Teaching Children of Different Cultures in the Classroom Arnold B. Cheyney, 1976

The Routledge Handbook of Language and Culture Farzad Sharifian, 2014-12-17 The Routledge Handbook of Language and Culture presents the first comprehensive survey of research on the relationship between language and culture. It provides readers with a clear and accessible introduction to both interdisciplinary and multidisciplinary studies of language and culture and addresses key issues of language and culturally based linguistic research from a variety of perspectives and theoretical frameworks. This Handbook features thirty three newly commissioned chapters which cover key areas such as cognitive psychology, cognitive linguistics, cognitive anthropology, linguistic anthropology, cultural anthropology, and sociolinguistics. It offers insights into the historical development, contemporary theory, research, and practice of each topic and explores the potential future directions of the field. It shows readers how language and culture research can be of practical benefit to applied areas of research and practice such as intercultural communication and second language teaching and learning. Written by a group of prominent scholars from around the globe, The Routledge Handbook of Language and Culture provides a vital resource for scholars and students working in this area.

History of Multicultural Education Volume 5 Carl A. Grant, Thandeka K. Chapman, 2013-10-23 This benchmark 6 volume set documents, analyzes, and critiques a comprehensive body of research on the history of multicultural education in the U.S. The volumes reflect the tenets of multicultural education: its history, its present, and individuals whose work has contributed significantly to equity and social justice for all citizens. By collecting and providing a framework for key publications spanning the last 30-40 years, this set provides a means of understanding and visualizing the development, implementation, and interpretation of multicultural education in American society. The volumes do not promote any one scholar's or group's vision of multicultural education but include conflicting ideals that inform multiple interpretations. Each volume contains archival documents organized around a specific theme: Conceptual Frameworks and Curricular Content; Foundations and Stratifications; Instruction and Assessment; Policy and Governance; Students and Student Achievement; Teachers and Teacher Education. The historical time line within each volume illustrates the progression of research and theory on its theme and encourages readers to reflect on the changes in language and thinking concerning educational scholarship in that area.
