Discipline and Learn Bodies Pedagogy and Writing explores how discipline is typically construed as a form of subjection in contemporary educational thought and in critical and cultural theory more broadly It provides a critique of this emphasis on the repressive aspects of discipline highlighting its enabling potential and role in the development of dispositions to learning The book engages with the work of a range of theorists Foucault Bourdieu Merleau Ponty Mauss and Spinoza and considers their usefulness in theorizing embodiment and learning in the teaching of writing in the early years of school Emphasis however is placed on the work of Bourdieu and his notion of habitus melding theory and practice in an ethnography of contemporary classrooms This text is invaluable reading for students and academics across the social sciences and humanities interested in questions of embodiment affect and their relation to learning This is the most thought provoking book to be published on pedagogy in a long long time Conceptually elegant and empirically rich it undercuts conventional wisdom and potentially rearranges how we think about teaching learning and writing It argues that students bodies not just their minds matter in learning explaining how in practice the desire to learn is a mindful bodily disposition And it shows how through an enabling form of discipline teachers can produce a scholarly habitus in all students including the educationally disadvantaged and defiant Jane Kenway Professor of Education Monash University Discipline and Learn Bodies Pedagogy and Writing an excellent book which makes an important contribution to our understanding of both pedagogy and the body and which is sure to spark debate in both fields It is careful and judicious in its approach but still manages to be provocative and original Nick Crossley Professor of Sociology University of Manchester American Book Publishing Record ,2005 **17 Year-wise CTET Paper 2**
