Rethinking L1 Education in a Global Era Bill Green, Per-Olof Erixon, 2020-11-24 This book brings together a range of scholars from 10 different countries to address the contemporary state of play in national standard language education in the L1 subjects. It seeks to understand the field from within a comparative historical and transnational frame. Four thematic threads are woven through the volume: educationalisation, globalisation, pluriculturalism and technologization. The chapters range over various aspects of L1 as a school subject, literature, language and literacy, reading and writing, media and digital technology, the dialogue between curriculum inquiry and Didaktik studies, the continuing relevance of Bildung, the significance of history and nation and new challenges of culture and environment in the face of climate change. The book concludes with a reflection on the prospects for L1 education today and tomorrow in a now thoroughly globalised context and accordingly deeply implicated in a necessary new project of nation re-building. **The English Teacher's Handbook**
