facing conflicting personal institutional and ideological loyalties In *The Spy Novels of John le Carré* author Myron Aronoff interprets the ambiguous ethical and political implications of the work of John le Carré revealing him to be one of the most important political writers of our time Aronoff shows how through his writing le Carré poses the difficult question of to what extent are western governments justified in pursuing raison d'état without undermining the very democratic freedoms that they claim to defend He also draws parallels between the self parody of le Carré and that of the seventeenth century Dutch artist Jan Steen and explains how it expresses a unique form of ambiguous moralism In this volume Aronoff relates le Carré's fictional world to the real world of espionage and demonstrates the need to balance the imperatives of ethics and politics in regard to some of the most pressing issues facing the world today Perilous Escapades Gary Hoppenstand, 2018-04-19 Adventure fiction is one of the easiest narrative forms to recognize but one of the hardest to define because of its overlap with many other genres This collection of essays attempts to characterize adventure fiction through the exploration of key elements such as larger than life characters and imperialistic ideas in the genre's 19th and 20th century British and American works like *The Scarlet Pimpernel* by Orczy and *Captain Blood* by Sabatini The author explores the cultural and literary impact of such works presenting forgotten classics in a new light
