Teaching English To Speakers Of English:

Teaching English to Speakers of Other Languages David Nunan, 2015-02-11 David Nunan's dynamic learner centered teaching style has informed and inspired countless TESOL educators around the world. In this fresh straightforward introduction to teaching English to speakers of other languages he presents teaching techniques and procedures along with the underlying theory and principles. Complex theories and research studies are explained in a clear and comprehensible yet non trivial manner without trivializing them. Practical examples of how to develop teaching materials and tasks from sound principles provide rich illustrations of theoretical constructs. The content is presented through a lively variety of different textual genres including classroom vignettes showing language teaching in action, question and answer sessions and opportunities to eavesdrop on small group discussions among teachers and teachers in preparation. Readers get involved through engaging interactive pedagogical features and opportunities for reflection and personal application. Each chapter follows the same format so that readers know what to expect as they work through the text. Key terms are defined in a Glossary at the end of the book. David Nunan's own reflections and commentaries throughout enrich the direct up close style of the text.

Goal-Driven Lesson Planning for Teaching English to Speakers of Other Languages Christina Michaud, Marnie Reed, 2010-07-29 This book is more than a collection of activities or ready made lesson plans to add to a teaching repertoire. Instead Goal Driven Lesson Planning is intended to empower teachers and help them create a principled framework for their teaching, a framework that will shape the varied activities of the ESL classroom into a coherent teaching and learning partnership. After reading this book teachers and prospective teachers will be able to articulate their individual teaching philosophies. Goal Driven Lesson Planning shows readers how to take any piece from English language materials, an assigned text, a random newspaper article, an ESL activity from a website etc and use it to teach students something about language. Readers are walked through the process of reflecting on their role in diagnosing what that something is, what students really need and planning how to get them there and how to know when they got there in a goal driven principled manner. This book has chapters on the theory of setting specific language goals for students, how to analyze learner needs including an initial diagnostic and needs analysis templates to use when planning goal driven English language lessons, explicit instruction on giving corrective feedback, how to recognize and assess student progress and the mechanics and logistics that facilitate the goal driven language classroom.
