Squeaky Clean:

ECSCW 2001 Wolfgang Prinz, Matthias Jarke, Yvonne Rogers, K. Schmidt, Volker Wulf, 2007-05-08 Schmidt and Bannon 1992 introduced the concept of common information space by contrasting it with technical conceptions of shared information Cooperative work is not facilitated simply by the provisioning of a shared database but rather requires the active construction by the participants of a common information space where the meanings of the shared objects are debated and resolved at least locally and temporarily Schmidt and Bannon p 22 A CIS then encompasses not only the information but also the practices by which actors establish its meaning for their collective work These negotiated understandings of the information are as important as the availability of the information itself The actors must attempt to jointly construct a common information space which goes beyond their individual personal information spaces The common information space is negotiated and established by the actors involved Schmidt and Bannon p 28 This is not to suggest that actors understandings of the information are identical they are simply common enough to coordinate the work People understand how the information is relevant for their own work Therefore individuals engaged in different activities will have different perspectives on the same information The work of maintaining the common information space is the work that it takes to balance and accommodate these different perspectives A bug report in software development is a simple example Software developers and quality assurance personnel have access to the same bug report information However access to information is not sufficient to coordinate their work

Manipulation Robert Noggle, 2025-02-24 Gaslighting flattery misdirection nagging emotional blackmail charm offensives playing on emotions These are all examples of ordinary manipulation Such manipulation is common in everyday life which is unfortunate since manipulation seems like a bad thing Manipulation Its Nature Mechanisms and Moral Status answers three questions about manipulation what is it how does it work and why is it bad Addressing the first question requires us to find something that all forms of manipulation have in common but which is not shared by other forms of influence Robert Noggle argues that the common feature of all forms of ordinary manipulation is that they are mistake inducing This idea is the basis for the Mistake Account of manipulation which defines manipulation as a kind of influence that operates by introducing a mistake into the mental states or processes of the person being influenced To explain how manipulation works this book explores the psychological levers that manipulators use to get us to make the mistakes that will get us to do what they want These include various cognitive and decision making biases our tendency to choose the lesser good over the greater good when the lesser good is immediately available and the simple fact that human reason is an imperfect thing To explain why manipulation seems like a bad thing Noggle first argues that while manipulation is always presumptively immoral it can be justified in extreme situations He then shows that manipulation s presumptive immorality derives from the fact that it involves getting someone to make a mistake and making a mistake is a bad thing However the most morally egregious instances of manipulation also have bad effects on well being and autonomy This book

concludes by applying the Mistake Account to various influences including priming conditioning nudges advertising sales and online influences *Jerry Baker's Bug Off!* Jerry Baker,2005-09 The author s suggestions for using common household products to controls pests of all types in the yard and garden *Poems and Song Lyrics of Faith and Hope* Shane Rishell,2009-05 Poems and song lyrics of faith and hope is a collection of writings that have been a work in progress over the last 20 years of my life Writings that reflect the power and love that God has for us From his passion he has for humanity by sending his son Jesus to die for our short comings to show us how to live love and forgive Along with his power to deliver us from issues that plague our lives so that we can freely worship him and give him the glory for all that he has done for us
